National Bank
of Pakistan

We are a leading commercial bank, established on November 08, 1949 under the National Bank of Pakistan Ordinance, 1949. While we have been entrusted to act as an agent to the State Bank of Pakistan, over the years, we have redefined our role into a modern growth-oriented commercial bank by expanding our business network across continents and by capturing sizable market share in the capital & equity markets, corporate investment banking, retail and consumer banking, agricultural financing and treasury services in Pakistan. We have an international presence through our branches and subsidiaries in the Far East, Middle East, South Asia, Central Asia, Europe and North America.

Together, with our local and international subsidiaries, we provide commercial banking services including corporate loans, investment banking advisory, forex, global remittances, underwriting, asset management, agency services, brokerage, leasing, Modaraba and such other banking & financial services. We strive in promoting financial inclusion of the unbanked masses in the country, creating equal employment opportunities and delivering our responsibilities as a good corporate citizen.

7 DECADES OF SUCCESS

Every success story begins with a humble step. It was 8th November, 1949, when the National Bank of Pakistan came into existence and since then there has been no looking back. Every year has been a success story in its own right, and this year the Bank celebrates 68 glorious years of trust, quality service and contributions towards economic development in the Country. Moving forward we've set the NBP wheel in motion for 2018 and beyond to be years full of celebrations, fulfilling promises, realizing dreams, and setting even bigger goals! Let us now closely look at the developments that have taken place at the Bank over almost seven decades...

2010 Till Today... Still Focused & Driven

- The Bank appointed proficient and dynamic Regional Heads to change the destiny of the Bank and help the economy of the country.
- In 2017, the Bank posted the highest ever after-tax profit of PKR 23.03 billion. NBP became 'Two Trillion Rupee' Bank and is still growing strong.
- In 2013 with the growing popularity of Islamic Banking, NBP successfully launched its brand 'Aitemaad' to offer the true spirit of Islamic Finance.
- Won Bank of the Year Award-2015
- NBP made it to Guinness Book of World Record by installing World's highest ATM.
- Reaching the 69th year of this great institution let us re-dedicate ourselves to helping the nation secure prosperity and economic opportunity for all. Let us all rejoice in this celebration.

2000 – 2009... The Millennium

- The decade witnessed restructuring programme, where unprofitable and loss making branches were closed or merged. No. of Regions were reduced to 29.
- National Bank of Pakistan went public with IPO of 23.2% shares and listing at all domestic stock exchanges (2001).
- In 2002, the Bank signed agreement with Western Union.
- The Bank's wholly owned Exchange Company commenced operations in February 2003.
- NBP gained market recognition and received over 30 international awards.

The 1990s... Initiatives & Reforms

- The 1990s was a decade of new financial reforms and initiatives. In 1996, National Discounting Services Ltd was launched as a wholly owned subsidiary of NBP.
- In 1997 the Bank launched a major reorganization programme and offered Golden Handshake Scheme.
- The Bank became a SWIFT member in 1998. The facility provides modern technology to Bank customers for prompt and convenient cash transactions and remittances round the clock.
- In 1999 the Bank celebrated its Golden Jubilee. By the close of the decade its market share had reached around 22% and it remained the largest financial institution in the Country.

The 1980s... New Trends and Alliances

- In 1980s the government announced a three year plan for the implementation of an Islamic Economic System.
- NBP introduced a separate and comprehensive procedure for banking under this system from branch level to Head office.
- Consolidation and reorganization resulted in closure of 286 branches; from 1,646 branches (1979) to 1,360 branches (1989).
- Overseas expansion continued with opening of representative office in Beijing (1981) and in Seoul, South Korea (1985), the latter was converted into a branch in 1987.
- The Bank increased its authorized and paid up capital twice during the 80s, gaining a much broader and stronger equity base.

The 1970s... Restructuring & Growth

- During this period, there was growth in branch network both at home and abroad.
 - The 1970s witnessed the nationalization of Pakistani commercial banks operating in the Country.
 - In 1972 the National Bank of Pakistan evolved the Supervised Agricultural Credit Programme, and introduced a new methodology of viable credit for small farmers available at their doorstep.
 - On January 1, 1974 National Bank of Pakistan along with 13 other scheduled Pakistani banks was nationalized.
- In 1960s, NBP started the 'School Scheme' to popularize banking and savings habit. This scheme was offered to industrial workers and school & college students.
 - Operative in 1,189 schools and deposits raised to Rs. 2.9 million. And by 1969, NBP's 'worker scheme' raised the total deposits by factory workers into Rs. 2.84 million and the number of accounts opened had touched 8,767.

The 1960s... Dawn of Developments

The 1950s... The Beginning

- During 1950s the Bank undertook expansion of branch network.
- First overseas branch established in Jeddah, Saudi Arabia (1950), a branch in London (1953) and another branch in Baghdad (1957).
- The Bank took Government Operations and established currency chests at various locations. It managed currency chests or sub-chests at 57 of its offices. Deposits which constituted 3.1 percent of total deposits of all Pakistani banks in 1949 had risen to 38 percent by 1952.

OUR BUSINESS, OBJECTIVES & STRATEGY

Our Business

Together, with our local and foreign subsidiaries, we provide commercial banking services, including loans, to all types of borrowers, including asset management, leasing, forex, global remittances, agency, investment advisory and such other financial services.

Key streams of our income include net mark-up income generated through commercial loans under both the conventional and Islamic mode of financing and investment. This is the residue from the mark-up income generated through lending to individual, commercial and corporate borrowers and the cost we bear on the deposits placed by the customers, borrowings and other debt obligations. We earn non mark-up income by way of fees for the financial services and other products we provide to our customers as well as the income generated through investments, dividend income, gains on equity investment, income through dealing in foreign exchange, government securities, etc. We also earn through strategic investment in other entities, as well as investment in subsidiaries and associates.

We function in a highly competitive and regulated, but one of the most promising, market environment that offers significant growth opportunities. By virtue of our strong branding, capital adequacy and other strengths, our aim is to capitalise market opportunities for sustainable maximisation of shareholders' value.

Core Objectives & Strategic Focus

- Our strategy revolves around our ultimate target of becoming a leading bank in partnering financial growth through innovation and service. This is what drives us.
- With a premium market share of financial market in Pakistan, NBP is better placed to strengthen its leading position as a provider of comprehensive and sustainable avenues to its customers to meet their rising credit & non-credit financial requirements.
- The Bank will continue to focus on all dimensions of its core business and expand into other value-adding related business segments, particularly the non-fund based financial services.
- The Bank's ambitious programme of expanding its market footprint shall continue both in domestic as well as international markets.
- Adapting with the alternative delivery channels and using innovative technologies for fast track growth, new products and services shall be added regularly to our product universe. This will play an important role in making the Bank the preferred partner for large corporate as well as retail customers.
- The Bank shall remain dedicated towards promoting financial inclusion of unbanked masses in the country

through all available strategic avenues, with particular focus on partnership opportunities in Government initiated businesses.

- The Bank places greater emphasis on investing in people to build an efficient human capital pool which is vital for sustainable growth. The Bank will continue to focus on its people through training & development by providing excellent work place environment, equal growth opportunities and market competitive remuneration & reward mechanism.
- The Bank, as a caring corporate citizen, shall continue to promote social development of the communities where it operates. The Bank shall continue its endeavours by extending financial and in-kind contribution towards improving health, education, sports and environment across the country.
- The Bank shall remain committed to improve business returns, attain sustainable growth with a focus on integrated value creation, adding innovative solutions and ensuring quality & integrity as an integral part of its operations.

Our Footprint

We have an unparalleled and one of the largest branch networks amongst Pakistani banks and operating all around the country, including the most remote areas where no other bank operates. We are expanding our network of both conventional and Islamic banking branches. The recent rise of urbanisation and the middle class, rapid technological shift and increasing local & global business connectivity are all driving our footprint growth. Our business operations are based on a geographically diversified, composite, integrated & cohesive structure whereby the banking and non-banking financial & related services are typically provided by the Bank through its domestic and international branches, subsidiaries and associates.

Geographical Presence

- Pakistan
- Far East
- Middle East
- Central & South Asia
- North America
- Europe

Our strategy; strong capital base, brand synonymous and market outreach in both domestic and international markets enable us to benefit from the emerging business & growth opportunities as we focus on providing unmatched business facilities to our customers. We are circumspect and realistic about the market challenges, and appreciate that a proactive strategy will execute our strategic plans as desired, thus generating greater value for our shareholders and other stakeholders.

Our Product Universe

We proactively identify our customers and their banking requirements, which are broadly categorised into four basic categories. Our diversified and comprehensive products and services package caters all credit and non-credit financial requirements across the customer and client spectrum. Individuals can benefit from a large array of our products i.e. a safe place to deposit their savings, government employees can obtain financing against their salary, can obtain mortgage finance as a first step towards

building a home or can benefit from our home remittance service to receive cross-border funds from their family members abroad. For businesses, NBP is all there to help entrepreneurs launch a start-up, fund their balance sheet growth, manage payments timely & securely, expand internationally, manage financial risks effectively, and deal with thousands of business counterparts globally through our branches and representative offices.

Our Aspirations

Our aspirations come from our extensive market outreach, strong capital base, optimally diversified and strong balance sheet, customer loyalty and an ambitious team. We significantly share government / public sector business. We are the only bank in Pakistan rated 'AAA' by both the recognised credit rating agencies in Pakistan. We aim to be the best and most innovative bank in Pakistan meeting all business needs of all segments of economy and rapidly growing SME sectors, Islamic banking, global home remittances and cash management.

Our Priorities

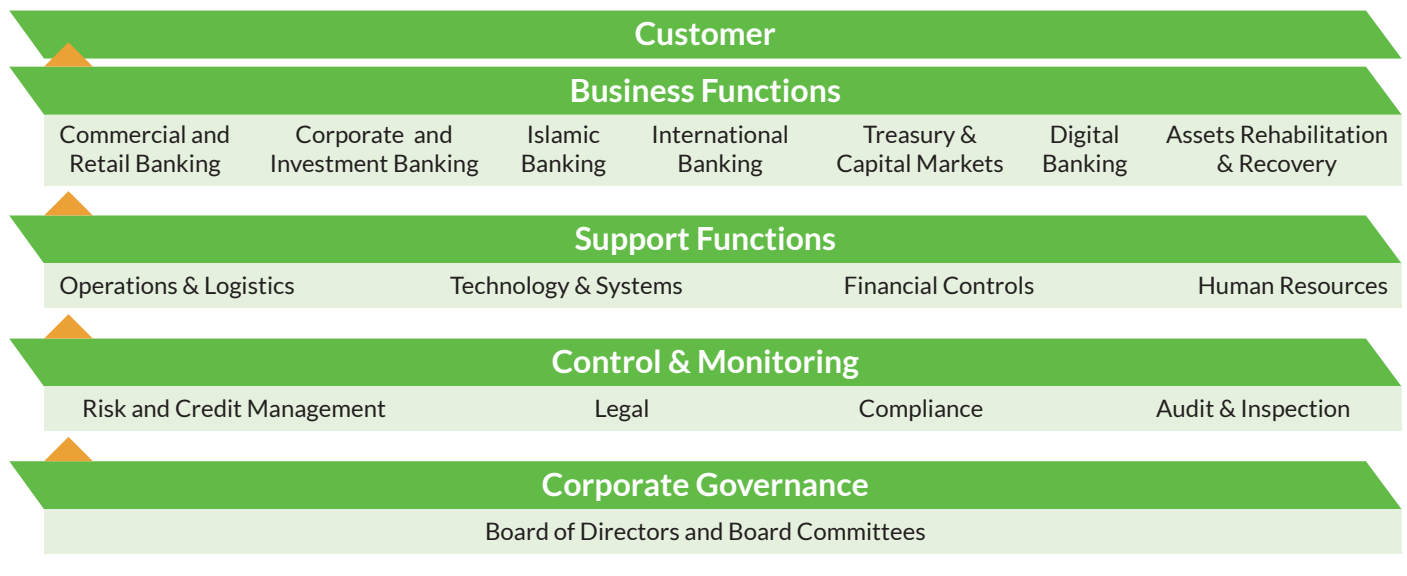

We are confident of our aspirations and solid foundations, which will steer us through the challenges faced by the banking industry and we will efficiently achieve our core objectives and priorities. As the Bank is moving forward through restoring its fundamental strengths, we have defined interconnected and mutually composite strategies for the years ahead. Our priorities are synchronised with our strategy for capitalising other opportunities offered by the market, and set a solid path for us to deliver our strategy towards capitalising the value addition opportunities offered by the market.

Our Operating Structure

The Bank has developed a diversified and customer-focused delivery system to provide financial services to individuals, small & medium enterprises as well as large corporate and public sector clients. We have

organised a dedicated business function for each type of clientele. Our various centralised functions at Head Office level provide support to the business groups in smooth execution of their business activities. Our Head Office control functions provide a supervisory and governance role through policy making and monitoring.

The business functions are primarily responsible for making business plans & strategies for their respective business domain and ensuring that it is coherent with the overall business strategy of the Bank. Each business group defines and delivers the customer proposition and is accountable for end-to-end customer processes and products.

Support and control functions define strategy to support the business functions in achieving their business goals. The control functions extend their expertise in developing & implementing policy framework that sets the route for the business groups.

Our Code of Conduct

Our Code of Conduct sets the minimum standards that we unconditionally commit to our Bank, so as to create an environment desired for achieving our strategic goals. Key pillars of the Code of Conduct are as follows:

Honesty & Integrity	Compliance with the Law	Respect For All!	Confidentiality	Managing Conflict of Interest	Respect the Organisation
All our decisions and actions shall continue to be, and seem to be, driven by the utmost level of honesty, integrity and fairness by executing right things in a right way.	We shall always continue to comply in letter & spirit with laws, rules & regulations of Pakistan and the countries where we have established our business.	We shall always extend maximum respect, kindness and fairness to all our customers, colleagues, applicants for employment, vendors and counterparties.	We shall continue to appreciate and honour the trust bestowed upon us by our customers and counterparts in regard to their personal and business information that we possess.	The sole trigger of all our decisions and actions shall contribute towards success of the Bank, enhance its reputation and to foster its client relationships.	We respect our organisation through adherence to its By-Laws, rules, policies and procedures; and by remaining committed to safeguarding Assets, Reputation and Relations of the Bank.
We shall always be committed to maintaining an environment that leads to achieve the highest desired level of honesty & integrity.	Our adherence to the laws shall always be evident in all our operations, transactions and activities wherever those take place.	We shall not allow or tolerate any discrimination among our stakeholders, both within and outside the organisation.	We all sign a 'Declaration of Confidentiality' to act as a trustworthy holder of Information and to use it only for intended business purposes.	We manage our personal, financial and business affairs in a manner that ensures avoidance, or even appearance, of any conflict of interest.	We acknowledge our responsibility as a 'Whistle Blower' to safeguard the interest of our Stakeholders by avoiding things taking place in a wrong direction.

Customer Service Quality

Our market share, financial results and the acclaim we receive at local and international forums are reminiscent of the continuous resolve & success towards translating our strategies into favourable numbers. In the growing competitive market, we are striving to develop a customer-driven Sales & Service Culture. Our Board is also keen to observe a visible change in Service Quality Standards at NBP. A Service Quality Group has been established with the sole aim & objective to reinvigorate the Sales & Service Culture in the Bank and to change-over from customer satisfaction to Customer Delight.

Our Service Quality team, with its vast experience of Service Quality in the financial services industry, has strategised various initiatives to be implemented at NBP to ensure smooth transition towards Customer Delight. Our plans to achieve Customer Delight include employee training, improving business processes and workplace environment, and placement of service quality officers.

Investor Relations

Maximising shareholders' value is on top of our mission. We aspire to further strengthen our corporate image and instill investors' confidence in NBP by implementing a business-like approach for communicating material financial information to the shareholders and other stakeholders in a transparent manner. We are determined to resolve our shareholders' concerns, and to discharge our obligation of providing material information about the financial position & performance of the Bank, its subsidiaries, joint venture and associates within statutory timelines.

Through this function, the Bank extends an efficient avenue to the shareholders to express and resolve their concerns. Shareholders can contact us at investor.relations@nbp.com.pk and may also approach our share registrar M/s. CDC Company of Pakistan Ltd.

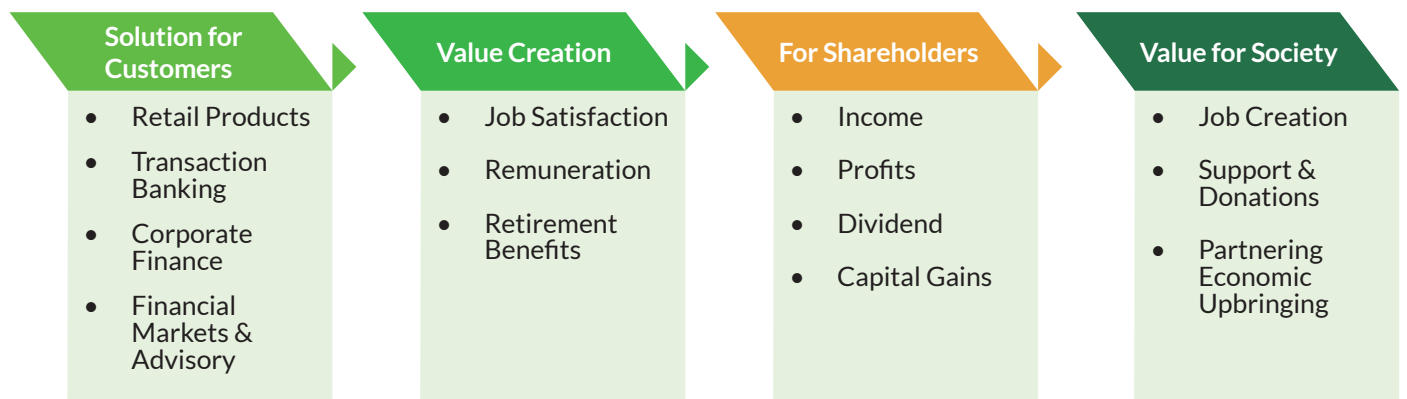

The Way Forward

Based on our strengths and ambitions, our strategic business plan is set to drive the Bank to become a customer

focused and technologically advanced organisation, with more integrated & synergetic business processes.

Our product universe generates value for the shareholders and a broad range of other stakeholders:

Following are the main DuPont Analysis Highlights:

1. Net operating margins of the Bank have improved from 2016. Improvement in the net operating margins is mainly attributed to higher non mark-up income.
2. Asset Utilisation in terms of Total Income has dropped to 3.9% in 2017 from 4.6% in 2016. This was mainly due to increased cost of deposits.
3. Equity multiplier has recorded growth since 2012.

ADB Trade Finance Programme Award

Dear Shareholders,

On behalf of the Board of Directors of the Bank, I am pleased to present to you, the 69th Audited Annual Financial Statements for the financial year ended December 31, 2017.

2017 has been yet another successful year for the Bank as we made the best of our strengths & market opportunities. Strategic directions that we had set for the year translated into synergy-integration, greater market penetration in both conventional and Islamic banking products and uplift of customer service, etc. This is paving the path for us to become a progressive bank for partnering economic growth through innovation in financial products and service. NBP will continue its endeavours to serve the nation through diversified product range, financial innovation, improved services quality, universal banking capabilities, multiple delivery channels, investing in people and achieving sustainable higher returns for shareholders and other stakeholders. This is what drives us. ►

**DIRECTORS'
REPORT TO THE
SHAREHOLDERS**

Year 2017 at a Glance

The Bank has improved its productivity, embraced technological change and continues to reinforce its standards of business conduct. The Bank has a strong capital base and is geared for gaining market share in core business areas. NBP is embracing the changing industry dynamics through greater economic participation, technological advancement, product innovation, financial inclusion, enhanced service standards and human capital development.

The Bank, under new leadership has focused on reorganization at both field & controlling office levels. Realizing that Information Technology and Human Capital are the crucial areas for the Bank, significant progress was made in improving these functions. This would help in smooth delivery of products and services in minimal turn-around time. Based on recent technological developments, the Bank has focused on systemic reorganization at both the field and controlling office levels to properly utilize human capital.

Maintaining its leading position in the Banking industry, NBP has kept its pace of expanding market outreach by increasing its product range, restructuring its business model and adopting modern day delivery strategies. We have recently established Service Quality Group and Payment Services & Digital Banking Group to promote service culture and to bring innovation, e-payment & handle remittance / cash management & government business highlighting Bank's focus towards digital financial services and to promote financial inclusion.

During the year, NBP has increased its domestic branch network from 1,448 branches to over 1,498 branches & has added 100 plus ATM machines. Making further growth in its ATM network, the Bank now has a universe of 1,300+ ATMs, with 6 ATM centres. Over 130 ATMs are installed at different offsite locations to satisfy customer needs. The Bank remains committed to have in its ATM network the World's highest ATM installed at 4,700 meters above the sea level at Khunjerab Pass, Pak-China border. The Bank has a sizeable growth in footprint on the main route of CPEC, including in Gawadar, and same will be further expanded where required.

Despite challenging market conditions, 2017 has been a good year for the Bank. The Bank capitalised on its network strength to help clients navigate complexity and uncover new business opportunities. The Bank has maintained its profitability during 2017 through growth in net-interest income, non-mark up income, advances and deposits.

NBP is now one of the few banks in Pakistan with a balance sheet size of over PKR 2 trillion. The Bank continues to maintain its market position of being the largest lending institution in Pakistan and a key player in maximizing financial inclusion of unbanked masses in the

country with particular focus on underdeveloped areas to bring prosperity in the society.

To boost economic development at small & medium enterprise level, the Bank has established Commercial & SME credit centres in various cities across Pakistan. These commercial credit centres cater to both credit & non-credit financial requirements of the small & medium scale businesses.

During the last couple of years NBP disbursed more than PKR 100 billion of Agriculture finance, being the highest amongst peer banks.

During 2017, the Bank has added several new corporate relationships and enhanced its wallet-share with existing customers with sizeable earning potential for the Bank. As part of strategy, we have continued to diversify our loan portfolio and have improved our asset quality.

Islamic banking operations were given priority with an increase in branch network from 118 in 2016 to 169 at the end of 2017. In addition, a number of new sharia compliant products e.g. Salam, Istasna, Karobar, Ijarah Car Financing & Banca Takaful were launched which increased Islamic advances portfolio by over 450% in 2017. Pursuant to effective risk & capital adequacy management strategy, the investment portfolio is efficiently diversified across zero risk treasury instruments & other interest bearing financial instruments.

The assigned credit ratings & outlook reflect NBP's strong capital structure, strong financial risk profile, firm risk absorption capacity, healthy liquidity & a diversified advances and deposit base.

NBP will continue moving in the right direction by making the best of emerging business opportunities and strengthening its market leadership position. We will continually be expanding our market outreach both in conventional as well as Islamic Banking segments throughout the country.

We are adding more talent to our human capital pool through inductions and trainings. Our e-Learning Division is facilitating the employees in continuing professional development without leaving the workplace.

Macroeconomic Indicators

Global economy gained momentum and strengthened during the year 2017. Current estimates suggest a 3.7% growth being slightly higher than initial projections and 0.5% higher than in year 2016. Economic pickup was broad-based with shared priorities across most economies, including structural reforms to boost potential output and making growth more inclusive. Notable upside surprise was in European and Asian economies which had a trickle down impact for regional stakeholders and created an ideal opportunity for reforms. In emerging market economies like Pakistan, improved monetary policy frameworks have helped lower core inflation, which provides scope for using monetary policy to support demand, should activity weaken.

Lower inflationary pressure also suggests that slackness remains in many advanced economies and monetary policy should continue to remain accommodative. However, the improved growth momentum means that fiscal policy should increasingly be designed with an eye on medium-term goals ensuring fiscal sustainability and bolstering potential output. Multilateral cooperation remains vital for securing the global recovery. The stronger momentum experienced in 2017 is expected to carry into 2018 and 2019, with global growth revised up to 3.9 percent for both years.

Pakistan's economy has performed impressively during FY17. While GDP growth is estimated at 5.3%, LSM achieved a 5.7% growth; per capita income increased to \$1,629 and remittances rose to \$19.3 billion, however, fiscal deficit rose to 5.8 percent of the GDP (against the target of 3.8 percent, and 4.6 percent in FY16). Pakistan's economy has now become 42nd largest in terms of the gross domestic product (GDP) while 25th largest in the world in terms of purchasing power parity.

Comprehensive economic reform agenda as well as the continuity and consistency in economic policies aimed at achieving a higher growth momentum, ongoing structural reforms, lower commodity prices and improved law & order conditions were the key contributors towards growth. Power generation & despatches now stand increased to a level sufficient enough to uninterruptedly fulfil both industrial & domestic demand. GDP growth is expected to strengthen to 6% over the medium term on the back of stepped-up China Pakistan Economic Corridor investments, improved availability of energy, and growth-supporting structural reforms. Industry grew mainly on a rebound growth in large-scale manufacturing. Improvement was particularly observed in sectors like Automobile, Cement, Fertiliser and Steel.

During the year, another positive move was the decision by Morgan Stanley Capital International to put Pakistan in its MSCI emerging market index and reflected international investors' confidence on Pakistani capital markets and economy. However expected benefits couldn't be materialised due to political disarray.

Foreign exchange reserves stood at \$20.2 billion in end December against the previous year's \$23.2 billion. The later part of the year thus saw devaluation of rupee, which raised consumer product prices and inflation growth. Rupee value which was 104/USD in January, devalued by more than 5% to 110/USD in December, 2017.

Headline CPI inflation was recorded at 4.6 percent on a year-on-year basis in December 2017. Devaluation of Rupee during recent months and the rising international oil prices are likely to increase inflation in the coming months which is expected to be in the range of 4.5% to 5.5%; end of fiscal year YoY inflation is likely to inch towards the annual target of 6%.

Given the inflation upsurge during recent months, State Bank of Pakistan seems to have started taking control measures by increasing, for the first time since 2013, the discount rate by 25 bps. This, in return is also expected to result in some growth in net interest margin of the Banking industry. Given the increased liquidity and stable discount rates, opportunities exist for the Banking industry to secure further growth in near future. Operating environment seems stable as economic growth will accelerate driven by infrastructure investment as CPEC projects gain momentum, attracting foreign direct investment as well as local demand for credit.

Risk profile of the Banks is expected to remain stable as we have witnessed a better private sector loan performance on the back of improving general economic and legal environment. High and rising exposure to sovereign bond will be the key source of concentration risk, linking Bank's credit rating to that of the Government's. Foreign remittances and greater market penetration are mobilising low cost deposits. This is improving funding and liquidity position, strengthening core liquidity buffers.

Review of Financial Performance - 2017

Year 2017 also ended with good performance despite the all-time narrow policy rates during the year, stiff market competition and a decade-low performance by the PSX. While the profitability was maintained, a significant growth was achieved in Balance Sheet growth as the same crossed PKR 2 trillion landmark for the first time.

Financial Highlights for the Year

- After tax profit increased by 1.0% to PKR. 23,028 million compared to PKR. 22,752 million during last year. This translates into a return on average assets (RoA) of 1.1%, compared to the RoA of 1.2% in 2016;
- Pre-tax and after-tax return on average equity was 29.0% and 18.7% respectively.
- Pre-provisions profit amounted to PKR. 36,791 million as against PKR. 37,539 million of 2016, registering a YoY decrease of 2%.
- Before-tax profit amounted to PKR 35,599 million as against PKR. 37,141 million of 2016, registering a decrease of 4.15%.
- Earnings per share of Rs. 10.82 in 2017 as against Rs. 10.69 in 2016.
- Bank's operating expenses for the year amounted to PKR 48,528 million i.e. 3% higher as against PKR 47,253 million during last year. This translates into cost-to-income ratio of 57%, slightly up against 56% of last year.
- YoY Deposits increased by PKR. 69,790 million to PKR. 1,727,102 million.
- YoY Gross Advances increased by PKR 75,462 million to PKR 856,938 million, advance to deposit ratio being 49.6%.
- YoY NPL increased by PKR. 1,381 million to Rs. 120,798 million. Gross NPL Ratio, Net NPL Ratio (on the basis of total provision) and provision coverage (on the basis of total provision) stood at 14.1%, 0.5% and 97.0% respectively.
- YoY gross investment at cost increased by PKR. 408,367 million to Rs. 1,271,937 million mainly in treasury bills.
- YoY total assets increased by PKR. 394,180 million or 20% and reached to PKR 2,369,885 million.
- YoY Capital & Reserve reduced by PKR. 1,351 million or 0.8% mainly due to decline in surplus of securities on the back of drop in PSX index.

Mark-up / Interest Income

Despite all-time low policy rate, greater market liquidity and reduced margins, we improved our earning portfolio-mix to maintain optimal earning stream. Gross mark-up / interest income earned for the year amounted to PKR 123,073 million being 7.6% higher than PKR 114,403 million during corresponding period last year. Growth was mainly achieved through maintaining an efficient portfolio-mix of advances and investments, better loan-pricing, recovery efforts and adding quality names to our loan book. It is pertinent to mention that Mark-up / interest income of the Bank faces a multi-billion drag due to mark-up not serviced by certain public sector entities.

Net interest income for the year remained fairly stable and amounted to PKR 54,253 million being PKR 572 million or 1.1% lower than PKR 54,824 million of last year. NII accounted for 63.6% of the Bank's pre-provisions operating income.

• Interest Income on Loans and Advances

Mark-up / Interest income earned on loans and advances during the year amounted to PKR 54,885 million, which is 1.2% higher than PKR 54,188 million during 2016. As earlier stated, discount rate in Pakistan continued reducing ever since 2011 (13.5%) to all-time low at 5.75% in May 2016, and remained at same level till December 2017. Given the low policy rates and higher liquidity in the market, Banks spread remained low. Despite a challenging market environment, the Bank succeeded in maintaining its market share of advances.

• Interest Income on Investment

Interest income earned on investment for the year under review amounted to PKR 66,453 million higher by PKR 7,547 or 12.8% as compared to PKR 58,906 million corresponding period last year. Growth in the income was driven by volumetric growth in held-for-trading securities. On the back of reduced discounts rates, yield curve of government bonds recorded a generally descending trend. To effectively manage the interest rate risks and to meet the capital adequacy requirements, we optimally placed our funds into low-risk securities, thus increasing our total income.

• Interest Expense

Interest expense for the year amounted to PKR 68,820 million, being higher by PKR 9,241 million or 15.5% against PKR 59,578 million during corresponding period last year. Cost of Deposits accounted for 84.2% of the total interest expense and amounted to PKR 57,947 million i.e. 15.7% higher than PKR 50,070 million as compared to 2016. This was mainly due to volumetric growth in remunerative deposits. Given the greater transactions volumes, interest expense on transactions under repurchase arrangement and short term borrowings amounted to PKR 10,872 million, being 14.3% up against PKR 9,508 million during last year.

• Non Mark-up / Interest Income

Banking on our unparalleled network and clientele base, we recorded commendable performance under this segment of income. Non mark-up / interest income constituted 36.4% of the total revenue for the year, and amounted to PKR 31,066 million against PKR 29,967 million as compared to last year.

Growth was achieved in all key areas. Fee, Commission & Brokerage Income for 2017 amounted to PKR 16,774 million as against PKR 14,833 million. Growth was observed in all key areas e.g. trade business, government transactions, ATM transactions, advisory fee, etc. Dividend income for the year amounted to PKR 3,820 million, which is 27.4% increase against PKR 2,999 million during 2016. As the Bank captured higher trade business, income from dealing in foreign currencies amounted to PKR 2,251 million which is 3.3% higher against that of prior year. Gain on sale & redemption of securities for the year; however, dropped by 23.4% to PKR 6,493 million as against PKR 8,473 million during 2016. The drop was mainly observed in gains from sales of shares & mutual funds which amounted to PKR 3,600 million, which is 31% less than PKR 5,167 million in 2016. Core reason for such drop in income was due to significant drop in PSX index.

Compensation against delayed tax refunds amounted to PKR 1,500 million during the year as compared to PKR 1,333 million of 2016.

To mitigate the adverse impact of recent sluggish performance by the PSX, we have taken appropriate measures to enhance non-mark up income from other activities. Key initiative, as stated earlier, include launch of digital banking operations, capturing greater trade business volumes and advisory fee through investment banking transactions.

• Impairments and Loan Loss Provisions

The Bank has made specific provisions of PKR 110,651 million. Net provisions during the year against non-performing advances amounted to PKR 1,068 million; whereas, provisions for diminution in value of investment recorded a reduction of PKR 1,744 million, resulting into net reversal of PKR 675 million. As of December 31, 2017 total NPL coverage was 97.0% and 91.6% through total and specific provisions, respectively. Minor gap in the provisions is due to NPL in categories of classification that require less than 100% provision. Domestic NPL account for 73.7% of the total NPL and amounted PKR 89,050 million i.e. 480 million higher than last year. Overseas NPL amounted to PKR 31,747 million as against PKR 30,846 million in 2016. Accretion of PKR 901 million in NPL is due to exchange rate moment. Overseas NPL are covered 97% through specific provisions charge. The Bank follows a prudent & cognizant methodology of maintaining adequate provisions reserves to effectively cover & address any potential impairment risk of credit portfolio.

Asset Quality

• Expense Management

During the year under review, we implemented efficient measures for optimal cost management. Total non mark-up / interest expenses during the year was PKR 50,395 million, being 4.2% higher than PKR 48,352 million during 2016. Excluding the provisions against contingencies etc. of PKR 1,867 million (2016: PKR 1,098 million), administration expenses amounted to PKR 48,528 million, which is higher by 2.7% against PKR 47,253 million during last year. HR related costs weigh 63.9% of the total administrative expenses and amounted to PKR 31,020 million for the year, which is slightly below PKR 31,430 million of 2016. This was due to net retirements during the year.

The Bank has developed multifaceted strategies to efficiently manage operating costs. Such measures include installation of solar panels, reorganisation of field management structure, deployment of IT systems, centralisation of certain cost functions and replacing security guards with digital security systems. Our e-learning project has started efficiently contributing towards on-site training, which is expected to reduce training related travel costs.

Taxes

Tax charge for the year 2017 is reduced by PKR 1.8 billion YoY and amounted to PKR 12.6 billion as compared to PKR 14.4 billion as against the corresponding period last year. Effective tax rate has declined from 38.7% in 2016 to 35.3% this year.

Net Profit and Earnings per Share

The Bank's net profit for the year 2017 amounted to PKR 23,028 million i.e. increased by 1.2% against PKR 22,752 million during 2016. This translates into basic and diluted after-tax earnings per share of Rs. 10.82, i.e. increased by 13 Paise against PKR 10.69 of prior year.

Value Addition

Review of the Financial Position-2017

The Bank's balance sheet has crossed PKR 2 trillion landmark and amounted to PKR 2,370 billion i.e. 20% higher as compared to last year. During the year, we improved the efficacy in Assets-Liability Management as our Commercial, Islamic and Corporate Banking Operations pursued an aggressive growth strategy and made sizeable achievements in generating low-cost CASA deposits as a sustainable source of liquidity & funding for the Bank. Considering the growing credit requirements, the Bank optimally increased its loan book by targeting the efficient and lucrative industrial sectors.

Total Assets

• Loans & Advances

During 2017, the Bank continued to extend credit to high quality borrowers from all sectors across the economy. Growth was mainly witnessed in Agriculture & Commodity operations, SME and infrastructure project of economic importance, particularly related to water & power sector. At the end of 2017, Bank's net advances amounted to PKR 739,772 million (gross PKR 856,938 million) which is 10.8% higher than PKR 667,389 million at the end of corresponding period last year. PKR denominated loans amounted to PKR 778,778 million (gross), representing 90.9% of the total loan book. Our corporate loan book increased by 6.8% to 430,565 million, being one of the highest in the industry. Despite limited opportunities and tough market conditions in the overseas markets, our international loan book increased by 31% during the year to PKR 75,175 million.

Advances - Net

For the year under review, non-performing loans amounted to PKR 120,798 million showing a net accretion of PKR 1,382 million i.e. 1.2% over the last year. Growth is majorly observed in seasonal financing, which is usually declassified / regularised by the end of Q1 next year. NPLs have been prudently & adequately provided for as per SBP regulatory requirements. Bank's coverage ratio as of December 31, 2017 was 92%. Despite a significantly high growth in deposits, Bank's ADR (gross) as at December 31, 2017 stood at 49.6%, up against 47.2% of prior year.

Reversal in specific provision for the year was PKR 1,000 million, with a closing balance of PKR 110,651 million, slightly up against PKR 109,655 million as of December 31, 2016. As of December 31, 2017, general provisions amounted to 6,515 million with a net accretion of PKR 2,068 million from prior year's PKR 4,431 million. General loan loss provisions are created prudently against certain loans which are not yet classified, and as well as against consumer and SME loans at rate ranging from 1% to 7% of the performing portfolio as required by the central bank.

• Investments

Given the limited quality loan-growth opportunities and significant growth achieved in deposits, excess liquidity with the Bank was placed in low-risk investment portfolio. The Bank maintains an efficient investment portfolio with healthy yield, shorter maturity tenor and acceptable risk range. As of December 2017, the Bank's investment (at cost) amounted to PKR 1,271,937 million (2016: PKR 863,570 million). Carrying value of such investments amounted to PKR 1,295,720 million, being 44.4% higher against PKR 897,131 million of 2016. For focus on trading strategy and better liquidity management, excess liquidity with the Bank was mostly placed into market treasury bills under 'held-for-trading securities' which amounted to PKR 683,060 million. This gives the Bank flexibility to capitalise on short term price movement by frequently churning the short term portfolio.

Investment into ordinary share of listed companies is well diversified in all major industrial sectors and amounted to PKR 23,202 million (2016:PKR 22,456 million). These investments earn substantial returns for the Bank through dividends and capital gains. Despite a significant drop in PSX index during the year, our investment in shares does not attract any impairment losses. However, revaluation surplus on shares / mutual funds (measured on mark-to-market basis) reduced from PKR 37,309 million of December 2016 to PKR 26,194 million as of December 2017. The Bank divests investments into shares when we understand that the market has matured enough and

there exist better placement opportunities for sales proceeds. During the year, NBP Leasing was merged with & into NBP, resulting in reduction in investment in subsidiaries by Rs. 500 million. Moreover, PKR 600 million were invested in NAFA stock fund during the year which earned dividend income of PKR 46 million.

Investments

Liabilities

Total liabilities of the Bank as of December 31, 2017 were PKR 2,194,503 million, i.e. 22% higher than PKR 1,798,973 million as of December 31, 2016.

• Deposits

The Bank has developed an unparalleled business network and access to wide range of customers throughout the country. The Bank enjoys an unmatched degree of depositor confidence, and most of the Bank's funding comes from its core customer deposit base. Our deposit products include traditional savings accounts, call deposits, term deposits, daily-income accounts, non-interest and interest-bearing current accounts etc. Some of the deposits products directly generate income for the Bank, such as non-sufficient funds fee, funds transfer fee and ATM fee. Lately this year, we established Digital Baking & Payment Services Group for better management of cash and home remittances. Once fully functional, this will generate more low-cost funds & deposits for the Bank.

Deposits

As at the end of 2017, the Bank's deposits amounted to PKR 1,727,102 million were 4.2% higher than PKR 1,657,312 million as of December 31, 2016. The Bank follows an aggressive strategy to maximise the deposits, particularly the low cost current and saving (CASA) deposits. As of December 31, 2017 non-remunerative deposits amounted to PKR 573,015 million are 33.18% of the total deposits, and is 10.9% higher than that as of December 31, 2017. This year, we further strengthened our liability sales teams throughout our network to mobile low cost deposits. The Bank's CASA (customers' deposits) deposit ratio was 76.86% as of December 31, 2017.

Proposed Dividend

The Board deliberated at length whether or not cash dividend and / or bonus shares should be recommended. However, the likely impact of pension case, despite some positive signals, still remains a cause of concern. The first priority of BoD is to maintain continuity of the Bank's business which is very much dependent upon the capital base of the Bank. The BoD is conscious of the fact that the shareholders look forward to receiving dividend. However, eventually it was considered more prudent to retain the profits for the time being and once the position becomes clearer and positive, the Bank may consider declaration of dividend at a later stage. Accordingly the BoD does not recommend any dividend for the year 2017.

Capital Strength & Adequacy

The Bank maintains a strong capital base to meet regulatory requirements as well as maintain investors', creditors' and market confidence on the Bank's sustainable business growth. Adequacy of the Bank's capital is monitored using, among other measures, the rules and ratios established by the SBP and Basel.

Tier-I capital of the Bank increased from PKR 95,539 million in 2016 to PKR 101,302 million in 2017, mainly due to profit for the year off-set by dividend payment for 2016.

Risk weighted assets increased by PKR 65,715 million on account of increasing advances. The Bank's total capital to RWA's was 15.95% (2016:16.54%), which is well above the Central Bank's minimum requirement of 11.28%. CET-I capital ratio was also strong at 11.63% (2016:11.86%) against required 6.00%.

Change in the Board of Directors

We welcomed Mr. Imran Malik, Mr. Asad Munir and Mr. Farid Malik to the Board this year. Mr. Imran Malik and Mr. Asad Munir were appointed by the Ministry of Finance; whereas Mr. Farid Malik was elected as a director by the Minority Shareholders in the Extra Ordinary General Meeting (EOGM) of the Bank, held on May 15, 2017. All three learned directors are qualified professionals with vast hands-on experience in top level governance and deep knowledge of finance. We are confident that the Bank will immensely benefit from their rich professional experience and enlightened leadership.

We would also take the opportunity to express our gratitude to retiring directors Mr. Tariq Kirmani, Mr. Farrakh Qayyum and Mr. Iftikhar A. Allawala for their dedication and contributions towards achieving the Bank's goals & objectives.

Merger of NBP Leasing with and into National Bank of Pakistan

The Bank held 100% shares in NBP Leasing Limited, a company incorporated in Pakistan as an unlisted public company under the repealed Companies Ordinance, 1984. The Board of Directors of the Bank, in their meeting held on February 19, 2016, approved and resolved to present the draft resolution for merger of NBP Leasing Ltd. with and into the Bank before the shareholders of the Bank for their approval. The shareholders of the Bank approved the proposed merger in the Annual General Meeting held on March 30, 2017.

The SBP sanctioned the Scheme of Amalgamation of the NBP Leasing Limited with and into the Bank, under Section 48 of Banking Companies Ordinance 1962.

As per the Scheme of Amalgamation, all the assets, liabilities and obligations of NBP Leasing Limited have, as at the effective date i.e. July 31, 2017, been merged with, transferred to, vested in, and assumed by the Bank, and NBP Leasing Limited is dissolved without winding-up. Further as per the Scheme, the surviving entity is National Bank of Pakistan and therefore, the entire undertaking and business of NBP Leasing Limited has vest in and continues under the operations of National Bank of Pakistan.

Business Continuity Plan

Effective & robust business continuity measures are extremely critical in the financial services industry. Development, implementation and maintenance of an effective business continuity plan are an integral part of business model. The Bank is determined to ensure a smooth recovery and continuity of its critical business function as a measure to augment its corporate image,

mitigate associated risks, safeguard revenues and sustain its relations with the shareholders, financial communities, business counterparts, customers and regulators.

To deliver our business commitments and to remain compliant with the regulatory requirements when confronted with significant business disruption, our infrastructural architecture includes a Business Continuity Plan. We proactively identify and document significant resource disruptions, determine gaps between recovery requirements and current capabilities, and devise best recovery strategies. Our business continuity strategies encompass disaster recovery, business recovery, crisis management, incident management, emergency management and contingency planning.

Credit Rating

NBP is the only Bank in Pakistan with a rating of 'AAA' by both the approved credit rating agencies in Pakistan. In June 2017 M/s JCR-VIS Credit Rating Company again re-affirmed the Bank's standalone rating of "AAA", one of the highest by the company for any bank in Pakistan. PACRA has also assigned a long-term entity rating of 'AAA' (Triple AAA) and short-term rating of 'A1+' (A-one Plus).

Pensionary Benefits Contingencies

The Bank has filed a review petition against the judgement of the Supreme Court of Pakistan in the pension case and has also moved an application for constitution of a larger bench which has been accepted. Pending the decision of review petition, financial impact of the subject case has not been included in the financial statements as the Bank looks forward to a favourable outcome of the case.

Compliance with regulatory matters in USA operations

The Bank and its New York Branch have entered into an Agreement with the Federal Reserve Bank of New York and New York State Department of Financial Services (US regulators) which inter-alia requires the Bank to address certain compliance and risk management matters relating to anti-money laundering and the US bank secrecy law requirements and the implementation of the requisite systems and controls and deployment of adequate resources to ensure compliance with such requirements. The Bank has addressed all the clauses of the agreement and its validations are in process. While the Bank seeks to comply with all laws and regulations, at this stage there is no indication of any financial impact or penal consequences.

Statement under the Code of Corporate Governance:

The Board of Directors is aware of its responsibilities

under the Code of Corporate Governance; and I am pleased to report that:

- The financial statements prepared by the Management of the Bank present fairly the state of affairs, the results of its operations, cash flows and changes in equity;
- Proper books of account of the Bank have been maintained;
- Appropriate accounting policies have consistently been applied in preparation of the financial statements. Accounting estimates are based on reasonable and prudent judgment;
- Approved accounting standards, as applicable to banks in Pakistan, have been followed in preparation of financial statements;
- The system of internal control is showing signs of improvement as compared to previous years. However, such a system is designed to manage rather than eliminate the risk of failure to achieve objectives, and provide reasonable but not absolute assurance against material misstatements or loss;
- There are no doubts about the Bank continuing as a going concern;
- There has been no material departure from the best practices of corporate governance as detailed in the listing regulations;
- Summarised key operating and financial data of the last six years is tabulated on the initial pages of this Annual Report;
- Fair value of investments of the Provident and Pension funds are PKR 12,749 million and PKR 44,966 million respectively;
- The number of Board Meetings held during the year 2017 were 10 and were attended by the Directors as follows:

No.	Director	Meetings Attended
1	Mr. Saeed Ahmed (Chairman / President)	8
2	Mr. Muhammad Naeem	10
3	Mir Balakh Sher Marri	9
4	Mr. A. Akbar Sharifzada	9
5	Mr. Muhammad Imran Malik	8
6	Mr. Asad Munir	5
7	Mr. Farid Malik	5
8	Mr. Tariq Kirmani	2
9	Mr. Farrakh Qayyum	2
10	Mr. Iftikhar A. Allawala	2
11	Syed Ahmed Iqbal Ashraf (Ex-Chairman / President)	1
12	Mr. Masood Karim Shaikh (Ex-President Officiating)	1

Future Outlook

Rising economic growth, increasing investment flows, recovery in exports, visible progress in reducing energy shortages and improving business confidence, all bode well for continued positive development in 2018.

Economic growth in Pakistan is forecasted at 5.5% in the fiscal year 2017-18, and may reach an average of 5.9% over the medium term. However, major hindrances to materialise this positive outlook remains the external account, slippages relating to the Government's own borrowing targets and lack of tangible improvement in tax revenues.

The Bank has devised and implemented a strategy within this broad macro-economic outlook and is focusing on both qualitative and quantitative improvements in key areas of its operations. The strategic goals include the continuation of Bank's leading role in the Country through adopting latest technological developments, growth of alternative delivery channels and improvement in service quality. In parallel the Bank's focus also remains on strengthening internal controls and implementing latest risk management measures.

As the largest public sector Bank in the country today, NBP remains committed towards fulfilling its role in the Country's economic development; be it through financing large scale infrastructure projects (including those which are part of CPEC) or providing business loans to the Country's youth or extending financing to farmers and new home owners. At the same time, the Bank is committed to focusing on reducing its cost of funds through a concerted strategy of mobilising current and saving deposits accounts enabling the Bank to improve its competitiveness in the loan market.

Our Corporate and Investment Banks will be all out, making the best of every emerging growth opportunity. The upcoming boost in large scale manufacturing will create greater lending opportunities, particularly in automobile, steel, cement and other construction related products.

The Bank will be focusing on capturing greater business share of the home remittance business. We will be particularly focusing on converting 'Cash over the Counter' customers to regular 'Account Holders'.

Our specialised products for various agriculture sub-segments dairy, horticulture, tunnel farming, mechanisation, irrigations development etc. have already started picking up and further growth is expected during the years to come. NBP will leverage its largest rural network to capitalize on these initiatives tapping the prospective growth in agriculture.

Our Islamic Banking is cognizant of the growth in the industry as NBP is continuously expanding its Islamic

Banking branches network and plans to be among the top providers of Islamic Banking services. The Bank will further leverage its rural franchise, technology platform and branchless banking services to cater to the Banking needs of the unbanked population. NBP will leverage its rural franchise presence to outpace its growth in rural deposits through market share increase and to tap into the unbanked population.

The Bank will mobilise the additional liquidity towards commercial, consumer, SME sectors and plans to launch new loan products, identifying new market and cross-sell products for better yields. NBP will continue its policy of better utilisation of its FCY assets so as to improve its overall yield and to reduce its currency rate risk in its overseas operations.

The Bank has undertaken a number of plans in the areas of Information Technology upgradation with major projects, expansion of ATM network, and branchless banking. We intend to open new ATM facilitation centres for pensioners and utility bills collection through biometric verification. NBP will continue its policy of enriching its human capital through acquiring talent and investing in trainings.

Uncertainties that could affect the Bank's financial performance & position

The above future outlook is based on the Bank's current business plans, estimates and projections. This is subject to certain inherent limitations / uncontrollable risks and contingencies. Key factors that may cast an adverse impact on the Bank's financial position & performance in the forthcoming year are as follows:

Policy Rate: Any adverse revision in the discount rate by State Bank of Pakistan may result in lower gross / net interest income and reduce profitability of the Bank.

Profit on Deposits: Any upward revision in the minimum rate of profits on deposit may reduce net interest income due to increased cost of deposits environment is essential for smooth functioning of a business entity. However, any act of terrorism or political instability can negatively impact the economy / equity market, thus resulting in decreased profitability of the Bank.

Economic & Political Environment: Stability of the economic / political environment is essential for smooth functioning of a business entity. However, deterioration in the law & order situation or political instability may negatively impact the economy / equity market, thus resulting in decreased profitability of the Bank.

Taxes & Regulatory Requirements: Any upwards revision in the tax rate or other requirements under SBP Prudential Regulations related to the minimum capital, liquidity reserves etc. may also adversely impact profitability of the Bank.

Board's Endorsement of Statements by the Management

The Board is pleased to endorse the following statement made by the Management and presented in this Annual Report:

- i) Overview of the Board of Directors' Committees.
- ii) Statement of Internal Controls including management's evaluation of ICFR.

Appreciation & Acknowledgement

Pleased with the performance of the Bank for the year 2017, and looking forward to achieve our goals for the year 2018, I appreciate and acknowledge the contributions of our Board of Directors for their leadership and unrelenting contribution towards achievements of the Bank. On behalf of the Bank, I extend my sincere appreciation to State Bank of Pakistan, Securities & Exchange Commission of Pakistan and other regulatory authorities for their continued support and guidance during the process of our functioning.

I also appreciate the role played by the Bank's employees who determinedly worked during the year. I would also like to express our gratitude and appreciation to the customers, shareholders and other stakeholders for their support and trust in NBP. I look forward to their continued support in enabling the Bank to materialise the emerging business & growth opportunities and fulfil its role of partnering in the socio-economic development as The Nation's Bank.

For and on behalf of the Board of Directors

مستقبل کی پیش بینی

آگے کی جانب گامزن سرمایہ کاری، برآمدات میں اضافہ، توانائی کی رسد میں اضافے کا واضح رجحان اور کاروبار کے لیے بہتر ہوتے ہوئے ماحول کی وجہ سے سال 2018 مسلسل اور مثبت ترقی کی جانب ایک اور متوقع سال ہے۔

مالی سال 2017-18 میں پاکستان میں اقتصادی ترقی کی شرح گئی جو 5.5 فیصد کی گئی جو پیش ماہی تک اوسط 5.9 فیصد تک پہنچ سکتی ہے۔ تاہم مستقبل کے اس منظر نامے سے فائدہ اٹھانے کے لیے بیرونی اکاؤنٹس، حکومتی قرضوں کے حصول کے اہداف سے متعلق سلیج اور ٹیکس وصولی میں خوش واقع بہتری نہ ہونا بڑی رکاوٹیں ہو سکتی ہیں۔

بینک نے اس اقتصادی منظر نامے کے تحت ایک حکمت عملی اختیار کی ہے اور اوپن مارکیٹ کے آپریشنز میں نمایاں مقامات پر قابیلیت اور موجودگی دونوں شعبوں پر اپنی توجہ مرکوز کر رہا ہے۔ ہمارے اسٹریٹجک مقاصد میں یہ بھی شامل ہے کہ ملک میں اپنے فائدہ کار کو ٹھیک برتری، ڈیجیٹل کے تبادلہ طریقوں میں اضافے اور خدمت کے معیار میں بہتری اختیار کرتے ہوئے برقرار رکھا جائے۔ اس کے متوازی بینک نے اندرونی نظم و نسق کو مستحکم اور رسک منجمنٹ کے حالیہ اقدامات پر اپنی توجہ بدستور برقرار رکھی ہوئی ہے۔

این بی پی آج ملک میں بینک سیکٹر کا سب سے بڑا بینک ہونے کی حیثیت سے ملک کی معاشی ترقی میں اپنا کردار ادا کرنے کے لیے اسی طرح پر عزم ہے؛ جو کہ وہ بڑے پیمانے کے انفراسٹرکچر پراجیکٹس (بشمول وہ، جو سی بینک کا حصہ ہیں) پر سرمایہ کاری، یا ملک کے نوجوانوں کو کاروباری قرضے فراہم کر کے پاکستانوں اور نئے مگر خریدنے والے افراد تک سرمایہ کاری کو وسعت دے کر سرانجام دے رہا ہے۔ ساتھ ہی بینک نے ایک نئے حکمت عملی کے ذریعے فنڈز کی لاگت کم کرنے پر اپنی توجہ مرکوز کر رکھی ہے، جس کے تحت کرنٹ اور سیونگ ڈپازٹس کاؤنٹس کو حرکت دیتے ہوئے بینک کو اس قابل بنا کر قرضوں کی مارکیٹ میں اپنی مسابقتی صورت حال میں بہتری لانا ہے۔

ہمارے کارپوریٹ اور انویسٹمنٹ ٹیکس حاصل ہونے والے تمام تر مواقعوں سے ہمیں فائدہ اٹھانے کے لیے عملی طور پر تیار ہوں گے۔ سینیٹر پیکج میں آنے والے فروغ سے قرض دینے کے بہتر مواقع پیدا ہوں گے، جس میں آٹوموٹو، اسٹیل، سینٹ اور دیگر تعمیراتی شعبہ جات خاص طور پر قابل ذکر ہیں۔

ترسیل زر کے بڑھتے ہوئے کاروبار میں بینک بڑا حصہ حاصل کرنے کے لیے اپنی توجہ مرکوز رکھے گا۔ ٹیکس اور دی کاؤنٹر کسٹمرز کو مستقل اکاؤنٹ ہولڈرز میں تبدیل کرنے کے لیے ہم خاص طور پر توجہ مرکوز رکھیں گے۔

زراعت کے شعبے کے لیے ہماری خصوصی پروڈکٹ ڈیری، باغبانی، سرنگ کی کھدائی، میکا نائزیشن، زراعت کی ترقی وغیرہ میں مٹی ہوئی ہے۔ نیشنل بینک آف پاکستان زراعت میں ممکنہ ترقی کو بہتر بنانے کے لیے اپنے سب سے بڑے دیجیٹل ورک کا فائدہ اٹھاتے ہوئے ان اقدامات پر سرمایہ کاری کرے گا۔

ہماری اسلامی بینکاری صنعتی ترقی سے پوری طرح واقف ہے اور اسی ضمن میں نیشنل بینک آف پاکستان اپنی اسلامک بینکنگ شاخوں کو مسلسل پھیلا رہا ہے اور سال 2018 کے اختتام تک اسلامک بینک شاخوں کی صف میں سب سے بلند مقام حاصل کرنے کا ارادہ رکھتا ہے۔ بینک اپنے دیجیٹل فریجھائز، ٹیکنیکی پلٹ فارم اور برانچ لیس بینکاری خدمات کا فائدہ اٹھاتے ہوئے ان علاقوں میں بھی بینکاری

خدمات مہیا کرے گا جہاں بینک کی سہولت موجود نہیں ہے۔ نیشنل بینک آف پاکستان مارکیٹ شیئر میں اضافے اور ان علاقوں تک رسائی جہاں بینک کی سہولت موجود نہیں، میں ترقی کے لیے اپنی دیجی فریجھائز کی موجودگی سے فائدہ اٹھاتے ہوئے اپنی ترقی میں اضافے کی رفتار کو بھی تیز بنائے گا۔

نیشنل بینک آف پاکستان کاروباری، صارفین اور ایس ایم ای سیکٹرز میں اضافی لیکویڈٹی کو فروغ دے گا اور نئے لون پروڈکٹس کے تعارف، نئی مارکیٹس اور مصنوعات کی کڑی فروخت کو بہتر نتائج کے لیے متعارف کرانے کا ارادہ رکھتا ہے۔ نیشنل بینک آف پاکستان اپنے FYC 2018 جات کے بہتر استعمال کی پالیسی کو جاری رکھے گا جس کا مقصد کل منافع میں بہتری اور غیر ٹھیک کرنسی ریٹ کے خدمات کو کم کرنا ہے۔

بینک نے انڈر وٹیشن ٹیکنالوجی کے چند بڑے منصوبوں میں اپ گریڈیشن، اے ٹی ایم نیٹ ورک کو پھیلانے اور برانچ لیس بینکاری کے لیے مختلف منصوبہ بندیوں کا عہد کیا ہے۔ ہم پائے میٹرک نظام کے ذریعے مشن وصول کرنے والے افراد اور عملاتی جواہرنگی کے لیے نئی اے ٹی ایم خدمات کے آغاز کا ارادہ رکھتے ہیں۔ نیشنل بینک آف پاکستان اپنی افرادی قوت کی صلاحیتوں میں اضافے کی پالیسی کے تحت باصلاحیت افرادی شمولیت اور تربیت کے شعبے میں سرمایہ کاری جاری رکھے گا۔

غیر معینی صورت حال جو بینک کی کارکردگی اور پوزیشن پر اثر انداز ہو سکتی ہیں

مندرجہ بالا مستقبل کی توقعات بینک کے موجودہ کاروباری منصوبوں، عملیوں اور پوزیشن پر مبنی ہیں۔ یہ اختیار سے باہر خدمات اور بنیادی صورت حال پر منحصر ہیں۔ آنے والے سال میں بینک کی کارکردگی اور صورت حال پر اثر انداز ہونے والے عوامل درج ذیل ہیں:

پالیسی ریٹ: اسٹیٹ بینک آف پاکستان کی جانب ڈسکاؤنٹ ریٹ میں کمی کا اعادہ، منافع اکل سود آمدن میں کمی کا پیش خیمہ ہو سکتا ہے جس سے بینک کا منافع متاثر ہو سکتا ہے۔

کھاتوں پر قطع: ڈپازٹس پر منافع جات کے کم سے کم ریٹ میں کمی بھی قسم کی بد صورتی کا اعادہ ڈپازٹس کی انسانی لاگت کے باعث کل سودی آمدن میں کمی کا پیش خیمہ ہو سکتا ہے۔

معاشی و سیاسی ماحول: معاشی و سیاسی ماحول میں استحکام کسی بھی کاروبار کے درست کام کرنے کے لیے لازمی جزو ہے۔ تاہم امن و امان یا خراب سیاسی ماحول کی صورت میں معیشت اسماوی مارکیٹ پر منفی اثرات مرتب ہو سکتے ہیں جس کے باعث بینک کے منافع میں کمی واقع ہو سکتی ہے۔

ٹیکس اور رجسٹریشن کی ضروریات: ٹیکس ریٹ یا کم سے کم سرمایے یا لیکویڈٹی ریٹرز سے منسلک اسٹیٹ بینک آف پاکستان پر ڈیجیٹل رجسٹریشن سے متعلق کسی بھی قسم کے اضافے کا اعادہ بینک کے منافع پر منفی اثرات مرتب کر سکتا ہے۔

انتظامیہ کے بیانات کی بورڈ کی جانب سے تصدیق

بورڈ انتظامیہ کی جانب سے مندرجہ ذیل بیانات کی تصدیق کرتے ہوئے اسے سالانہ جائزے میں پیش کرتے ہوئے فرم صحتی کر رہا ہے:

- (i) بورڈ آف ڈائریکٹرز کیٹیوں کا جائزہ
- (ii) اندرونی اختیار کا اسٹینڈرٹ شمول ICFR کی تصدیق

کریڈٹ ریٹنگ

(d) ان مالیاتی گوشواروں کی تیاری میں اکاؤنٹنگ کے منظور شدہ معیارات جو پاکستان میں بینکوں پر لاگو ہیں، کا اطلاق کیا گیا ہے۔

(e) اندرونی ازمنہ (انٹرنل کنٹرول) کا نظام گذشتہ سالوں کے مقابلے میں بہتری کا ہر کر رہا ہے۔ تاہم، ایسا نظام انتظام سنبھالنے کے حوالے سے تیار کیا جاتا ہے مگر یہ مقاصد کے حصول میں ناکامی کے رسک کو مکمل ختم کرنے میں مددگار نہیں ہوتا اور گوشواروں میں بے ضابطگی (Material Misstatements) یا نقصان کی تصحیح نہیں بلکہ ایک مناسب سطح کو یقین دلاتا ہے۔

بینٹل بینک آف پاکستان، پاکستان کا واحد بینک ہے جسے ملک کی دونوں منظور شدہ کریڈٹ ایجنسیوں کی طرف سے "AAA" ریٹنگ ملی ہے۔ جون، 2017 میں میسرز JCR-VIS کریڈٹ ایجنسی نے بینک کو دوبارہ "AAA" ریٹنگ دی ہے جو پاکستان میں کسی بھی بینک کو ملنے والی گہنی کی سب سے بڑی ممکنہ ریٹنگ ہے۔ PACRA نے بھی طویل مدتی ریٹنگ "AAA" اور قلیل مدتی ریٹنگ "A1+" (A-One Plus) دی ہے۔

بینشزری فوائد کی غیر متوقع صورت حال

(f) کاروبار کو روکنا رکھنے کی بینک کی صلاحیت کے بارے میں کوئی شکوک و شبہات نہیں۔
 (g) صحیح اصول و ضوابط میں درج کارپوریٹ گورننس کے رہنما اصولوں سے انحراف نہیں کیا گیا ہے۔
 (h) گذشتہ چھ سالوں کے کلیدی آپریٹنگ اور مالیاتی اعداد و شمار اس سالانہ رپورٹ کے ابتدائی صفحات پر مرتب کیے گئے ہیں۔

بینک نے مٹھن کیمس میں سپریم کورٹ آف پاکستان کے فیصلے کے خلاف نظر ثانی کی گزارش جمع کرائی ہے اور ایک درخواست لارڈ جج کے قانون کے حوالے سے بھی دی ہے جو قبول کر لی گئی ہے۔ نظر ثانی کی گزارش کے زیر التوا ہونے کی وجہ سے مذکورہ کیمس کے مالیاتی اثرات بینک کی 2017 کے مالیاتی گوشواروں میں شامل نہیں کیے گئے ہیں۔ کیونکہ بینک اس کیمس کے موافق فیصلے کی توقع رکھتا ہے۔

USA آپریٹنگ کے حوالے سے قوانین اور ضابطوں کی تعمیل

(i) پروڈیونٹ اور مٹھن فنڈز کی سرمایہ کاری کی مناسب قیمت بالترتیب 12,749 ملین روپے اور 44,966 ملین روپے ہے۔
 (j) سال 2017 میں منصفہ کیے جانے والے بورڈ آف ڈائریکٹرز کے اجلاسوں کی تعداد 10 تھی اور اس میں شرکت کرنے والے ڈائریکٹرز کی تفصیلات ذیل میں موجود ہیں:

بینک اور اس کی نیو یارک برانچ کا فیڈرل ریزیرو بینک آف نیو یارک اور نیو یارک اسٹیٹ ڈپارٹمنٹ آف فنانس (US ریگولیشنز) کے ساتھ ایک معاہدہ طے پایا ہے، جو بشمول دیگر بینک کو مخصوص حوالوں سے تعمیل کرنے اور رسک منجمنٹ کے امور، جن کا تعلق اسٹیٹ منی لانڈرنگ اور US بینک سیکورٹی کے قوانین اور ضابطوں اور مطلوبہ سسٹمز اور کنٹرولز کو لاگو کرنے اور ضرورت کے حساب سے پورے وسائل کو بروئے کار لانے کا پابند کرتا ہے تاکہ ضروریات کے مطابق تعمیل کو یقینی بنایا جاسکے۔ بینک نے معاہدے کی تمام شرطوں سے خود کو ہم آہنگ کیا ہے اور اس کا تصدیقی عمل جاری ہے۔ بینک تمام قوانین اور ضابطوں کی تعمیل کا خواہاں ہے۔ اس مرحلے پر کسی قسم کے مالیاتی اثرات یا تعزیری نتائج کے اشارات نہیں ملتے۔

کوڈ آف کارپوریٹ گورننس کے تحت بیانیہ

بورڈ آف ڈائریکٹرز کوڈ آف کارپوریٹ گورننس کے تحت اپنی ذمہ داریوں سے بخوبی واقف ہے، اور میں بڑی مسرت کے ساتھ رپورٹ کرتا ہوں کہ:

نمبر	نام	شرکت کیلئے اجلاسوں کی تعداد
1	جناب سعید احمد (صدر/مختصرین)	8
2	جناب محمد نعیم	10
3	جناب میر طاہر خیر مری	9
4	جناب ساجد اکبر شریف زاہد	9

10	جناب سجاد حیات شاہ	2
11	جناب سید اقبال شرف (سابق صدر/مختصرین)	1
12	جناب سجاد کریم شیخ (مقامی صدر)	1

(a) بینک انتظامیہ کی جانب سے تیار کردہ اسٹیٹمنٹس، اس کے کاروباری امور، آپریٹنگ کے نتائج، کیش فلوز اور ان کیوں میں تبدیلی کی منصفانہ عکاسی کرتی ہیں۔

(b) بینک نے باضابطہ طور پر تمام کھاتوں کو برقرار رکھا ہے۔

(c) ان مالیاتی گوشواروں کی تیاری میں مناسب اکاؤنٹنگ پالیسیوں کی پیروی کی گئی ہے اور اکاؤنٹنگ کے نتیجے میں متعقول اور دانش مندانہ رائے پر مبنی ہیں۔

این بی پی لیزنگ کا نیشنل بینک آف پاکستان میں انضمام

بینک، این بی پی لیزنگ لمیٹڈ میں 100 فیصد شیئرز رکھتا تھا۔ یہ کمپنی پاکستان میں ان سٹڈ بینک کمپنی کے طور پر کمپنی آرڈیننس 1984 کے تحت انکارپوریت ہوئی، بینک کے بورڈ آف ڈائریکٹرز نے، 19 فروری، 2016 کو منعقد ہونے والے اجلاس میں منظور کیا اور طے کیا کہ این بی پی لیزنگ لمیٹڈ کے بینک کے ساتھ اور بینک میں انضمام کی ذراقت قرار دیا کو بینک کے حصص مالکان کے سامنے ان کی منظوری کے لیے پیش کیا جائے۔ بینک کے حصص مالکان نے پیش کیے جانے والے انضمام کو 30 مارچ، 2017 کو منعقد کیے گئے سالانہ اجلاس عام میں منظور کیا۔

اسٹیٹ بینک آف پاکستان نے بھی این بی پی لیزنگ لمیٹڈ کی بینک کے ساتھ اور بینک میں، بینکنگ کمپنیز آرڈیننس 1962 کے سیکشن 48 کے تحت انضمام کی منظوری دے دی ہے۔

انضمام کی اسکیم کے مطابق این بی پی لیزنگ لمیٹڈ کے تمام اثاثہ جات، واجبات اور ذمہ داریاں، موثر تاریخ 31 جولائی، 2017 بینک کے ساتھ ضم منتقل شدہ، اختیارات کی سپردگی کے ساتھ بینک کی ذمہ داری ہیں اور این بی پی لیزنگ لمیٹڈ اپنے انضمام کے بغیر ہی منتقل شدہ سمجھی جائے گی۔ اسکیم کے مطابق مزید یہ کہ نیشنل بینک آف پاکستان ہی اب اصل ادارہ ہوگا، لہذا این بی پی لیزنگ لمیٹڈ کی تمام ذمہ داریاں اور کاروبار نیشنل بینک آف پاکستان کے آپریٹرز کے تحت تمام اختیارات کی سپردگی کے ساتھ جاری رہے گا۔

کاروباری تسلسل کا منصوبہ

بینک بنا رکھنا اپنے اہم کاروباری امور کے تسلسل کو یقینی بنانے کے لیے پُر عزم ہے، تاکہ اس کی اداری ساکھ بڑھے، متعلقہ رسک کو کم کیا جائے، آمدنی کو تحفظ دیا جائے اور حصص مالکان، منافع کی سہولتیں، کاروباری نم مشیوں، کسٹمرز اور ضابطہ کاروں سے تعلقات کو قائم رکھا جائے۔ ہم اس بات کو سراہتے ہیں کہ کاروباری تسلسل کو قائم رکھنے کے حوالے سے موثر اور مضبوط اقدامات منافع سروس انڈسٹری میں نہایت اہم ہیں۔ کاروباری تسلسل کے موثر منصوبہ کی تکمیل، اسے لاگو کرنا اور برقرار رکھنا کاروباری ماڈل کا ایک اہم حصہ ہے۔

اپنے کاروباری مزاحمت کو عملی جامہ پہنانے اور قاعدے اور قوانین کی ضروریات سے مطابقت قائم رکھنے میں جب ایسے کاروباری نخل رونما ہوتے ہیں جو کسی اہمیت کے حامل ہیں، تو ادارے کے بنیادی ڈھانچے میں کاروباری تسلسل کا منصوبہ شامل ہوتا ہے جو ایک اہم حصہ جانا جاتا ہے۔ ہم وسائل میں کسی اہم نخل کا تعین کرنے اور اس کا دستاویزی ریکارڈ رکھنے، بازیابی کی ضروریات اور موجودہ استطاعت کے درمیان خلا جانچنے میں پیش قدمی ہیں اور اس حوالے سے بازیابی کی بہترین حکمت عملی وضع کرتے ہیں۔ ہماری کاروباری تسلسل کی حکمت عملی میں آفات و مصائب پر بازیابی، کاروباری بازیابی، مسائل پر انتظام، حادثوں پر انتظام، ایمر جنسی پر انتظام اور غیر متوقع صورت حال سے نمٹنے کا منصوبہ شامل ہیں۔

سرمائے کی مضبوط بنیاد

بینک نے جہاں مرہبہ ضابطوں کے تحت ضروریات کو پورا کرنے کے لیے سرمائے کی مضبوط بنیاد برقرار رکھی ہے، وہاں بینک کے بڑھتے ہوئے کاروبار پر سرمایہ کاروں اور قرض خواہوں کا اعتماد بھی قائم رکھا ہے۔ بینک کے سرمائے کی ضروریات کا دیگر طریقوں کے ساتھ ساتھ اسٹیٹ بینک اور Basel کے قائم کردہ قواعد اور تناسب کو مد نظر رکھتے ہوئے جانچ لیا جاتا ہے۔

بینک کا درجہ اول سرمایہ جو سال 2016 میں 95,539 ملین روپے تھا سال 2017 میں بڑھ کر 101,302 ملین روپے ہو گیا۔ یہ اضافہ اس سال کے کُل نفع اور پچھلے سال کے لیے ڈیویڈنڈ کی ادائیگی کے بعد ہوا۔ قرضہ جات کی مد میں کل بوزن خطرہ اثاثہ جات میں 65,715 ملین روپے کا اضافہ ہوا۔ جبکہ کل بوزن خطرہ اثاثہ جات کے حوالے سے بینک کا کل سرمایہ 15.95 فیصد (2016:16.54%) تھا، جو کہ مرکزی بینک کے مقرر کردہ کم سے کم ہدف 11.28% سے بڑی حد تک زیادہ ہے۔ CET-1 کچھل رہی ہوگی مطلوبہ 6.00 فیصد کے مقابلے میں 11.63 فیصد (2016:11.86%) پر ملحوظ رہا۔

بورڈ آف ڈائریکٹرز میں تبدیلی

ہم جناب عمران ملک، جناب اسد میر اور جناب فرید ملک کو اس سال بورڈ میں خوش آمدید کہتے ہیں۔ جبکہ جناب عمران ملک اور جناب اسد میر کو وزارت مالیات نے تقرر کیا تھا اور جناب فرید ملک کو بینک کے 15 مئی 2017 کو ہونے والے غیر معمولی اجلاس عام (EOGM) میں اقلیتی حصص مالکان کی جانب سے بطور ڈائریکٹر منتخب کیا گیا تھا۔ تینوں قابل ڈائریکٹرز پیشہ ورانہ اہلیت کے حامل، ڈپ لیول گورننس کا وسیع تجربہ اور فنس کا بھرپور علم رکھتے ہیں۔ ہم پُر اعتماد ہیں کہ بینک ان کے بھرپور پیشہ ورانہ تجربے اور قائدانہ صلاحیتوں سے استفادہ کرے گا۔

ہم ریٹائر ہونے والے ڈائریکٹرز، جناب طارق کرمانی، جناب فرخ قیوم اور جناب افتخار علی اللہ والاک کی خدمات کے شکر گزار ہیں۔ ضابطوں اور پالیسی کے امور، بزنس لیڈرشپ، کارپوریٹ گورننس اور صارفین کے مسائل کے حوالے سے ان کی مجموعی معلومات بورڈ کے لیے بیش قیمت ہے۔ میں شیئرز ہولڈرز کی جانب سے، بینک کے مقاصد کے حصول کے لیے ان کی مخلصانہ کاوشوں کا شکریہ ادا کرنا چاہتا ہوں۔

خالص منافع اور فی حصص آمدنی

زیر جائزہ سال کے دوران غیر فعال قرضوں کی مالیت 120,798 ملین ری جو کہ سال پہ سال 1,382 ملین روپے یعنی 1.2% اضافے کو ظاہر کرتی ہے۔ یہ اضافہ زیادہ تر جزوقتی یا موسمی کٹانگ میں نظر آیا جو کہ عام طور پر آئندہ سال کی پہلی سہ ماہی کے اختتام تک ٹھیک ہونے کی توقع ہے۔

سال 2017 کے لیے بینک کا خالص منافع 23,028 ملین روپے رہا جو کہ سال 2016 کے 22,752 ملین روپے کے مقابلے میں 1.2% زیادہ ہے۔ یہ بعد از ٹیکس بنیادی فی حصص آمدنی 10.82 روپے ظاہر کرتی ہے جو کہ بحساب سالانہ 13 پیسہ زیادہ ہے، جو کہ گذشتہ سال 10.69 روپے تھا۔

Total Assets

غیر فعال قرضے انتہائی محتاط اور مناسب طریقہ کار کے تحت بینک دولت پاکستان کی ریگولیٹری ہدایات کے مطابق توہین کیے گئے ہیں۔ 31 دسمبر 2017 کے مطابق بینک کے غیر فعال قرضوں کی کوریج کی شرح 92% تھی، ڈیباؤت میں نمایاں طور پر زیادہ اضافے کے باوجود بینک کا ADR تناسب (مجموعی) 31 دسمبر 2017 کو 49.6% تھا جو کہ گذشتہ سال کے 47.2% کے مقابلے میں زیادہ ہے۔

اس سال کے لیے مخصوص پرویزن چارج 1,000 ملین روپے تھا، جس کا اختتامی بیلنس 110,651 ملین روپے تھا، جو کہ 31 دسمبر 2016 کے 109,655 ملین روپے سے کچھ زیادہ ہے۔ 31 دسمبر 2017 کے مطابق عمومی پرویزن کی مالیت 6,515 ملین تھی جو کہ سال گذشتہ کے 4,431 ملین روپے کے مقابلے میں 2,068 ملین روپے کا مجموعی اضافہ ہے۔ مرکزی بینک کے مطالبات کے مطابق پرفارمنگ پورٹ فولیو کی 1% سے 5% تک کی شرح سے حاصل کیے گئے کٹن ہر اور SME قرضہ جات کے لیے پرویزن محتاط انداز سے مختص کی جاتی ہے۔

Value Addition

2017 کے اختتام پر مالیاتی پوزیشن کا جائزہ

بینک کی بیلنس شیٹ 2 کھرب روپے کے رنگ میل کو عبور کرتے ہوئے 2,370 ارب روپے کے مجموعی بینک بچتی گئی جو کہ دسمبر 2016 کے مقابلے میں 20% زیادہ ہے۔ اس سال ہم نے اپنی کمرشل، اسٹاک اور کارپوریٹ بینکنگ آپریشنز کے لین دین کے معاملات میں اقداریت کو بہتر کیا ہے، ساتھ ہی بینک کی لیویٹی اور فنڈنگ کے لیے ایک پائیدار ذریعہ ہونے کی حیثیت سے کم قیمت وائی CASA ڈپازٹس میں موسمی جارحانہ حکمت عملی اور خاطر خواہ کامیابیوں کے حصول پر اپنی توجہ مرکوز رکھی۔ بینک نے قرض کی بڑھتی ہوئی طلب کو مد نظر رکھتے ہوئے اپنی لون بک میں زیادہ سے زیادہ حد تک اضافہ کیا، جس کے لیے بہترین کارکردگی کا مظاہرہ کرنے والی اور منافع بخش صنعتی شعبوں پر توجہ مرکوز رکھی۔

قرضہ جات

بینک نے اس سال معیشت کے تمام شعبوں میں اعلیٰ کارکردگی اور معیار رکھنے والے منتخب قرض خواہان کے ساتھ اپنے قرضہ جات کو وسعت دی۔ زراعت اور اجناس سے متعلق قرض، معاشی اعتبار سے اہمیت کے حامل SME، اور انفراسٹرکچر پراجیکٹ جو کہ خاص طور پر پانی و بجلی سے متعلق ہوں، میں نمودار کی گئی۔ 2017 کے اختتام پر بینک کے بعد از توہین قرضہ جات کی مالیت 739,772 ملین روپے (مجموعی) 856,938 ملین روپے (پے اری) جو کہ گذشتہ سال کے اختتام پر 667,389 ملین روپے کے مقابلے میں 10.8% زیادہ ہے۔ پاکستانی روپوں میں دیے گئے قرضوں کا حجم 778,778 ملین روپے (مجموعی) رہا، جو کہ مجموعی طور پر قرضہ جات کا 90.9% رہا، ہماری کارپوریٹ لون بک میں 430,565 ملین رقم کے ساتھ 6.8% کا اضافہ ہوا، جو کہ بینکوں میں سب سے زیادہ ہے۔ بیرون ملک مارکیٹس میں محدود مواقع اور مارکیٹ کے مشکل حالات کے باوجود ہماری انٹرنیشنل لون بک میں اس سال کے دوران 31% یعنی 75,175 ملین روپے کا اضافہ ہوا۔

بیرون ملک غیر فعال قرضوں کی رقم سال گذشتہ کے 30,846 ملین روپے کے مقابلے میں 31,747 ملین روپے رہی۔ 901 ملین روپے کے اضافے کی ایک وجہ روپے کی قدر میں آنے والی حالیہ کمی بھی شامل ہے۔ بیرون ملک غیر فعال قرضے مخصوص حموین کے ذریعے 97% کو رہتے ہیں۔ بینک اپنے کریڈٹ پورٹ فولیو میں کسی بھی متوقع خسارے اور نقصان پر موثر انداز میں قابو پانے کے لیے پوری تنبیہ کی اور محتاط طریقہ کار پر عمل کرتے ہوئے معقول رقم مخصوص اور برقرار رکھے ہوئے ہے۔

اخراجات کا انتظام و انصرام

زیر جائزہ مالی سال کے دوران ہم نے اخراجات کے انتظام و انصرام کو زیادہ بہتر بنانے کے لیے موثر اقدامات کیے ہیں۔ اس سال کے لیے مجموعی انتظامی اخراجات 50,395 ملین روپے رہے جو کہ سال 2016 کے 48,352 ملین روپے سے 4.2% زیادہ ہے۔ اٹاک وغیرہ کی گھرائی کے اخراجات 1,867 ملین روپے (2016: 1,098 ملین روپے) کو چھوڑتے ہوئے، انتظامی اخراجات کی رقم 48,528 ملین روپے تھی جو کہ سال گذشتہ کے 47,253 ملین روپے کے مقابلے میں محض 2.7% زیادہ ہے۔ افرادی قوت کے اخراجات مجموعی انتظامی اخراجات کا 63.9% ہے، جس کی مالیت 31,020 ملین روپے رہی، جو کہ سال گذشتہ سال کے 31,430 ملین روپے سے معمولی کم ہے۔ اس کی وجہ اس سال ہونے والی ریٹائرمنٹس ہیں۔

بینک نے انتظامی اخراجات کے موثر نظم و نسق کے لیے کثیر جہتی حکمت عملی تیار کی ہے۔ اس کے تحت کیے جانے والے اقدامات میں سولہ خصوصی تنصیب، فیملڈ جنٹ اسٹریکچر کو از سر نو منظم کرنا، آئی ٹی سسٹمز کی ترقیاتی، لازمی اور ترقیاتی امور کو مرکزی انتظام کے تحت لانا اور سیکورٹی گارڈز کو ڈیجیٹل سیکورٹی سسٹمز سے تہذیب کرنا شامل ہیں۔ ہمارے ای۔انگ پر وہیٹ نے موثر انداز میں کام کا آغاز کر دیا ہے، جو آن۔سائٹ ٹریننگ کے لیے بہت موثر ثابت ہو رہا ہے، اس سے ٹریننگ سے متعلق سفری اخراجات میں متوقع کمی واقع ہوئی ہے۔

محصولات

سال 2017 کے لیے ٹیکس چارج 11.8 ارب روپے بحساب سالانہ کم رہا جو کہ سال گذشتہ کے 14.4 بلین روپے کے مقابلے میں 12.6 بلین روپے ہے۔ ٹیکس کی موثر شرح 2016 کی 38.7% سے کم ہو کر اس سال 35.3% رہی۔

غیر مارک اپ سود آمدنی

اپنے بے مثال سٹیٹ ورک اور کلائنٹس میں پراگھا کر کے ہوئے، ہم نے آمدنی کے اس شعبے کے تحت قابل تعریف کارکردگی ریکارڈ کرائی۔ غیر سودی آمدنی سال کے لیے مجموعی آمدنی کا 36.4% تھی، اور گزشتہ سال کے لیے 29,967 ملین روپے کے مقابلے میں 31,066 ملین روپے رہی۔

یہ اضافہ تمام اہم شعبوں میں حاصل کیا گیا۔ سال کے لیے فیس، کمیشن اور بروکرئج کی آمدنی کی مالیت گزشتہ سال کے 14,833 ملین روپے کے مقابلے میں 16,774 ملین روپے رہی۔ یہ اضافہ تمام اہم مدوں میں حاصل کیا گیا مثلاً ٹریڈ برنس، سکوٹی ٹرانزیکشنز، ای۔ٹی ایم ٹرانزیکشن مانیٹرینگ اور برنس فیس وغیرہ۔ سال کے لیے ڈیویڈنڈ کی مد میں آمدنی 3,820 ملین روپے رہی، جو گزشتہ سال میں 2,999 ملین روپے کے مقابلے میں 27.4% زیادہ ہے۔ جیسا کہ بینک نے زیادہ ٹریڈ برنس حاصل کیا، مزید مبادلہ کے لین دین سے حاصل شدہ آمدنی 2,251 ملین روپے رہی، جو گزشتہ سال کے مقابلے میں 3.3% زیادہ ہے۔ تاہم سال کے لیے سٹیج ریٹیز کی فروخت اور ریڈیو سٹیشنز منافع 2016 کے لیے 8,473 ملین روپے سے 23.4% کم ہو کر 6,493 ملین روپے ہو گیا۔ یہ کمی بنیادی طور پر شیئر زیمینڈز کی فروخت میں دیکھی گئی جن کی مالیت گزشتہ سال کے لیے 5,167 ملین روپے کے مقابلے میں 31% کمی کے ساتھ 3,600 ملین روپے رہی۔ آمدنی میں اس کمی کی بنیادی وجہ PSX انڈیکس میں نمایاں کمی تھی۔ سال کے لیے تاخیری ٹیکس ریٹیفیکیشن کے متعلق معاوضہ کی مالیت گزشتہ سال کے لیے 1,333 ملین روپے کے مقابلے میں 1,500 ملین روپے رہی۔

پاکستان اسٹاک ایکسچینج کی حالیہ ترقی کا کارکردگی کے حقیقی اثرات کم کرنے کے لیے، ہم نے دیگر سرگرمیوں کے ذریعے غیر سودی آمدنی میں اضافے کے لیے مناسب اقدامات کیے ہیں۔ بنیادی اقدامات میں، جیسا کہ پہلے بیان کیا گیا، ڈیجیٹل بینکنگ آپریشنز متعارف کرنا، ٹریڈ برنس کے زیادہ حجم اور انویسٹمنٹ بینکنگ ٹرانزیکشنز کے ذریعے ایڈوائزری فیس کمانا شامل ہے۔

نقصان اور قرضوں میں ممکنہ تاخیر ہندگی کے لیے حموین

بینک نے اس مد میں 110,651 ملین روپے کی رقم مختص کی۔ اس سال کے لیے غیر فعال قرضوں کی مد میں مجموعی حموین شدہ رقم 1,068 ملین رہی، جبکہ سرمایہ کاری کی قدر میں ہونے والی کمی کے لیے حموین شدہ رقم میں 1,744 ملین روپے کی مجموعی کمی ریکارڈ کی گئی، جس کا مجموعی حاصل 675 ملین روپے ظاہر کرتا ہے۔ دسمبر 2017 کے مطابق غیر فعال قرضوں کی مجموعی کوٹج، مجموعی اور مخصوص حموین کے حساب سے باقی رہتے 97% اور 91.6% رہی۔ حموین کی شرح 100 فی صد سے معمولی کم ہونے کی وجہ غیر فعال قرضوں کی دو وجہ بندی ہے جن میں 100% سے کم حموین درکار ہوتی ہے۔ اندرون ملک غیر فعال قرضوں کی مجموعی غیر فعال قرضوں کا 73.7% رہے جس کی رقم 89,050 ملین روپے ہے جو کہ سال گذشتہ کے مقابلے میں 480 ملین روپے زیادہ ہے۔

قرضوں کی مد میں آمدنی

سال کے لیے کمائی گئی قرضوں اور ایڈوانسز پر مارک اپ کی مد میں آمدنی کی مالیت 54,885 ملین روپے یعنی گزشتہ سال کے لیے 54,188 ملین روپے کے مقابلے میں 1.2% زیادہ ہے۔ جیسا کہ پہلے بیان کیا گیا، پاکستان میں ڈسکانٹ ریٹ میں 2011 سے (13.5%) مسلسل کمی ہو رہی ہے جو مئی 2016 میں تاریخ کی کم ترین حد 5.75% کو پہنچ گیا اور دسمبر 2017 تک اسی سطح پر برقرار رہا۔ کم پالیسی ریش اور مارکیٹ میں زیادہ سیالیت کے پیش نظر بینک کو اپنا قیمت خرید اور قیمت فروخت کا فرق (Spread) کم رکھنا پڑا۔ مارکیٹ کے منتہی سے بھرپور ماحول کے باوجود، بینک اپنے ایڈوانسز کا مارکیٹ شیئر برقرار رکھنے میں کامیاب رہا۔

سرمایہ کاری کی مد میں آمدنی

زیر جائزہ سال کے لیے سرمایہ کاری پر کمائی گئی مارک اپ کی آمدنی کی مالیت 66,453 ملین روپے رہی جو گزشتہ سال کے لیے 58,906 ملین روپے سے 7,547 ملین روپے یا 12.8% زیادہ رہی۔ ہیلڈ فار ٹریڈنگ (held-for-trading) سیکورٹیز میں بالاطلاع حجم اضافہ آمدنی میں اضافے کا محرک بنا۔ کم ڈسکانٹ ریٹس کے نتیجے میں ہونے والی آمدنی کی شرح عموماً زوال پذیر رہی۔ شرح سود سے متعلق خطرات سے عہدہ برآ ہونے اور سرمایہ جاتی کفایت (capital adequacy) کے تقاضے پورے کرنے کے لیے ہم نے اپنے فنڈز کو زیادہ تر کم خطرات والی سیکورٹیز میں لگا یا اور اس طرح اپنی مجموعی آمدنی میں اضافہ کیا۔

مارک اپ / سود کی مد میں اخراجات

سال کے لیے مارک اپ / سود کی مد میں اخراجات 68,820 ملین روپے ہیں جو گزشتہ سال کے لیے 59,578 ملین روپے کے مقابلے میں 9,241 ملین روپے یا 15.5% زیادہ ہیں۔ ڈپازٹس کی لاگت سود کی مد میں مجموعی اخراجات کا 84.2% رہی اور اس کی مالیت 57,947 ملین روپے یعنی سال 2016 کے لیے 50,070 ملین روپے سے 15.7% زیادہ رہی جو کہ بنیادی طور پر مشاہرتی ڈپازٹس میں بالاطلاع حجم اضافہ کی وجہ بنا۔ ٹرانزیکشنز کے زیادہ حجم اور پیجز ایگریمنٹ کے تحت ٹرانزیکشنز پر سود کی مد میں اخراجات اور مختصر مدتی قرضوں کی مالیت 10,872 ملین روپے رہی جو گزشتہ سال کے 9,508 ملین روپے کے مقابلے میں 14.3% زیادہ ہے۔

سال کے لیے بینک کے کاروباری اخراجات کی مالیت 48,528 ملین روپے رہی یعنی گزشتہ سال کے 47,253 ملین روپے کے مقابلے میں 3% زیادہ ہے۔ یہ لاگت اور آمدنی کا پانچواں نمبر ہے جو گزشتہ سال کے 56% کے مقابلے میں معمولی زیادہ ہے۔

ڈپازٹس 69,790 ملین روپے کے اضافہ کے ساتھ سال بہ سال بنیاد پر 1,727,102 ملین روپے ہو گئے۔

مجموعی ایڈوانسز 75,462 ملین روپے اضافہ کے ساتھ سال بہ سال بنیاد پر 856,938 ملین روپے ہو گئے۔ اس طرح ایڈوانسز کا ڈپازٹس سے تناسب 49.6% رہا۔

غیر فعال قرضے (NPL) 1,381 ملین روپے کے اضافہ کے ساتھ سال بہ سال بنیاد پر 120,798 ملین روپے ہو گئے۔ NPL کا مجموعی تناسب، خاص NPL تناسب (ممکنہ ناپیدگیوں اور خساروں کے لیے مختص مجموعی رقم کی بنیاد پر) اور ممکنہ ناپیدگیوں اور خساروں کے لیے مختص احتیاطی رقم (ممکنہ ناپیدگیوں اور خساروں کے لیے مختص مجموعی رقم کی بنیاد پر) بالترتیب 14.1%، 0.5% اور 97.0% رہا۔

سرمایہ کاری پر مجموعی لاگت 408,367 ملین روپے اضافہ کے ساتھ سال بہ سال بنیاد پر 1,271,937 ملین روپے ہو گئی جو بنیادی طور پر برآمدی بلز میں کمی کی۔

مجموعی اثاثوں میں 394,180 ملین روپے یا 20% اضافہ ہوا جو 2,369,885 ملین روپے تک پہنچ گئے۔

مالکانہ سرمایہ اور محفوظ ذخائر (Reserve) میں 1,351 ملین روپے یا 0.8% کمی ہوئی جو بنیادی طور پر PSX انڈیکس میں گراؤ کے نتیجے میں واقع ہوئی۔

مارک اپ کی مد میں آمدنی

تاریخ کے کم ترین پالیسی ریٹ، مارکیٹ کی زیادہ سیالیت اور کم منافع جات کے باوجود آمدنی کا زیادہ سے زیادہ بہاؤ برقرار رکھنے کے لیے ہم نے اپنا آمدنی کا پورٹ فولیو کم بہتر بنایا۔ سال کے دوران کمائی گئی مجموعی مارک اپ کی مد میں آمدنی 123,073 ملین روپے رہی جو گزشتہ سال کے 114,403 ملین روپے کے مقابلے میں 7.6% زیادہ ہے۔ یہ اضافہ بنیادی طور پر قرضہ جات اور سرمایہ کاری کا پورٹ فولیو موثر انداز میں برقرار رکھنے، قرض کی بہتر قیمت، وصولی کی کوششوں اور ہمارے قرض کے کھاتوں میں معیاری نام شامل کرنے کے ذریعے حاصل کیا گیا۔ یہاں یہ ذکر کرنا بھی ضروری ہے کہ بینک کی مارک اپ کی مد میں آمدنی کو پبلک سیکٹر کے بعض اداروں کی طرف سے مارک اپ کی ادائیگی نہ کیے جانے کی وجہ سے کئی ارب روپے کی کمی (Drag) کا سامنا رہا ہے۔

سال کے لیے سود کی مد میں خاص آمدنی خاص مستحکم رہی اور جس کی مالیت 54,253 ملین روپے ہے جو گزشتہ سال کے 54,824 ملین روپے سے 572 ملین روپے یا 1.1% کم ہے۔ سرمایہ کاری پر سود سے آمدنی (NII) بینک کی کاروباری آمدنی کے 63.6% پر مشتمل ہے۔

مجموعی معاشی اشارے

سال 2017 کے دوران عالمی معیشت نے زور پکڑا اور قدرے مضبوط ہوئی۔ حالیہ تھینے 2017 کے لیے 3.7% نمو کی نشاندہی کرتے ہیں جو ابتدائی اندازوں سے قدرے زیادہ اور سال 2016 کے مقابلہ میں 0.5% زیادہ ہے۔ معاشی بحالی پیش تر معیشتوں میں مشترکہ ترجیحات کے لیے وسیع اہلیاد ہے جس میں امکانی پیداوار کو تقویت دینے اور موکومز یہ شمولیتی بنانے کے لیے تنظیمی اصلاحات شامل ہیں۔ قابل توجہ پیش رفت یورپی اور ایشیائی معیشتوں میں ہوئی جس کے ذیلی مفید اثرات علاقائی وابستگی تک بھی پہنچے اور اصلاحات کے لیے موزوں ترین موقع پیدا کیا۔ پاکستان جیسی ابھرتی معیشتوں میں بہتر مالیاتی پالیسی نے بنیادی اخراجات کو کم کرنے میں مدد دی ہے جو معاشی سرگرمی کو زور پانے کی صورت میں طلب کو سہارا فراہم کرنے کے لیے نکالنا شروع کرتی ہے۔

اخراجات کو کم تر دیا گیا ہے اور دلالت کرتا ہے کہ بہت سی ترقی یافتہ معیشتوں میں سست روی باقی ہے اور مالیاتی پالیسی کو بدستور تعداد سے بھر پور رہنا چاہیے۔ تاہم نمو کی رفتار میں بہتری کا مطلب یہ ہے کہ مالیاتی پالیسی ترجیحات اور اہداف پر نظر رکھتے ہوئے تنظیمی دی جائے جو مالیاتی پالیسی کو تقویت دے۔ 2017 میں تجربے میں آنے والا طاقت ور تحریک بنائے اور امکانی پیداوار کو تقویت دے۔ 2017 میں تجربے میں آنے والا طاقت ور تحریک 2018 اور 2019 میں بھی جاری رہنے کی توقع ہے، جہاں عالمی نمو کی شرح تھکنے کی بعد بڑھا کر دونوں سالوں کے لیے 3.9 فی صد کر دی گئی ہے۔

پاکستان کی معیشت نے اپنی سال 2017 کے دوران متحرک کارکردگی کا مظاہرہ کیا۔ جہاں GDP کی نمو کا تخمینہ 5.3% لگایا گیا ہے، بڑے پیمانے کی صنعت نے 5.7% نمو حاصل کی، فی فرد آمدنی بڑھ کر 1,629 ڈالر ہو گئی اور ترسیلات 19.3 ارب ڈالر تک بڑھ گئیں، تاہم مالیاتی خسارہ GDP کے 5.8% تک بڑھ گیا (3.8 فی صد ہدف اور اپنی سال 2016 میں 4.6 فی صد کے مقابلے)۔ پاکستانی معیشت اب گروس ڈومیسٹک پروڈکٹ (GDP) یعنی مجموعی ملکی پیداوار کے اعتبار سے دنیا کی 42 ویں بڑی معیشت اور سادہ قوت خریداری کے اعتبار سے دنیا کی 25 ویں بڑی معیشت بن چکی ہے۔

معیشت کی اصلاح کا چارج لاکھ عمل اور ساتھ ساتھ حیز رفتار نمو حاصل کرنے کے ہدف والی معاشی پالیسیوں کا تسلسل اور استحکام، جاری تنظیمی اصلاحات، اجناس کی کم قیمتیں اور امن وامان کی صورت حال میں بہتری نمو کے حوالے سے مرکزی کردار ہے۔ بجلی کی پیداوار اور ترسیل میں اب اتنا اضافہ ہو چکا ہے جو صنعتی اور گھریلو طلب کو باقاعدگی پوری کرنے کے لیے کافی ہے۔ چنانچہ پاکستان اکنامک کارڈینر سے متعلق سرمایہ کاریوں میں اضافے، بجلی کی دستیابی میں بہتری اور نمو میں مددگار تنظیمی اصلاحات کے بل پر GDP نمو درمیانی مدت میں 6% تک بڑھنے کی توقع ہے۔ بڑے پیمانے کی صنعتوں (LSM) کی نمو میں بحالی اور معاشی اور چھوٹی صنعتوں کی نمو میں اضافے کا بنیادی سبب بنی۔ یہ بہتری خصوصاً آٹوموبائل، ریسٹورانٹ، فرنیچر اور اسٹیل جیسے شعبوں میں دیکھنے میں آئی۔

مورگن اسٹینلی کے گلوبل انڈیکس کی طرف سے پاکستان کو MSCI مریجنگ مارکیٹ انڈیکس میں ڈالنے کا فیصلہ سال کے دوران ایک مثبت قدم اور پاکستان کی گلوبل مارکیٹس اور معیشت پر بین الاقوامی سرمایہ کاروں کے اعتماد کی عکاسی کرتا ہے۔ تاہم سیاسی افراتفری کی وجہ سے متوقع فوائد کو مکمل حد تک حقیقت کا روپ نہ دھار سکے۔

دسمبر کے اختتام پر ہزر ہمارا دل کے ذخائر، گزشتہ سال کے 23.2 ارب ڈالر کے مقابلے 20.2 ارب ڈالر پر موجود تھے۔ سال کے آخری حصے میں روپے کی قدر میں کمی دیکھنے میں آئی، جس نے ایشیائے صرف کی قیمتوں اور اخراجات میں اضافہ کیا۔ روپے کی قدر، جو جنوری میں 104 روپے فی ڈالر تھی، دسمبر میں 5% سے زائد کمی کے ساتھ 110 روپے فی ڈالر ہو گئی۔

صاف اشیاء قیمت CPI اخراجات زور دسمبر 2017 میں سال بہ سال بنیاد پر 4.6 ریکارڈ کی گئی۔ حالیہ مہینوں میں روپے کی قدر میں کمی اور تیل کی بڑھتی ہوئی بین الاقوامی قیمتوں سے آنے والے مہینوں میں اخراجات زور کچھ اضافہ کے ساتھ 4.5 فی صد سے 5.5 فی صد کی حدوں میں رہنے کی توقع ہے، جبکہ مالی سال کے اختتام پر سال بہ سال بنیاد پر اخراجات زور 6% کے سالانہ ہدف کی طرف بڑھنے کا امکان ہے۔

حالیہ مہینوں میں اخراجات زور میں چڑھاؤ کے پیش نظر بینک دولت پاکستان نے 2013 کے بعد سے پہلی بار ڈسکاؤنٹ ریٹ میں 25 بی پی ایس اضافے کے ساتھ اظہار سنجیدگی کرنے کے اقدامات شروع کر دیے ہیں۔ اس کے نتیجے میں بینکنگ انڈسٹری کے سود کی مدد میں خاص منافع میں کچھ اضافہ بھی متوقع ہے۔ بڑھی ہوئی سیالیت (لیکویڈیٹی) اور منظم ڈسکاؤنٹ ریٹ کی بدولت بینکنگ انڈسٹری کے لیے مستقبل قریب میں مزید نمو حاصل کرنے کے مواقع موجود ہیں۔ کاروباری ماحول منظم محسوس ہوتا ہے جیسا کہ پاک بینکنگ معاشرہ راجداری کے منصوبوں کے زور پکڑنے کے ساتھ اخراجات زور میں سرمایہ کاری کے بل پر معاشی نمو میں اضافہ ہوگا، جو براہ راست غیر ملکی سرمایہ کاری کو راغب کرے گی اور قرض کی مقامی طلب میں بھی اضافہ ہوگا۔

بینکوں کے رسک پروفائل منظم رہنے کی توقع ہے، جیسا کہ ہم نے معاشی اور قانونی ماحول میں عمومی بہتری کی بدولت نئی شعبے کے قرضوں میں بہتر کارکردگی کا مشاہدہ کیا ہے۔ ریاستی (sovereign) بونڈ میں زیادہ اور بڑھتی ہوئی سرمایہ کاری ارتکازی خطرے (Concentration risk) کا ایک اہم ذریعہ ہوگی، جو بینکوں کی کریڈٹ ریٹنگ کو حکومت کی ریٹنگ سے منسلک کر سکتی ہے۔ غیر ملکی ترسیلات زور مارکیٹ میں زیادہ تنوع کو لاگتی ڈپازٹس کو متحرک کر رہے ہیں۔ یہ فنڈنگ اور سیالیت کے حوالے سے بہتر صورت حال ہے، جس سے لیکویڈیٹی کے حوالے سے اہم مدافعتی حدیں منظم ہو رہی ہیں۔

2017 میں مالیاتی کارکردگی کا جائزہ

سال کے دوران کم ترین پالیسی ریٹس، مارکیٹ میں سخت مقابلے اور پاکستان اکنامک ایجنسی کی طرف سے عشرے کی کم ترین کارکردگی کے باوجود سال 2017 کا اختتام بھی اچھی کارکردگی کے ساتھ ہوا۔ جہاں منافع کمائے کی اہلیت برقرار رکھی گئی، وہاں بینکس شیٹ میں اضافے کے ساتھ نمایاں نمو حاصل کی گئی، جب کہ پہلی بار 2 کھرب روپے کا سبک میل عبور کیا گیا۔

سال کی مالیاتی جھلکیاں

- بعد از ٹیکس منافع گزشتہ سال کے 22,752 ملین روپے کے مقابلے میں 1% اضافہ کے ساتھ 23,028 ملین روپے رہا۔ جس کے نتیجے میں ریٹرن آن ایجو اسٹس (ROA)، 2016 کے ROA کے 1.2% کے مقابلے میں 1.1% رہا۔
- اوسط مالکانہ سرمایہ پر قبل از ٹیکس اور بعد از ٹیکس منافع با اتریب 29.1% اور 18.8% رہا۔
- ممکنہ تاہم بندگیوں اور خساروں کے لیے حویں سے پہلے کا منافع (Preprovisions profit) 2016 میں 37,539 ملین روپے کے مقابلے میں 36,791 ملین روپے اور اس طرح سال بہ سال بنیاد پر 2% کمی کا اندراج کرایا۔
- قبل از ٹیکس منافع 2016 میں 37,141 ملین روپے کے مقابلے میں 35,599 ملین روپے رہا اور اس طرح سال بہ سال بنیاد پر 4.15% کمی کا اندراج کرایا۔
- فی شخص آمدنی گزشتہ سال کے لیے 10.69 روپے کے مقابلے میں 2017 میں 10.82 روپے رہی۔

ڈیئر شیئر ہولڈرز،

میں بورڈ آف ڈائریکٹرز کی طرف سے 31 دسمبر 2017 کو ختم ہونے والے مالیاتی سال کے لیے اہم ترین آڈٹ شدہ سالانہ مالیاتی گوشوارے پیش کرتے ہوئے خوشی محسوس کر رہا ہوں۔

2017 بینک کے لیے ایک اور کامیاب سال رہا ہے جیسا کہ ہم نے اپنے مضبوط نفاذ اور مارکیٹ کے مواقع سے بہترین فائدہ اٹھایا۔ ہم نے سال کے لیے حکمت عملی کی جو جہتیں طے کی تھیں ان کا نتیجہ مطابقتی انصرام، بروایتی اور اسلامی بینکاری میں زیادہ نفوذ اور صارفین کی خدمت میں بہتری کی صورت میں سامنے آیا۔ یہ حکمت عملی مالیاتی پروڈکٹس اور خدمات میں جدت کے ذریعے معاشی موسموں میں شراکت کے لیے ایک متنازع بینک بننے کی جانب ہماری راہ ہموار کرتی ہے۔ بینک آف پاکستان پروڈکٹس کی متنوع رینج، مالیاتی جدت طرازی، اعلیٰ معیار خدمت، عالمگیر بینکاری صلاحیت، کثیر تعداد میں ذیلیوری چینلز، افرادی قوت میں سرمایہ کاری اور حصص ماکان اور دیگر وابستگان کے لیے مسلسل بلند منافع جات کے حصول کے ذریعے قوم کی خدمت کے لیے اپنی کاوشیں جاری رکھے گا۔

GROUP PERFORMANCE REVIEW

Corporate Banking

The Corporate Banking Group at NBP handles one of the largest corporate loans / advances / deposit portfolios amongst all banks in Pakistan. For FY 2017, corporate advances made up more than 50% of the total advances at NBP. With its Regional Corporate Centres in Karachi, Islamabad, Lahore, Faisalabad, and Multan, CBG is well-positioned to cater to the Banking & financial needs of all its local corporate customers, multinationals, and government entities by offering a whole spectrum of financial products & services ranging from plain vanilla loan & trade products to highly tailored/structured financial solutions.

During 2017, the CBG team added several new corporate relationships with sizeable business potential for the Bank. As part of its strategy, the CBG team has continued to diversify its loan portfolio and improve asset quality by booking loans of high quality, diversified into growth sectors, established new relationships, and deepened its wallet share with its existing customers. A priority for the CBG team is to originate and generate more fee-based business with greater emphasis on trade finance, cash management, and other fee income (e.g. advisory business). Corporate Centres & Corporate Branches in Faisalabad, Lahore & Islamabad have been relocated to larger premises in order to cater to the growing business demand. Both Corporate Centres have been refurbished and upgraded to world-class standards. As a result of the above initiatives, CBG significantly exceeded its targets for 2017 as a major contributor to NBP's bottom line.

As a result of the above initiatives, CBG was a major contributor to NBP's bottom line profitability. The Group's operating profit grew to PKR 6.3 Billion in FY-2017 which is 38% higher than the previous year.

Commercial Retail Banking

Commercial Retail Banking Group is the largest group serving almost 80% of NBP's customers. It focuses on segments such as Commercial and Commodity, Small & Medium Enterprise, Agriculture Financing, Prime Minister Youth Business Loans consumer business, Institutional Sales, Deposits & Wealth Management. CRBG markets its products to a cross section of approximately 5 million customers, through a network of around 1400 branches; through its variety of products by managing two aspects of balance sheet Liabilities (deposit) and Commercial, SME, Consumer Asset and Agricultural Advances. NBP holds a market share of 15% of the industry's entire deposits and takes pride in serving various public institutions.

NBP has maintained its leading position with more than 19% share of overall Consumer Finance, industry portfolio and with more than 50% share of personal loan category. In order to meet domestic as well as housing needs of our customers we offer NBP Advance Salary, NBP Cash n Gold and NBP Saibaan. The Bank disbursed more than 107 Billion against target of Rs. 102 billion to more than 275,000 customers. NBP's share in total Industry disbursement was 15%. CRBG also provided running finance facility of Rs. 5.00 billion to different Non-Banking Financial Institutions.

To facilitate the SME sector, Commercial & SME Credit Centers have been established at major business-hubs across Pakistan. These centers cater the Commercial and SME borrowers efficiently and with high service standards. Fund based and Non-Fund based business portfolio has also been significantly increased owing to the efficiency of credit approval process and enhanced quality of delivery channels. Moreover, by adopting focus approach towards New To Bank, sizeable business has been targeted and approached which expected to be matured during current financial year.

Investment Banking

During 2017, the first full year that Investment Banking Group has been formed, it continued to be on the fore-front through its lead role in project finance transactions, syndications, advisory and agency & trustee services. The role played by the Group helps the Bank in maintaining its leadership position in the investment banking domain with contribution of high-quality income generating assets.

The Group was able to effectively achieve major milestones of growth in income, advances and establishing new business relationships with significant business potential in the various sectors of the economy. The Group closed various transactions of PKR 220 billion in the domestic market, most notable of which was the syndicated project financing facility of PKR 144 billion for WAPDA–Dasu Hydro Power Project. The Group also efficiently concluded arrangement of Working Capital transaction for 2,453 MW power projects of PKR 67 billion.

Due to surge in project finance & syndicated transactions under CPEC as well as developing economic spectrum of the country substantive increase is anticipated in fees-based, funded, non-funded and shadow income for the Group followed by incremental increase in advances deployed towards first-rated income generating assets.

The growth in fee-based income on NBP's income statement is a reflection of the Group's performance and its positioning to take lead in numerous investment banking transactions. Moving forward, the Group aims to further strengthen its foothold in structuring transaction in coordination with other business units of the Bank.

Payment Services & Digital Banking

With this long term vision & focus on Digital banking, a new Group was recently formed within the Bank by the name of Payment Services & Digital Banking Group "PSDBG" to ensure that NBP is not only at par with its peer banks but is also capable of leading the industry on the road to digitalization. PSDBG has not only initiated multiple technology deployments but also captured businesses, which also places NBP in a competitive position in this arena, especially in G2P & P2G business.

Key initiatives include

- Designing & Strategising the long term Digital Strategy of the Bank.
- Negotiated and signed multiple incentive and technology support funding agreements.
- Technology Deployments, to launch multiple products e.g.
- Prepaid Cards – Launched in January 2017
- Mobile App – Soft Launch in September 2017
- G2P & P2G Aggregators – Launched in November 2017
- Cash Management Solutions – Launching in December 2017
- API Management Platform – Launching in January 2018

In recent times, the Group has successfully delivered many G2P programs of the Government of Pakistan, including Punjab Flood Relief Program, PM Kisan Package, etc. Group's Home Remittance Division is actively involved in various marketing campaigns with some major tie-ups in KSA, UAE and other healthy corridors which attracted excellent feedback from print/electronic media, participating agencies as well as from the customers.

Islamic Banking

During the year under review, NBP Islamic Banking balance sheet increased by 23% over December, 2016 to PKR 43,975 million. The deposit base increased by 12%, reaching PKR 36,908 million from PKR 33,088 million in December 2016 and maintained CASA ratio at over 80%. Current account grew by more than 35% and the ratio of current account to total deposit has now risen to 32% in December 2017 from 26.6% in December 2016. After a period of initial slow growth, financings increased by 464% to reach PKR 19,138 million.

NBP 'Aitemaad' remains committed to financial inclusion for unbanked masses by providing Islamic financial services with presence in 83 cities across the country through its Islamic branch network which has increased from 118 in December, 2016 to 169 as of December, 2017 and is targeting 217 branches by converting 37 conventional branches into Islamic and opening 11 new Islamic branches during 2018. Going forward, the Bank plans to launch new Islamic banking liability and asset products.

In December 2017, NBP Aitemaad launched its first consumer product, NBP Aitemaad Hamsafar Auto Finance facility based on the completely Shariah compliant mode of 'Diminishing Musharakah' (DM) for salaried people. It is a simple and convenient product that gives applicants the opportunity to enjoy the luxury of their own car. NBP Leasing Limited was amalgamated into the Bank during the year. As a result of this, assets of NBP Leasing Ltd. are being added in Aitemaad's balance sheet, bringing value addition through economies of scale and synergies.

International Operations

NBP has one of the largest international franchises amongst Pakistani banks with a presence in Asia, Europe and America. International Operations' focus is on trade finance, syndication, LC confirmation, FI business, correspondent banking and remittances business. International operations of the Bank comprise of branches spread over North America, Europe, Far-East, Asia, Middle-East & the only Pakistani bank having presence in Central Asia along with representative offices in Beijing, Toronto and Tashkent. Despite all the challenges, global slowdown and monetary policy shifts, our international branches have continued to service the Bank's clients as well as facilitate cross-border trade.

International Operations will continue to explore new avenues to ensure increase in deposit base and trade business to reflect improvement in its funded and non-funded income. We have already strengthened our IT systems and will continue to further strengthen IT platforms at international branches to ensure efficiency and improvement through establishing effective compliance controls.

Treasury & Capital Markets

Treasury & Capital Markets (TCMG) play a vital role in managing the Bank's liquidity, foreign exchange and investments for optimal utilization of funds which are consistent with the Bank's strategy vis-à-vis global and domestic market outlook, currency volatility and interest rate movements. Besides optimally managing cash flows, TCMG continues to be a major contributor towards the bottom line profitability of the Bank.

The Group made a sizeable contribution to the Bank's bottom line by posting huge capital gains through transactions in government securities and equities. It continues to be a market maker both in the Foreign Exchange and Fixed Income market and once again posted substantial FX gains in 2017. The fact that TCMG have been persistently rated amongst the top primary dealers in the country by the State Bank of Pakistan bears testament to our expertise in managing and trading government securities and the confidence of our diverse clientele. TCMG have made steady progress in further strengthening our controls and compliance environment by focusing on people, culture and systems.

Some notable initiatives in line with our objectives in 2017:

- Successfully implemented globally recognized treasury system.
- Strengthened the core sales team which is now better equipped to undertake new business and become a one-stop solution for our diverse clientele.
- Initiated FI sales awareness program at branch levels across the country. In line with the SBP objective of financial inclusion, the Treasury has restructured and streamlined its IPS procedures/guidelines to focus on retail clientele.

Service Quality

Envisioning the significance of ensuring satisfactory level of services to NBP's clientele, the NBP President focused on Service Quality and through the reorganization, a Service Quality Group (SQG) has been established. Currently, SQG is looking after the Service Quality of ATM services, complaint management and call centre functions of the Bank. After the strengthening of SQG and implementation of a centralized complaint management set-up, the number of customer complaints has been reduced from 18,000 to 2,500.

The availability of NBP ATMs has improved significantly. This has occurred because of a focus on Service Quality Improvement measures, which include detailed guidelines for branch upkeep and customer-friendly guidelines and checklist/monthly reporting mechanism. Business Continuity Plan of call centre is being planned at Islamabad. Initiatives in multiple dimensions such as bringing structural changes at the branch and regional levels for improving the quality of ATMs and other online services. Various training programs and enhanced/updated SOPs have also been devised by SQG for up-keeping the skill inventory of field staff. In today's age, Service Quality Improvement is a continuous endeavour; the Bank is still striving hard and is adopting the Kaizen approach for continuous improvement.

Risk Management

Risk Management Group “RMG” is proactive in identifying, assessing, monitoring and controlling the risks associated with our Business. RMG functions as an independent group reporting directly to the President with a dotted line reporting to the Board Risk Committee (BRC). The group structure is constituted in a way so as to have a focused approach encompassing all material risks that the Bank may be exposed to. These risks are mainly categorized as Credit Risk, which is managed through a well-defined credit structure including but not limited to credit approval mechanism, tools/models development and its assessment through frameworks; Market & Liquidity Risk, which is managed through the Market Risk Management Framework and regular review and monitoring of the investment portfolio by the Bank’s Asset Liability Management Committee (ALCO); Operational Risk is well-managed through operational risk strategy/framework of the Bank. Apart from the above-mentioned risks, the Pillar-II risks fall under the ambit of ICAAP and are managed accordingly.

Like previous years, RMG has achieved many milestones during the current year, including the preparation of a Bank-wide Recovery Plan to avoid extreme but plausible impact over the financial health or liquidity of the Bank; formulation of the Market Risk Management Framework including Interest Rate Risk Management policy to further strengthen our investment decisions; development of Default Prediction Model based on current macro-economic conditions to evaluate the adverse impact on credit portfolio; standardization of ICAAP; preparation/reporting of country risk outlook & risk rating categorization; enhancements in Internal Risk Rating methodology – Probability of Default (PD) Model; development of draft cash and gold scorecard; revision of credit risk tolerance limit/concentration policy; meeting and reporting Basel-III Liquidity standards for SBP, and setting & approval of Risk Appetite Statement of the Bank.

Credit Management

Credit Management Group is responsible for ensuring booking of quality loan portfolio of all types including the loan rehabilitation & recovery proposals. CMG also performs a range of additional functions, including credit monitoring, policy formulation and conducting industrial and economic research. During 2017, CMG made significant contributions towards improving asset quality by curtailing exposure on high risk assets and increasing exposure on low risk assets which translated in increase in overall earnings.

CMG’s Research Division analyses key sectors of the economy in terms of relative risks and attractiveness, which helps business groups to set their goals and strategies. Another 37 micro-sectors were added to this list during 2017, considering relevance of these sectors to micro-finance customers.

CMG is actively involved in developing and updating credit-related policies and procedures to provide conducive framework within which the entire credit-related activities are performed. During 2017, CMG updated various credit-related policies including the ‘Policy on Acceptable Leverage Ratio’ and ‘Enlistment of Insurance/Takaful Companies’. Furthermore, credit policies on SME and seasonal financing were also reviewed and updated in view of the changing market dynamics and the Bank’s enhanced focus on SME business.

Credit Monitoring function has been further specialized by the formation of separate Wings dedicated to the monitoring of overseas credit, domestic credit, and project financing. Headway has been made in 2017 to streamline the monitoring function through introduction of system-based reports. Initiatives were also taken by the overseas monitoring wing for establishment of an in-house database which has resulted in significant reduction in exceptions.

Compliance

In line with its commitment to the highest standards of AML-CFT and to strengthen its monitoring structure, the Compliance Group has successfully revamped its compliance structure and implemented SafeWatch (Name Filtering Solution) and FCCM, from among the top-ranking systems in the world. SafeWatch is a web-based solution to filter transactions, payments messages and customers against sanctions lists. It helps the Bank to screen cross-border SWIFT and home remittance transactions, new customers being on-boarded, and the existing portfolio of customers against sanction lists such as United Nations Security Council, Office of Foreign Assets Control and Specially Designated Nationals lists, etc. Presently, the SafeWatch application implemented in Pakistan covers Pakistan, Afghanistan and Bangladesh Operations.

Further, to improve the transactions monitoring and Customers Risk rating processes, Compliance Group installed and implemented a world-class Anti-Money Laundering (AML) monitoring system - Oracle Financial Crime and Compliance Management (FCCM). Its KYC module is an essential feature for NBP customer risk profiling rating. The FCCM system also features integration with the Currency Transaction Reporting Platform Go-AML. Compliance Group also achieved compliant status for the Foreign Account Tax Compliance Act and Common Reporting Standards. The Group has also helped the Bank's overseas branches and subsidiaries to comply with the FATCA & CRS regulatory framework.

As part of continued professional development, officers and executives from the AML team have been regularly participating in various in-house and external knowledge platforms. The AML team successfully carried out a bank-wide training sessions at 25 regional locations across the country to upgrade the knowledge base and skill set of the relevant employees of branches and regions in KYC, AML, Sanctions and FATCA.

Information Technology

In the wake of business transformation through Digitalization, Information Technology has been designated as the most critical success factor for the Bank's turn-around. NBP is fully geared up to leverage the use of technology towards achieving its business objectives. Some of the major projects undertaken and in the offing are aimed at transforming the Bank's structure such as Profile System up-gradation, infrastructure development projects, establishment of Disaster Recovery Site and Data-centres; resolution of bugs and procurement of dedicated systems (e.g. Cash Management Solution and Remittance System) on the basis of business needs conveyed by business/support groups. At the same time, the Bank's focus on catching up with the flux of digitalization of the banking sector has been adequately supported by in-house development capabilities of Information Technology as well as procurement of solutions available in the market.

On the front of Branchless Banking and ADCs, the launch of the Mobile App is a major milestone that the Bank has achieved for providing 24/7 financial services to its clientele. Prepaid Cards have been launched and arrangements are in progress for the launch of Debit Cards. Development and enhancement of the system for automation in P2G and G2P business. Major alliances with notable Government institutions such as FBR, Interior Ministry, Provincial Governments, etc. will facilitate the Bank to stay competitive in the market. The Bank's ATM Network has also been expanded. Moreover, Information Technology has been leveraged for strengthening of controls such as deployment of AML solutions and system enhancements at overseas locations.

Audit & Inspection

The Audit & Inspection Group provides independent, objective assurance and consulting services to add value and improve NBP's operations in line with its strategic plan. The Group conducts audit engagements in accordance with the regulatory requirements and international standards. On-job and theoretical trainings are regularly imparted to the audit staff for enhancing their skills and efficiency for performing effective audit role. In addition to this, A&IG is in process of procuring the automated audit tools for effectively auditing the Bank's operations. In order to cater our assurance & consultancy services across the Bank, we have three Audit & Inspection Offices (A&IOs) at Karachi, Lahore & Islamabad besides presence at the Head Office. A&IG conducts audits of branches and controlling offices as per the approved Audit Plans. In addition to this, Special Audits of various operations are conducted as per requirement of the management, Board Audit Committee and SBP. Audit reports are conveyed to the management for corrective action.

Operations

Operations Group in the year 2017 completed various tasks to bring efficiency in the operational environment. The introduction of printed account opening forms, improvement in government receipts/payments settlement process, development and implementation of Cash Processing Centres (CPCs) as per Phase-I of the Currency Management Strategy of SBP are the salient projects completed during 2017.

In addition to the above, the Group, in coordination with all stakeholders, also took initiatives to implement an auto reconciliation solution software, capable of handling transactions emanating from various platforms such as

conventional banking system, Islamic banking, ATM switch and SAP systems etc. The Group is also pursuing the centralized account opening process, which will help the Bank face regulatory as well as service-related challenges in an effective manner. The upgrade of the SWIFT system and capacity building of treasury back-office functions are also among key major initiatives taken by the Operations Group in the year 2017.

Logistics

The Logistics Support Group has played an important role in providing the business a conducive & customer-friendly environment by constructing / designing / renovating the Bank's branches and other work premises in line with standardization policy. LSG Engineering and IT Procurement have played a pivotal role in increasing the Bank's ATM network by procuring and installing 1,000+ ATMs in the year 2016-2017; development of centralised Trade Processing Centres and Cash Processing Centres across Pakistan; procurement of currency sorting & authentication machine; installation of biometric devices etc. To minimise the turnaround in providing robust support to other groups, LSG has created an online helpdesk portal for early resolution of requisitions related to logistic supplies.

LSG remained proactive to ensure proper security of the Bank's assets and its customers by introducing latest technology and gadgets across the network. LSG took the initiative for rationalization of security guards and to convert branches into guard-less ones during the night through Digital Security; up till now, almost 500 branches across the country are equipped with Digital Security equipment. Installation of solar energy systems for ATMs and basic branch operations was yet another important initiative of LSG. While 300 solar energy systems have already been installed to ensure uninterrupted services to the Bank's customers, installation of an additional 200 solar systems is also underway.

Human Resource Management

In the year 2017, the Human Resource Management Group has embarked upon various initiatives to increase efficiency of HR function as well as betterment of its employees. Recently, the organization restructuring at both the Head Office and field level was carried out to enhance institutional efficacy. HRMG also conducted a workload assessment exercise, which is targeted to facilitate the Bank in proper categorisation of branches based on work volumes and business performance. At the same time, this exercise will help the Bank in ensuring the principle of pay-for-performance through revision of Remuneration & Compensation Policy, rationalisation of staffing requirements, streamlining of Internal Placement function, etc. In order to maintain harmony in its Industrial Relations, the Management Executive Team (MET) has been constituted – having representations from the Management and CBA.

HRMG has been proactively working to improve cultural coherence among its internal stakeholders so that they associate themselves with the Bank's core values. For the purpose, town-hall meetings were organized in almost every Region, which were attended by the President as well as senior management. HRMG promoted engagement of staff at various layers during formulation of the Strategic Plan to get their buy-in on future plans and their eagerness towards achieving the same. During the year, HRMG accomplished the task of promotions of staff. A large number of eligible employees were promoted to the next eligible grade as per the Bank's policy. To enrich our human capital pool, HRMG has also completed hiring of trainee officers. HRMG also achieved to implement biometric attendance system to ensure discipline and to inculcate a sense of responsibility among the Bank's employees.

Assets Recovery

In recent years, Assets Recovery Group (ARG) has recorded significant overall reduction in NPLs through cash recoveries and declassification. During the year, the Group made structural adjustments and also segregated its portfolio for more focused recoveries. NPL cases have been prioritized in terms of recovery prospects. Additionally, performance evaluation of legal counsels is being continuously monitored to enable speedy recoveries.

Learning & Management Development Division

LMDD is managing development of the human capital of the Bank. During the year, the number of employees trained increased by 25% as 20,866 employees were trained through 1,247 training programmes as against 16,742 trained in 2016. Training Need Analysis was conducted during 2017 for the year 2018-2019 to set the focus and priorities of training function for the coming two years. Training has been linked with TNA and is being strictly implemented to ensure that only need-based training is imparted to staff. Training has been linked with core competencies and during the coming years, all trainings will be conducted to develop required competencies of the staff of each functional group. Specialized training programmes were conducted on creating service culture in the branches; 3,922 employees from branches were trained through 187 training programmes. Special training sessions were particularly arranged for low-performing employees, wherein 223 employees were trained. Bank-wide training of CBA Profile has also been launched under the supervision of the Senior Management Committee.

Legal

During the year, the Legal Division has taken various initiatives, improving the overall management of legal affairs of the Bank. The Legal Division has been augmenting the Bank's pursuit of the recoveries in the Litigated NPL and other cases by inducting a specialist litigation team across Pakistan. This team has been ensuring the close monitoring of case proceedings in courts for their expedited disposals. Moreover, realizing the quantum of cases, the Legal Division has adopted emerging legal management concepts like Legal Analytics and the procurement of a state-of-the-art Legal Management System (LSM) to essentially build the capability of auto surveillance of cases. The LSM shall also provide electronic interface to all concerned departments for efficient and accountable management of all litigated portfolio of the Bank.

Keeping in view the sensitivity and realizing the importance of Legal Advisory services, the Legal Division has developed in-house capabilities to provide quality, clear and comprehensive advisory services across the Bank (locally and internationally) and has significantly curtailed the outsourcing of legal work. The opinions provided pertains to a diverse range of areas, which are then being stored in an electronic repository for future references and reusability purposes that reduces redundant efforts on the similar nature of work.

CORPORATE SOCIAL RESPONSIBILITY

Corporate Social Responsibility (CSR) is an integral part of NBP's corporate policy. As a leading financial institution in the country, NBP has taken various initiatives that demonstrate its resolve towards the community at large. The Bank is running a full-fledged CSR Programme to bring positive changes in society by improving the life quality of the underprivileged masses in the Country. In addition to its demarcated and pre-defined areas of Education, Health, Special Persons, Women & Children, the Bank is always there for the relief of affected people in case of any natural disaster or calamity that the country faces.

We believe that looking after underprivileged communities is synonymous to serving the nation. NBP has a well-funded Corporate Social Responsibility Programme focusing on Education, Healthcare, Infrastructure Development, Water Resource Development and enhancing Livelihood Generation skills. During the year, NBP spent around Rs. 58 million on CSR activities.

To ensure progress, quality of work and transparency in utilisation of funds under CSR schemes, NBP regularly monitors project activities. The Bank has initiated a wide range of projects, including provision of free primary healthcare, hospitals, mobile dispensaries, scholarships for local students, infrastructure development and upgradation of academic institutions.

EDUCATION

At NBP, we believe that education plays a vital role in economic development and poverty alleviation in society. WOMEN & CHILD WELFARE

We believe women empowerment in developing countries is essential for poverty reduction and literacy enhancement. In Pakistan, where women lack opportunities for growth and development, it is essential that special facilitation is made available for women to grow and prosper. Economic Inclusion of women can play an important role in the social and economic well-being of the society. Many women and infants in remote, small towns and villages face difficult economic conditions. NBP has actively supported such needs and provided opportunities to women for their social uplifting and respectable living. NBP has taken various initiatives like organising vocational trainings, women sports events and supplying equipment etc.

Women Vocational Programme

Vocational Training Sessions were organised in Abbottabad, Bhukkar, Sheikhpura, Gilgit Baltistan, Multan, Quetta and Skardu, where each Training Session was for two weeks, enrolling 25 women participants. We are grateful to each and every person who has supported our mission and values.

Risk Management

The very nature of our business transactions has associated to it, to varying extent, one or more type of risks. Our responsibility is to proactively identify & assess, measure & evaluate and respond to such risks through devising effective policies for the tolerance of each risk category, or combination of risks, at each level of business activity. Maintaining our risk profile at an acceptable and appropriate level is essential to ensure our sustainable performance.

Our mission of maximising stakeholders' value through sustainable growth is achieved through informed risk decision-making and superior risk & capital management supported by a consistent risk-focused culture across the bank. Based on our approach to the risk management, the Board has approved various policy documents that set the parameters to achieve effective risk management.

Our Approach towards Risk Management

The Bank applies the Basel framework as a cornerstone of the NBP's risk management framework and capital strategy. The Bank maintains a strong capital, funding and liquidity position in line with its on going commitment to maintain balance sheet strength. The strength of risk profile management of the Bank stands on the following pillars:

- Identification and assessment of significant material risks to which the Bank is, or, may be exposed to
- Overseeing and managing the risk profile of the Bank within the context of the risk appetite
- Ensure the business profile and plans of the bank are consistent with the risk appetite
- Optimise risk / return decisions by aligning them to the business objective of achieving sustainable optimum growth
- Manage the risk profile of the Bank to ensure that specific financial deliverables remain achievable under a range of emergent business conditions

Risk Appetite / Tolerance	We have developed and implemented risk appetite / tolerance limits / levels for credit, market & operational risk areas. These are regularly analysed and reported to the Board and senior management.
Responsibility and Reward	Individuals who take or manage risks clearly understand them in order to protect the Bank from avoidable risks. Individuals related to risk activity are responsible to ensure compliance with the risk management framework.
Goal Congruence	Risk-taking decisions are in line with the Bank's mission & goals as set by the Board. Risk avoidance does not impair our goal of increasing shareholders' value.
Risk-Return Trade-Off	Business decisions optimise, as far as possible, the risk-return trade-off.
Capital Adequacy	Sufficient capital is always available as a buffer to absorb risks.

Strategic goals, embedded into our approach toward risk management, are to maintain a robust framework, identify and escalate risks and support sustainable business growth through optimum risk-reward decisions. The aim of the risk management strategy is to enable the management to identify & assess the risks, respond through formulating effective mitigating tools and monitor the effectiveness of the response.

Identify & Assess: All business groups are responsible for risk recognition & assessment and development of controls in their respective areas of operation. As part of the risk assessment process, the groups ensure that not only the relevant risks are identified but their implications are considered and basis provided for managing and measuring (as far as possible) the risks.

Respond: The Risk Management Group ensures that effective controls are in place to mitigate each of the identified risks considering its impact and likelihood and such controls are reviewed on a regular basis to appropriately address any new risk or risk not managed well previously. The results of risk assessment are reviewed at various levels within the Bank including Executive Risk Management Committee (ERMC) with summary assessments shared with the Board Risk Committee.

Monitor: Once the principal risks have been identified and measured, and mitigating controls have been put in place, progress towards objectives is tracked continuously. At NBP, risk monitoring is a proactive and ongoing process which may prompt a re-evaluation of the risks and / or changes in mitigating responses. It includes ensuring the risks are maintained within the overall risk appetite, and checking that risk controls are functioning effectively without jeopardising value creation objective of the Bank.

Risk Governance Structure

The Board is responsible to ensure active oversight over implementation of policies and frameworks so as to prevent any significant financial loss or reductions in shareholders' value that may be suffered by the Bank. Therefore, it is the responsibility of the Board to ensure that policies and frameworks are in place to recognise all significant / material risks to which the Bank is / may be exposed and that the required human resource, culture, practices and systems are adequate to address such risks. The Board and its relevant committee, i.e. BRC and the senior management along with its relevant committees i.e. Credit Committee, ERMC, ALCO, etc. are responsible to ensure formulation and implementation of a comprehensive risk management framework through its committees.

Risk Management Group (RMG) operates as an independent Group, i.e. separate from approvals and direct involvement in day-to-day activities. RMG reports directly to the President with a dotted line reporting to the Board Risk Committee (BRC). The Group is responsible to perform the functions pertaining to development and oversight of the risk framework, methodologies and other functions assigned from time to time in line with local / international best practices and under the supervision of SBP's regulations / guidelines.

Board Risk Committee (BRC)	Board Audit & Compliance Committee (BACC)	Executive Risk Management Committee (ERMC)	Risk Management Group (RMG)
It comprises of the President and four non-executive directors with the Chairman being a non-executive director. BRC is essentially a Board level oversight committee to perform the risk management activities on behalf of the Board and is the highest risk related policy-making and supervising body for all types of risks faced by the Bank, notably credit, market, liquidity and operational risks. BRC monitors the Bank's risk profile against the agreed financial appetite.	The BACC receives regular reports on the effectiveness of internal control systems, quarterly reports on material control issues of significance, quarterly papers on accounting judgements.	ERMC is a senior management body mainly covering risks from an overall perspective of strategy, policy / framework development, assessment measurement tools, MIS framework and Basel framework implementation, whereas routine aspects in relation to such risks shall be managed by the RMG. ERMC has representation from various business and support groups.	Risk Management Group exists as an independent group, i.e. separate from approvals, reporting directly to the President with a dotted line reporting to the BRC. The group is responsible to perform the functions pertaining to development and oversight of the risk framework, methodology and other functions assigned from time to time for ensuring compliance with the local regulations.

Risk Management Framework Implementation

The bank implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective & independent oversight and assurance that the activities take place as intended under the risk management framework.

The First Line of Defence: Business groups, jointly with the Credit Management Group have a primary responsibility for identifying, measuring, monitoring and controlling the risks within their areas of accountability. They are required to implement effective procedures and controls to ensure compliance with the related policy requirements, to maintain appropriate risk management skills and to act within defined parameters as set and approved by the Board.

The Second Line of Defence: Board Risk Committees, Risk Management Group and the Compliance Group perform the integrated functions of oversight and independent challenge to the effectiveness of risk management actions taken by business groups.

The Third Line of Defence: Board Audit & Compliance Committee and Audit & Inspection Group provide an independent, objective assurance and consulting activity designed to add value and improve risk management functions of the Bank. A&IG helps the Bank accomplish its objectives by bringing a systematic and disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

Our approach to 'Risk-Opportunity Materiality'

For the Bank, risk is both a burden, and an opportunity. The most significant and critical risks that arise out of our transactions, and may materially impact on delivering against our strategic priorities in a sustainable manner broadly relate to Capital, Liquidity, Credit, Market and Operations. A risk and an earning opportunity is considered material if the same is expected to affect the financial position or financial performance of the Bank.

Risk Relevance & Mitigating Approach

With our mission to capitalise on every opportunity to maximise stakeholders' value, our responsibility is to proactively identify, measure and evaluate such principal risks, and to devise mitigating policies for each risk category without losing an earning opportunity. Principal risks that the bank faces, together with their mitigating factors, are outlined below. A detailed disclosure of risk mitigating strategy is given in Note 41 of the financial statements.

Risk	Mitigating Approach
Credit Risk	<ul style="list-style-type: none"> - The Bank has a clear policy to structure the levels of credit risk it undertakes by placing limits on exposures of counterparties. - The Bank also has an Internal Ratings System to provide the insight of borrowers' financial soundness & creditworthiness. - Concentration of exposure / risk in any of counterparty, group, or industry is assessed frequently. - Standardised Approach is used to calculate capital charge for credit risk as per Basel regulatory framework. - Stress testing for credit risk is carried out on a regular basis to estimate the possible impact of impaired portfolio on credit policies.
Capital Adequacy	<ul style="list-style-type: none"> - We keep our Capital Structure strong enough by maintaining capital adequacy ratios far above the minimum national requirements set by the central bank and as required under the Basel framework. - The Bank has devised proprietary stress testing scenarios to assess the impact on capital of the Bank for Internal Capital Adequacy and Assessment Process (ICAAP). - We carry out capital adequacy assessments on a quarterly basis to make sure that a strong capital structure is always maintained. Our capital adequacy is certified by our external auditors. - As of December 31, 2017, our Capital to RWA ratio was 15.95% against the minimum requirement of 11.28%.
Operating Risk	<ul style="list-style-type: none"> - A comprehensive Operational Risk Management framework has been developed as per Basel framework. - Operational Risk Tolerance limits in-line with Basel framework related Loss Event Categories. - ORM framework provides guidance for setting the operational risk strategy and tolerance limits of the Bank. - The Bank has rolled-out an Operational Loss Data Collection Mechanism whereby field functionaries are responsible to report operational losses under their jurisdictions on a certain frequency.

WHISTLE BLOW POLICY

Whistle-Blowing / Speak-Up Policy

Whistle-Blowing covers reporting of incidents of misconduct, involving or affecting an organisation to enable the organisation to take appropriate action. It is a window to obtain feedback on issues bordering on both corporate governance, as well as reputational risk related issues, escalated to the highest levels of the Bank.

Objective and Scope

This policy aims to set up the Bank's written, formal updated whistle blowing policy, covering local operations, global operations as well as all subsidiaries of NBP. This policy consists of responsible and effective procedures for disclosure and/or reporting of misconduct and impropriety observed by any employee, vendor or any stakeholder within the country or in our overseas operations. This policy will ensure implementation of famous saying that no one is above the law.

NBP defines whistle blowing as alerting the Bank authorities that an individual or group of individuals have committed or are going to commit offences that are considered to be unethical, improper and have broken the standard norms and prevailing practices of the Bank. By escalating these potential issues, the Bank will be made aware of these concerns and is alerted that its interests and the interests of stakeholders are being compromised, or at the risk of being harmed.

This policy will be interpreted in conjunction with the Bank's Code of Conduct and it is important that all employees (local, overseas as well as subsidiaries) and all stakeholders to become familiar with both the Global Whistle Blow/Speak-Up Policy and the Bank's Code of Conduct before proceeding with raising a complaint or a concern.

Implementation & Monitoring of Global Whistle Blow / Speak-up Policy

NBP's Board Audit & Compliance Committee (BACC) will review the overall implementation and monitoring of the policy and any recommendations for action resulting from investigations lies with NBP's Board Audit & Compliance Committee (BACC), whereas day-to-day responsibility for overseeing and implementing the policy has been delegated to the Group Chief Compliance Group.

Protection to a Whistle Blower

By setting up the necessary procedures safeguarding confidentiality and offering anonymity, the interests of the whistle blower are protected from possible harassment or victimisation by those accused of misconduct. Any person who makes a disclosure or raises a concern under this policy will be protected if the person:

- Discloses the information in good faith
- Believes it to be substantially true
- Does not act maliciously or make false allegations
- Does not seek any personal or financial gain

Reporting Procedure

The Whistle Blower while ensuring that incident comes within the scope of Whistle blowing / Speak-up and he / she has valid information that some misdoing / misconduct is being done by his / her colleague (including seniors, juniors) in any office of the Bank locally or in any overseas locations will report the same to Group Chief, Compliance Group, Head Office, Karachi using any of the below mentioned channel (s).

I.I. Chundrigarh Road, Karachi.
Telephone: (92-21) 99212190, Fax: (92-21) 99220192

To make the Policy successful, it will be the responsibility of all at the helm of affairs in the HO, Regions, Branches and overseas operations to ensure that all the direct reports are aware of this policy.

Statement of Internal Control

Reporting of Internal Control System

The Bank's Management has established and is managing an adequate and effective system of Internal Control which encompasses the policies, procedures, processes and tasks as approved by the Board of Directors that facilitate effective and efficient operations. The management and the employees at all levels within the Bank are required to perform as per these approved Internal Control System components. The Internal Control System ensures quality of external and internal reporting, maintenance of proper records and processes, compliance with applicable laws and regulations, and internal policies with respect to conduct of business.

The management ensures that an efficient and effective Internal Control System is in place by identifying control objectives, reviewing existing procedures and policies and ensuring that control procedures and policies are amended from time to time wherever required.

However, the Bank's Internal Control System has been designed to manage rather than eliminate the risk of failure to achieve objectives and can only provide to the bank's management and Board of Directors with reasonable but not absolute assurance against material misstatement or loss, since establishing and bringing improvement in controls are ongoing processes that include identification, evaluation and management of significant risk faced by the Bank.

SBP vide its BSD Circular No. 7 dated 27 May, 2004 has issued guidelines on the internal control for all Banks / DFIs (SBP Internal Control Guidelines) and in order to ensure consistency in the process of compliance with in the internal control guidelines, SBP vide BSD Circular No. 5 dated 24 February, 2009 has provided a roadmap (the SBP roadmap) identifying various activities / stages involved in the internal control program.

The Bank follows the SBP's instructions on Internal Control over Financial Reporting (ICFR) and is complying with the SBP's stage-wise implementation roadmap. As a part of this exercise, the Bank with the assistance of its Consultant has completed various stages of ICFR as set out in the SBP roadmap. Compliance Monitoring Wing has been set up for management testing of key ICFR related controls, thus moving towards completing the prescribed roadmap.

Evaluation of Internal Controls

The Bank has an independent Internal Audit & Inspection function in the name of Audit & Inspection Group with three Regional Audit & Inspection Offices that conduct audit of Branches, Regions, Subsidiaries, Staff Colleges and Groups at Head Office on an on going basis to evaluate the efficiency and effectiveness of the Internal Control System. In addition to that, an independent Compliance Monitoring Wing is being set up under Compliance Group to monitor Compliance with key regulations at branches as well as HO Functions along with monitoring of ICFR.

For the year 2017, the Bank has made its best efforts to ensure that an effective Internal Control System continues to perform in letter and spirit. The observations made by the external / internal auditors and regulators in their respective audits / inspections are promptly reviewed and measures are taken by the Board, Board Audit & Compliance Committee and Management for rectification of such observations to safeguard the Bank's interest.

Based upon the results achieved from reviews and audits conducted during the year, the Management considers that the Bank's existing Internal Control System is adequate and has been effectively implemented and monitored. However, being an ongoing process, as stated earlier, the Management would continuously be evaluating efficacy of its in-built controls to enhance and further strengthen the overall Internal Control System of the Bank.

Based on the above, the Board of Directors has duly endorsed the Management's evaluation of internal controls including ICFR in the attached Directors' Report.

REVIEW REPORT TO THE MEMBERS ON THE STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE

We have reviewed the enclosed Statement of Compliance (the Statement) with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of National Bank of Pakistan (the Bank) for the year ended 31 December 2017 to comply with the requirements of Listing Regulations of the Pakistan Stock Exchange, where the Bank is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Bank. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement reflects the status of the Bank's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Code.

As part of our audit of financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Code requires the Bank to place before the Board Audit & Compliance Committee, and upon recommendation of the Board Audit & Compliance Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the Board of Directors upon recommendation of the Board Audit & Compliance Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the best practices contained in the Code as applicable to the Bank for the year ended 31 December 2017.

SHARIAH BOARD'S REPORT ON NBP AITEMAAD - 2017

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

الحمد لله رب العالمين والصلاة والسلام على سيد الانبياء والمرسلين وعلى آله وصحبه اجمعين اما بعد

The Board of Directors of NBP have entrusted the Shariah Board with the task to assess the overall Shariah compliance level and environment within the NBP Islamic Banking.

The objective of the report is to present a view about the overall Shariah compliance level and environment within the NBP - Aitemaad.

In the Capacity of Shariah Board, we have reviewed the overall Shariah compliance level and environment within the NBP - Aitemaad as of December 31, 2017.

Shariah Board Opinion:

While the Board of Directors and Executive Management are solely responsible to ensure that the operations of NBP - Aitemaad are conducted in a manner that comply with Shariah principles at all times, we are required to submit a report on the overall Shariah compliance environment of NBP - Aitemaad.

To form our opinion as expressed in this report, the Shariah Compliance Department of the Bank carried out reviews, on test check basis, of each class of transactions, the relevant documentation and process flows. Further, we have also reviewed the reports of the internal Shariah audit. Based on the above, we are of the view that:

1. **Compliance with Shariah Rules and Principles in the light of Fatawa and Guidelines issued by Shariah Board and SBP**
The Shariah Board is of the opinion that the overall environment, products, agreements and transactions comply with the Shariah principles.
2. **Shariah Compliance Mechanism**
Alhamdulillah, NBP - Aitemaad has a comprehensive Shariah Compliance Manual developed by the Shariah Compliance Department and duly approved by the BOD. The Shariah Compliance Manual is designed to ensure Shariah compliance at all levels and situations. It helps to analyse and identify weak areas and suggest relevant controls. It also helps to assess the staff training needs.
3. **Mechanism ensuring prohibited Income to Charity Account**
NBP - Aitemaad has a well-defined Charity policy approved by NBP Shariah Board and the Board of Directors. Our Shariah Compliance Team conducted review of executed transactions to ensure their compliance in line with the Shariah Board's approved processes and guidelines. In addition, all other income generating sources including investments and treasury transactions are screened by the Shariah Compliance Department.

During the year; Alhamdulillah no income was generated from sources prohibited by Shariah rules and principles.
4. **Profit and Loss Distribution and Pool management**
Alhamdulillah, a dedicated wing for pool management is established in this year and a complete SOP for profit and loss distribution is issued. Due to this, not only transparency in the distribution of profit and loss is achieved, but also it helped enough in the distribution of profit and loss. Further, the Shariah Compliance Department has been reviewing Pool Management & Profit Distribution during the year 2017 in line with new instructions issued by SBP in March 2017. Moreover, internal Shariah audit of pool management has been conducted on quarterly basis, which improved the process of pool management and profit and loss distribution and strengthened the compliance of Shariah guidelines.
5. **Staff understanding of Islamic Banking and Finance**
Alhamdulillah, prior conversion and at the time new staff induction and for refresher, NBP-Aitemaad imparts with collaboration of Shariah Compliance Department 5 days basic Islamic Banking & Finance training sessions along with 2 days refresher courses to abreast them with Islamic Banking basic concepts, Alhamdulillah, 322 staff have been trained in 16 sessions in 2017. NBP had also availed the services of NIBAF to conduct this basic five-day training programme. Moreover, the Shariah Compliance Team and the Shariah Board encourages all staff of Islamic Banking Group to float their queries via Ask-Shariah portal. This provides a platform for on-the-job training for them and supports day-to-day processes and customer management.
6. **Provision of adequate resources to Shariah Compliance Department**
The Board of Directors has approved to hire adequate resource in two phases to Shariah Board; the first phase hiring on various positions has been executed. However, Executive Management is working to finalise the second phase hiring for Shariah Compliance Department. We expect that the formalities will be completed soon, that shall enable to discharge the duties effectively. As the SCD is an organ of Shariah Board that ensures the implementation of the directives issued by SB in its letter and spirit, it is vital that Shariah Board approves all hiring and posting of SCD staff.

Other Developments:

1. Approval of Branch Conversions

Alhamdulillah, NBP - Aitemaad has not only converted 22 branches during the year 2017, but also opened 29 new branches, which led the NBP - Aitemaad branch network to 169 branches. The Shariah Board has reviewed the conversion process and found the same in adherence with the approved process and guidelines. This is a milestone of NBP - Aitemaad as this has been the largest conversion and opening program in Islamic Banking industry.

2. Shariah Compliance Review of Islamic Banking Branches and Departments

The Shariah Compliance teams have conducted Shariah review of one hundred and twenty two (122) Aitemaad Branches, Pool Management, Treasury, Finance, Marketing and Advances in 2017 as required in SBP's Shariah Governance Framework. The Shariah Compliance teams during their visits provided guidance to staff to ensure implementation of Shariah guidelines.

3. Product Development

Alhamdulillah, in the current year five (5) asset-side products are being provided to the customers after completion of all pre-requisites and approval of SBP and BOD of National Bank of Pakistan. These products are namely (i) Aitemaad Salam, (ii) Aitemaad Istisna, (iii) Aitemaad Tijarah, (iv) PMYBF and (v) Aitemaad Hamsafar (Consumer-Car finance). In total, NBP - Aitemaad has nine (9) asset-side approved products out of which eight (8) products are live, while one product is going to be launched shortly. The same will be rolled out after completing due formalities. On the liability side, NBP - Aitemaad has seventeen (17) approved products. However, only seven (7) of these products are live as at closing dates.

4. Internal Shariah Audit

Alhamdulillah, NBP has established its Internal Shariah Audit Wing (ISAW) as instructed in the Shariah Governance Framework. This was informed by the group that dedicated staff has been posted for conducting Shariah audit.

5. Asset Review

NBP - Aitemaad's overall assets have increased by 23% to PKR 43.957 billion as compared to PKR 35.814 billion of previous fiscal year. This is mainly contributed by increase in Islamic Financing by 464% to PKR 19.138 billion, boosting AIBG Finance to Deposit Ratio to 52% from just 10% last year. Investments now stood with an increase of 13.3% at PKR 17.85 billion as compared to PKR 15.76 billion last year and contributed 40.6% in the Total Assets as compared to 44% in the Total Assets last year along with 48.4% IDR.

Main incremental factor for increase in Aitemaad-Financing by 464% is Wakala-tul-Istismar of PKR 8.50 billion, followed by increase in Advance against Islamic Finance from PKR 3.95 billion to PKR 3.97 billion, and with a 90% increase in Diminishing Musharakah (financing) by PKR 5.137 billion respectively.

6. Liability Review

Aitemaad total deposits have increased by 12% to PKR 36.908 billion as on December 31, 2017 as compared to PKR 33.088 billion last year. The growth in CASA measured as 28% from PKR 23.656 billion in 2016 to PKR 30.315 billion as of December 31, 2017. The Term Deposits, however, faced a decline of 30% by PKR 2.84 billion comparing to the previous year's balance of PKR 9.432 billion.

7. Summary of Shariah Board Meetings Conducted During 2017

The Aitemaad Shariah Board had held six meetings during the year 2017 wherein several agendas were discussed and resolved that are summarised as follows:

The Shariah Board had reviewed and approved the following products and policies during 2017:

- a. Review and approval of PMYBL scheme with Islamic option
- b. Musawamah Financing Policy
- c. HR & Staff Financing Policy
- d. Aitemaad Foree Remittance Product
- e. Revised Charity Policy
- f. PMEX Commodity Murabahah
- g. Aitemaad Account Opening Form
- h. NOSTRO SLA
- i. Business Process Flows and Legal Documents
- j. Syndicate Financing Transactions
- k. SOP for Pool Management
- l. SCR Annual Plan-2018, Sampling Criteria for SCR of Branches and SCR Rating Mechanism
- m. Appraisal of Shariah Compliance Department

Recommendations

We recommend the Bank on the following matters:

- i. To improve and strengthen the Pool Management Wing by providing more human resources and to automate the Pool Management and profit and loss distribution mechanism, according to the instructions of SBP, on priority basis.
- ii. Implement the changes in the HR policy as advised by the Shariah Board including employment-related benefits and facilities for the staff.
- iii. To expedite the roll-out of already approved products and services.
- iv. To incorporate the instances of Shariah non-compliance in performance appraisal system of the staff as required by Shariah Governance Framework.
- v. To resolve all outstanding matters as discussed during the NBP - Aitemaad Islamic Banking Committee meeting.

4- انٹرنل شریعہ آڈٹ

الحمد للہ! این بی پی نے شریعہ گورننس فریم ورک کی ہدایات کے مطابق باقاعدہ انٹرنل شریعہ آڈٹ ونگ قائم کر لیا ہے۔ متعلقہ گروپ کی جانب سے دی گئی اطلاع کے مطابق شریعہ آڈٹ کے لئے مناسب عملے کی تقرری کر دی گئی ہے، جو صرف شریعہ آڈٹ کے لئے مخصوص ہے۔

5- فنانشنگ اور سرمایہ کاری کا جائزہ

این بی پی اعتماد کے مجموعی سرمایہ کاری اور فنانشنگ اثاثے، 2017 کے اختتام پر گذشتہ سال کے مقابلے میں 23 فیصد کی شرح سے اضافے کے بعد 43.957 بلین روپے تک پہنچ چکے ہیں، جو کہ گذشتہ سال 35.814 بلین روپے تھے۔ اس کی بنیادی وجہ اعتماد کی فنانشنگ کی شرح میں 464 فیصد کے اضافے کے ساتھ اس کا 19.138 بلین روپے ہونا ہے۔ اسی وجہ سے این بی پی اعتماد کا فنانشنگ سے ڈپازٹ کا تناسب بہتر ہو کر 52 فیصد تک پہنچ گیا ہے، جو کہ گذشتہ سال میں صرف 10 فیصد تھا۔ اعتماد کی سرمایہ کاری گذشتہ سال کے 15.758 بلین کے مقابلے میں 13.3 فیصد کے اضافے کے ساتھ 17.854 بلین روپے رہی، جبکہ اس کا ڈپازٹ سے تناسب 48.4 فیصد ہے۔ سرمایہ کاری کا مجموعی اثاثوں سے تناسب 40.6 فیصد ہے، جبکہ گذشتہ سال یہ تناسب 44 فیصد تھا۔ اعتماد فنانشنگ کے 464 شرح فیصد سے بڑھنے میں 8.50 بلین روپے مالیت کی وکالتہ الاستثمار کا بنیادی کردار ہے، نیز 3.95 بلین روپے سے بڑھ کر 3.972 بلین روپے کی مالیت تک پہنچنے والی اسلامک ایڈوانس فنانشنگ اور 90 فیصد کی شرح سے بڑھ کر 5.137 بلین روپے کی مالیت تک پہنچنے والی شرکت متناقصہ کی فنانشنگ بھی شامل ہیں۔

6- کھاتہ جات (ڈپازٹس) کا جائزہ

این بی پی اعتماد کا ڈپازٹ 31 دسمبر، 2017 تک 36.908 بلین روپے رہا جو پچھلے سال کے 33.088 بلین روپوں میں 12 فیصد کی شرح سے اضافہ ہے۔ بچت اور جاری کھاتہ جات (سیونگ ایونڈ کرنٹ ڈپازٹس) پچھلے سال کے 23.656 بلین روپے کے مقابلے میں 28 فیصد کی شرح سے بڑھ کر 30.315 بلین روپے رہے۔ میعاد کی کھاتہ جات (ٹرم ڈپازٹس) میں پچھلے سال کے مقابلے میں 30 فیصد تک کمی آئی، جو کہ پچھلے سال کے 9.432 بلین روپے سے 2.84 بلین روپے کم ہے۔

7- 2017 کے دوران شرعی بورڈ کے اجلاسوں کا خلاصہ

اعتماد شریعہ بورڈ نے سال 2017 کے دوران چھ اجلاسوں کا انعقاد کیا تھا جن میں کئی ایجنڈوں پر تبادلہ خیال کیا گیا ذیل میں خلاصہ کیا گیا ہے:

شرعی بورڈ نے 2017 کے دوران مندرجہ ذیل مصنوعات اور پالیسیوں کا جائزہ لیا اور منظور کیا تھا۔

- i. اسلامی آپشن کے ساتھ PMYBL سکیم کا جائزہ اور منظوری
- ii. مساومہ فنانشنگ پالیسی
- iii. HR اور اسٹاف فنانشنگ پالیسی
- iv. اعتماد فاری ریمینٹس کی پالیسی
- v. نظر ثانی شدہ چیریٹی پالیسی
- vi. PMEX کموڈوٹی مراعات
- vii. اعتماد اکاؤنٹ کھولنے کا فارم
- viii. NOSTRO سروس لیول ایگریمنٹ
- ix. مین کاروباری پروسس فلوز اور قانونی دستاویزات
- x. سٹڈیکٹ فنانشنگ
- xi. پول مینجمنٹ کے لئے SOP
- xii. شریعہ کمپلائنس کا سالانہ پلان برائے 2018، اعتماد برانچوں کی شریعہ کمپلائنس کی سیمپلنگ کا معیار، اعتماد برانچوں کی درجہ بندی کا طریقہ کار
- xiii. شریعہ کمپلائنس ڈپارٹمنٹ کی سالانہ کارکردگی کا جائزہ (Appraisal)

4- نفع اور نقصان کی تقسیم اور پول مینجمنٹ

الحمد للہ! اس سال پول مینجمنٹ کا باقاعدہ ونگ تشکیل دیا گیا اور اس کے ساتھ ساتھ نفع و نقصان کی تقسیم کے لئے ایک مکمل ایس او پی (SOP) کا اجراء کیا گیا جس سے نہ صرف نفع و نقصان کی تقسیم میں مزید شفافیت حاصل ہوئی بلکہ نفع اور نقصان کی تقسیم کار میں انتہائی مفید و معاون ثابت ہوا، نیز اسٹیٹ بینک کی طرف سے نئی ریگولیٹری احکامات جاری کردہ مارچ 2017 کے مطابق شریعہ کپلائنس ڈپارٹمنٹ سال 2017 کے دوران ماہانہ بنیاد پر پول مینجمنٹ کا نفع و نقصان کی تقسیم سے پہلے جائزہ لیتا رہا ہے اور اسی طرح تقسیم کے بعد سہ ماہی بنیاد پر پول مینجمنٹ کا انٹرنل شریعہ آڈٹ بھی ہوا ہے، جس سے پول مینجمنٹ اور نفع و نقصان کی تقسیم کے عمل میں کافی بہتری آئی ہے اور شریعہ کپلائنس کا نظام مزید مضبوط ہو گیا ہے۔

5- عملے کی تربیت برائے اسلامی بینکاری اور سرمایہ کاری

الحمد للہ! این بی پی نے اپنی بنیاد پر روزہ تربیتی پروگرام برائے اسلامی بینکاری و سرمایہ کاری ترتیب دیئے، جن میں ہر نئے اور موجودہ عملے کو شرکت کرنا ضروری ہے، تاکہ ان کو اسلامی بینکاری اور سرمایہ کاری کے بنیادی تصورات سے آگاہی فراہم کی جاسکے۔ الحمد للہ! اس سال عملے کے لئے اس نوعیت کے 16 پروگرام منعقد کئے گئے جن کے ذریعے عملے کے 322 افراد کو تربیت فراہم کی گئی۔ این بی پی نے اپنی بنیاد پر روزہ اور شریعہ کپلائنس ڈپارٹمنٹ بطور تربیت کار ان پانچ روزہ تربیتی پروگراموں کا حصہ رہے۔ شریعہ بورڈ اور شریعہ کپلائنس ڈپارٹمنٹ دوران تربیت بینک کے تمام عملے کی اس بارے میں حوصلہ افزائی کرتے رہے کہ وہ شریعہ کے حوالے سے کسی بھی سوال والیجھن کو Ask Shariah portal کے ذریعے پوچھ کر حل کریں۔ اس طریقہ کار سے بینک کے عملے کو ایک پلیٹ فارم مہیا کیا گیا ہے جس کے ذریعے نہ صرف ان کی تربیت ہوتی ہے، بلکہ ان کے روزمرہ کے کاموں اور صارفین کے انتظام (کسٹمر مینجمنٹ) میں بھی معاونت حاصل ہوتی ہے۔

6- شریعہ بورڈ کو مناسب افرادی وسائل مہیا کرنا

بورڈ آف ڈائریکٹرز نے اس بات کی منظوری دی ہے کہ شریعہ بورڈ کی معاونت کے لئے دو مرحلوں میں مناسب افرادی وسائل مہیا کیے جائیں۔ پہلے مرحلے میں مختلف عہدوں کے لئے تقرری ہو چکی ہے، تاہم اعلیٰ انتظامیہ دوسرے مرحلے میں شریعہ کپلائنس ڈپارٹمنٹ کے لئے افراد کی تقرری کے لئے کوشاں ہے۔ ہم امید کرتے ہیں کہ اس بارے میں تمام امور جلد از جلد مکمل ہو جائیں گے تاکہ ذمہ داریاں بہتر انداز میں ادا کی جاسکیں۔ چونکہ شریعہ کپلائنس ڈپارٹمنٹ شریعہ بورڈ کا ایک ذیلی شعبہ ہے جو شریعہ بورڈ کی طرف سے جاری کردہ ہدایات کے نفاذ کو یقینی بناتا ہے، لہذا اس کے جملہ افراد کی تقرری اور تبادلہ باقاعدہ شریعہ بورڈ کی منظوری سے ہونا چاہیے۔

دیگر تعمیری سرگرمیاں

1- این بی پی کی مروجہ (کنونشنل) بینکاری برانچوں کی اسلامی برانچوں میں تبدیلی

الحمد للہ! این بی پی نے اپنی بنیاد پر اس سال نہ صرف 22 مروجہ (کنونشنل) برانچوں کو اسلامی بینکاری برانچوں میں تبدیل کیا ہے، بلکہ 29 نئی برانچوں کا بھی افتتاح کیا ہے جس سے این بی پی نے اپنی بنیاد پر بینانے پر کنونشنل برانچوں کی اسلامی بینکاری برانچوں میں تبدیلی اور نئی برانچوں کا افتتاح این بی پی نے اپنی بنیاد پر اس سال 169 تک پہنچائی۔ شریعہ بورڈ نے تبدیلی کے طریقہ کار کا جائزہ لیا اور اس کو منظور شدہ طریقہ کار اور ہدایات کے مطابق پایا۔ اسلامک بینکنگ انڈسٹری میں اتنے بڑے پیمانے پر کنونشنل برانچوں کی اسلامی بینکاری برانچوں میں تبدیلی اور نئی برانچوں کا افتتاح این بی پی نے اپنی بنیاد پر اس سال 169 تک پہنچائی۔

2- اسلامی بینکاری برانچوں اور شعبہ جات کا شرعی جائزہ

اسٹیٹ بینک آف پاکستان کے شریعہ گورننس فریم ورک کے مطابق شریعہ کپلائنس کے عملے نے سال 2017ء میں پورے ملک میں 122 برانچوں اور دیگر شعبہ جات مثلاً پول مینجمنٹ، ٹریڈری، فنانس، تشہیر کاری اور سرمایہ کاری وغیرہ کا شرعی جائزہ لیا۔ شریعہ کپلائنس کے عملے نے اپنے جائزے کے دوران متعلقہ عملے کی رہنمائی کی تاکہ وہ شرعی احکامات پر عمل درآمد کو یقینی بنا سکیں۔

3- مصنوعات سازی (پراڈکٹ ڈیولپمنٹ)

الحمد للہ! اس سال پانچ (5) سرمایہ کاری (Asset side) کی مصنوعات (پراڈکٹس) اپنی جملہ شرائط کے ساتھ اسٹیٹ بینک آف پاکستان اور کنونشنل بینک آف پاکستان کے بورڈ سے منظور ہو کر باقاعدہ صارفین کو مہیا کی جارہی ہیں۔ ان مصنوعات کے نام اعتماد سلم، اعتماد استمنع، اعتماد تجارت، پی ایم ڈاکی لی ایف اور اعتماد مسافر (Consumer Car finance) ہیں۔ این بی پی نے اپنی بنیاد پر کل نو (9) سرمایہ کاری مصنوعات منظور شدہ ہیں جن میں سے آٹھ (8) صارفین کو مہیا کی جارہی ہیں، نیز ایک (1) مزید سرمایہ کاری پراڈکٹ عنقریب صارفین کو مہیا کی جائے گی۔ این بی پی اپنی بنیاد پر سترہ (17) کھاتہ جات (Liability side) کی مصنوعات منظور شدہ ہیں، تاہم فی الحال ان میں سے صرف سات (7) صارفین کو مہیا کی جارہی ہیں۔

این بی پی اعتماد شریعہ بورڈ رپورٹ-2017

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

الحمد لله رب العالمين والصلاة والسلام على سيد الانبياء والمرسلين وعلى اله وصحبه اجمعينا ما بعد

این بی پی کے بورڈ آف ڈائریکٹرز کی طرف سے شریعہ بورڈ پر اعتماد اور بھروسہ کرتے ہوئے انہیں یہ ذمہ داری سونپی گئی کہ وہ این بی پی اسلامی بینکاری کے ماحول اور شرعی احکام کی تعمیل (شریعی کپلائنس) کے سلسلے میں نگرانی کریں۔

اس رپورٹ کا مقصد یہ ہے کہ این بی پی اعتماد میں شرعی احکام کی تعمیل کے لحاظ سے عمومی صورتحال کے بارے میں شریعہ بورڈ کا نقطہ نظر پیش کیا جائے۔ ہم بحیثیت شریعہ بورڈ 31 دسمبر 2017ء تک بینک میں شرعی احکام کی تعمیل کے لحاظ سے عمومی صورتحال کا جائزہ لے چکے ہیں، جس کا خلاصہ پیش خدمت ہے۔

شریعی بورڈ کی رائے

بورڈ آف ڈائریکٹرز اور اعلیٰ انتظامیہ کی حتمی ذمہ داری ہے کہ وہ اس بات کو یقینی بنائیں کہ این بی پی اعتماد کے جملہ امور مکمل طور پر شرعی اصولوں کے مطابق انجام پا رہے ہیں، جبکہ ہمارے (شریعی بورڈ) ذمہ این بی پی اعتماد کی شرعی احکام کی تعمیل (کپلائنس) کے حوالے سے صورتحال کا ایک مکمل تجزیہ (رپورٹ) پیش کرنا ہے۔

رپورٹ میں ذکر کردہ رائے قائم کرنے کے لئے بینک کے شریعہ کپلائنس ڈپارٹمنٹ نے ہر قسم کے معاہدات، اس سے متعلق دستاویزات اور طریقہ کار میں سے چند بطور نمونے کے منتخب کئے اور ان کا تفصیلی جائزہ لیا ہے۔ مزید یہ کہ ہم نے انٹرفل شریعہ آڈٹ کی رپورٹس کا بھی جائزہ لیا ہے، جس کی بنیاد پر ہماری رائے یہ ہے:

1- شریعہ بورڈ اور اسٹیٹ بینک کی جانب سے جاری کردہ ہدایات اور فتاویٰ پر بینک کی تعمیل (کپلائنس)

شریعی بورڈ کی رائے کے مطابق مجموعی صورت حال، مصنوعات، معاہدات اور معاملات شرعی اصولوں کے مطابق ہیں۔

2- شریعہ کی تعمیل (کپلائنس) کا طریقہ کار

الحمد للہ! این بی پی اعتماد کے پاس شریعہ کی تعمیل (کپلائنس) کروانے کا ایک مکمل دستور العمل (مینول) موجود ہے جو شریعہ کپلائنس ڈپارٹمنٹ کی جانب سے مرتب کیا گیا ہے اور باقاعدہ بورڈ آف ڈائریکٹرز سے منظور شدہ ہے۔ شریعہ کپلائنس مینول اس طور پر مرتب کیا گیا ہے کہ اس کے ذریعے ہر درجہ اور ہر حالت میں شریعہ کپلائنس کو یقینی بنایا جاسکے۔ اس کے ذریعے کمزوریوں کی نشاندہی کرنے اور ان پر قابو پانے، نیز عملے کی تربیت کی ضروریات پورا کرنے کے حوالے سے بھی ہمیں مدد ملتی ہے۔

3- ایسا طریقہ کار کہ جس سے ممنوع آمدن، چیرینی (مدق) اکاؤنٹ میں منتقل کی جائے

این بی پی اعتماد نے ایک واضح اور جامع چیرینی پالیسی تشکیل دی ہے جو شریعہ بورڈ اور بورڈ آف ڈائریکٹرز سے منظور شدہ ہے۔ شریعہ کپلائنس کے عملے نے معاملات کا جائزہ لیا ہے تاکہ اس بات کو یقینی بنایا جائے کہ یہ معاملات شریعہ بورڈ سے منظور شدہ طریقہ کار اور ہدایات کے مطابق انجام دیے گئے ہیں۔ مزید برآں شریعہ کپلائنس ڈپارٹمنٹ کی جانب سے آمدنی کے تمام دوسرے ذرائع بشمول سرمایہ کاری اور ٹریڈری کے معاملات کا جائزہ بھی لیا جا چکا ہے۔

الحمد للہ! دوران سال شرعی اصول و ضوابط کے خلاف کسی قسم کی کوئی ممنوع آمدن وصول نہیں کی گئی۔

Item No.4

TO APPROVE KPIS / CRITERIA FOR PERFORMANCE BONUS OF THE PRESIDENT, NBP

- A. Mr. Saeed Ahmad has taken over the charge as President / CEO of NBP vide Ministry of Finance Notification No. F.1(9)Bkg-III/2017-537 dated March 22, 2017 and the ending date of his term has been defined as January 01, 2019 vide Ministry of Finance Corrigendum No. F.1(9)Bkg-III/2017-561 dated March 27, 2017. Accordingly, his compensation package was recommended by the Board of Directors (BoD) and subsequently approved by shareholders in Extraordinary General Meeting held on May 15, 2017 in terms of Section 11(3) (a) of the Banks (Nationalization) Act, 1974.
- B. In the aforesaid compensation package it was approved that "the performance bonus to the President, based on Key Performance Indicators in comparison with the peer commercial banks, shall be recommended by the Board to the shareholders for approval". Key Performance Indicators of NBP against peer commercial banks for the financial year 2017 are as mentioned herein vide Table-1:

C. It is therefore proposed that the annual performance bonus of the President, may be computed by using the Key Performance Indicators (KPIs) and formulae subject to the entitlement conditions prescribed as follows:

S. No.	Item	Total Points	NBP	HBL	UBL	MCB	ABL	Average	NBP as % of Avg. Peer Banks' Perf.	NBP Multiples
		A	B	C	D	E	F	$G=(C+D+E+F)/4$	$H=B/G$	$J = A \times H$
1	After-tax Return on Assets	10								
2	Growth in CASA Deposits	10								
3	Regulatory Penalties as % of Avg. Assets	10								
4	%age change in Loan Infection Ratio	10								
5	Change in Operating Cost-to-Income Ratio	10								
	Total	50								

The entitlement to the performance bonus shall be subject to the following conditions:

- Minimum points achieved under column J of Table-1 must not be less than 30 points.
- The points shall be computed based on the annual audited financials of NBP and its peer banks excluding impact of any one-off item(s).

The amount of annual performance bonus shall be computed as under:

Amount of performance bonus = [No. of days of service during the year /365] X [(points achieved as per column "J" / 50) X (Rs. 30 million)]

The disbursement of annual performance bonus shall be subject to approval of the computation of points and amount of bonus by the Board of Directors.

D. The Board recommended the following resolution to the shareholders for approval:

"RESOLVED THAT proposal contained in Para-C above, as recommended by Board HR & R Committee and the Board of Directors to the shareholders in terms of Section 11(3) (a) of the Banks (Nationalization) Act, 1974, be and is hereby approved."

(The President/CEO of NBP is interested party in Item No. 4 to the extent of criteria for determining the performance bonus for the President/CEO of the Bank.)

AUDITORS' REPORT TO THE MEMBERS

We have audited the annexed unconsolidated statement of financial position of National Bank of Pakistan ("the Bank") as at December 31, 2017 and the related unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement and unconsolidated statement of changes in equity, together with the notes forming part thereof (here-in-after referred to as the 'financial statements') for the year then ended, in which are incorporated the unaudited certified returns from the branches except for 80 branches which have been audited by us and 8 branches audited by auditors abroad and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Bank's Board of Directors to establish and maintain a system of internal control, and prepare and present the financial statements in conformity with approved accounting standards and the requirements of the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and after due verification, which in case of loans and advances covered more than 60% of the total loans and advances of the Bank, we report that:

- (a) in our opinion proper books of account have been kept by the Bank as required by the Companies Ordinance, 1984 (XLVII of 1984), and the returns referred to above received from the branches have been found adequate for the purposes of our audit;
- (b) in our opinion:
 - (i) the unconsolidated statement of financial position and unconsolidated profit and loss account together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), and are in agreement with the books of account and are further in accordance with accounting policies consistently applied
 - (ii) the expenditure incurred during the year was for the purpose of the Bank's business; and
 - (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank;

- (c) in our opinion and to the best of our information and according to the explanations given to us the unconsolidated statement of financial position, unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated cash flow statement and unconsolidated statement of changes in equity, together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan and give the information required by the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), in the manner so required and give a true and fair view of the state of the Bank's affairs as at December 31, 2017 and its true balance of the profit, its comprehensive income, its cash flows and changes in equity for the year then ended; and
- (d) in our opinion zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under Section 7 of that Ordinance.

Emphasis of Matter

We draw attention to note 21.4.4.1 to the financial statements which explains the contingency in relation to the pension obligations of the Bank. Based on the opinion of the legal counsel, the Bank is confident about the favourable outcome of this matter and hence, no provision against any additional pension obligation is made in the financial statements. Our opinion is not qualified in this respect

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

1. STATUS AND NATURE OF BUSINESS

National Bank of Pakistan (the Bank) was incorporated in Pakistan under the National Bank of Pakistan Ordinance, 1949 and is listed on all the stock exchanges in Pakistan. It's registered and head office is situated at I.I. Chundrigar Road, Karachi. The Bank is engaged in providing commercial banking and related services in Pakistan and overseas. The Bank also handles treasury transactions for the Government of Pakistan (GoP) as an agent to the State Bank of Pakistan (SBP). The Bank operates 1,498 (2016: 1,448) branches in Pakistan and 21 (2016: 21) overseas branches (including the Export Processing Zone branch, Karachi). The Bank also provides services as trustee to Long-Term Credit Fund (LTCF) and Endowment Fund for student loans scheme.

2. BASIS OF PRESENTATION

2.1 In accordance with the directives of the Federal Government of Pakistan regarding shifting of banking system to Islamic modes, the SBP has issued various circulars from time to time. Permissible form of trade related mode of financing includes purchase of goods by the Bank from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

Key financial figures of the Islamic banking branches of the Bank have been disclosed in note 42 of these financial statements.

2.2 These are separate financial statements of the Bank in which the investments in subsidiaries, associates and joint ventures are stated at cost and have not been accounted for on the basis of reported results and net assets of the investees which is done in the consolidated financial statements.

2.3 The US Dollar amounts shown on the statement of financial position, profit and loss account, statement of comprehensive income and cash flow statement are stated as additional information solely for the convenience of readers. For the purpose of conversion to US Dollars, the rate of Rs. 110.4172 to 1 US Dollar has been used for 2016 and 2017 as it was the prevalent rate as on December 31, 2017.

3. STATEMENT OF COMPLIANCE

3.1 These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board and Islamic Financial Accounting Standards (IFASs) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Ordinance, 1984 (repealed - note 3.1.1), the provisions of and directives issued under the Companies Ordinance, 1984 (repealed - note 3.1.1), and the Banking Companies Ordinance, 1962 and directives issued by the State Bank of Pakistan (SBP) and Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Companies Ordinance, 1984 (repealed - note 3.1.1), the Banking Companies Ordinance, 1962 or directives issued by SBP or SECP differ with the requirements of IFRSs or IFASs, the requirements of the Companies Ordinance 1984 (repealed - note 3.1.1), the Banking Companies Ordinance, 1962 or the requirements of the said directives shall prevail.

3.1.1 The Companies Ordinance, 1984 has been repealed after the enactment of Companies Act, 2017. However, as allowed by the SECP vide its circular dated October 04, 2017, these unconsolidated financial statements have been prepared in accordance with the provisions of the repealed Companies Ordinance, 1984.

3.2 SBP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002. Further, according to the notification of SECP dated April 28, 2008, the IFRS - 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

3.3 Application of new and revised International Financial Reporting Standards (IFRSs)

New Standards, Interpretations and Amendments

The Bank has adopted the following accounting standard and the amendments and interpretation of IFRSs which became effective for the current year:

Standard or Interpretation

IAS 7 Statement of Cashflows: Disclosures - Disclosure Initiative - (Amendment)

IAS 12 Income Taxes – Recognition of Deferred Tax Assets for Unrealized

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Improvements to Accounting Standards Issued by the IASB in September 2014

IFRS 12 - Disclosure of Interests in Other Entities - Clarification of the scope of the disclosure requirements in IFRS 12

The adoption of the above amendments, improvements to accounting standards and interpretations did not have any effect on the financial statements.

3.4 New and revised approved accounting standards not yet effective

The following standards, amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standard or interpretation:

Standard or Interpretation	Effective date (annual periods Beginning on or after)
IFRS 2 - Share-based Payments – Classification and Measurement of Share-based Payments Transactions (Amendments)	01 January 2018
IFRS 10 - Consolidated Financial Statements and IAS 28 Investment in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendment)	Not yet finalized
IFRS 4 - Insurance Contracts - Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts – (Amendments)	01 January 2018
IAS 40 - Investment Property - Transfers of Investment Property (Amendments)	01 January 2018
IFRS 9 - Financial Instruments - Classification and Measurement	01 July 2018
IFRS 9 - Prepayment Features with Negative Compensation – (Amendments)	01 January 2019
IFRS 15 - Revenue from Contracts with Customers	01 January 2018
IFRIC 22 - Foreign Currency Transactions and Advance Consideration	01 July 2018
IFRIC 23 - Uncertainty over Income Tax Treatments	01 January 2019

The above standards, amendments and interpretations are not expected to have any material impact on the Bank's financial statements in the period of initial application. With regard to IFRS-9, the Bank considers that as the Prudential Regulations and other SBP directives currently provide the accounting framework for the measurement and valuation of investments and provision against non performing financings, the implementation of IFRS-9 may require changes in the regulatory regime. Therefore, the Bank expects that the SBP would issue suitable guidance and instruction on the application of IFRS-9 for the banking sector of Pakistan.

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB in December 2016 and December 2017. Such improvements are generally effective for accounting periods beginning on or after 01 January 2018 and 01 January 2019. The Bank expects that such improvements to the standards will not have any impact on the Bank's financial statements in the period of initial application.

Further, following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standards	IASB Effective date (annual periods beginning on or after)
IFRS 14 – Regulatory Deferral Accounts	01 January 2016
IFRS 16 – Leases	01 January 2019
IFRS 17 – Insurance Contracts	01 January 2021

4. BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention except for revaluation of land and buildings and non-banking assets acquired in satisfaction of claims which are stated at revalued amount and certain investments and derivative financial instruments that are carried at fair value. In addition, obligations in respect of defined benefit plan are carried at present value.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous financial year.

5.1 Cash and cash equivalents

Cash and cash equivalents include cash and balances with treasury banks and balances with other banks in current and deposit accounts and call money lendings, less call money borrowings and overdrawn nostro accounts.

5.2 Investments

Investments other than those categorised as held-for-trading are initially recognised at fair value which includes transactions costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the profit and loss account.

All regular way purchases / sales of investments are recognised on the trade date, i.e., the date the Bank commits to purchase / sell the investments. Regular way purchases or sales of investments require delivery of securities within the time frame generally established by regulation or convention in the market place.

The Bank has classified its investment portfolio, except for investments in subsidiaries, associates and joint ventures, into 'held-for-trading', 'held-to-maturity' and 'available-for-sale' as follows:

- Held-for-trading – These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within 90 days. These are carried at market value, with the related unrealized gain / (loss) on revaluation being taken to profit and loss account.
- Held-to-maturity – These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.
- Available-for-sale – These are investments that do not fall under the held-for-trading or held-to-maturity categories. These are carried at market value except in case of unquoted securities where market value is not available, which are carried at cost less provision for diminution in value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account shown below equity. Provision for diminution in value of investments in respect of unquoted shares is calculated with reference to book value of the same. On derecognition or impairment in quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of assets' below equity is included in the profit and loss account for the period.
- Provision for diminution in value of investments in unquoted debt securities is calculated as per the SBP's Prudential Regulations.

Held-for-trading and quoted available-for-sale securities are marked to market with reference to ready quotes on Reuters page (PKRV/ PKISRV) or MUFAP or the Stock Exchanges, as the case may be.

Investments in subsidiaries, associates and joint venture companies are stated at cost. Provision is made for impairment in value, if any.

5.3 Repurchase and resale agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective yield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Bank does not obtain control over the securities. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

5.4 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the dates on which the derivative contracts are entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative instruments is taken to the profit and loss account.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5.5 Financial instruments

All financial assets and financial liabilities are recognized at the time when the Bank becomes a party to the contractual provisions of the instrument. A financial asset is derecognised where (a) the rights to receive cash flows from the asset have expired; or (b) the Bank has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Bank has transferred substantially all the risks and rewards of the asset, or (ii) the Bank has neither transferred nor retained substantially all the risk and rewards of the asset, but has transferred control of the asset. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income currently.

5.6 Advances

Advances are stated net of specific and general provisions. Provisions are made in accordance with the requirements of Prudential Regulations issued by the SBP and charged to the profit and loss account. These regulations prescribe an age based criteria (as supplemented by subjective evaluation of advances by the banks) for classification of non-performing loans and advances and computing provision / allowance there against. Such regulations also require the Bank to maintain general provision / allowance against consumer and SME advances at specified percentage of such portfolio. General provision for loan losses of overseas branches is made as per the requirements of the respective central banks. Advances are written off where there are no realistic prospects of recovery.

5.7 Operating fixed assets and depreciation

Property and equipment

Owned assets

Property and equipment except land and buildings are stated at cost less accumulated depreciation and impairment losses, if any. Land is stated at revalued amount. Buildings are stated at revalued amount less accumulated depreciation and impairment, if any. Cost of operating fixed assets of foreign branches include exchange differences arising on translation at year-end rates. Depreciation is charged to profit and loss account applying the straight line method except buildings, which are depreciated on diminishing balance method at the rates stated in note 11.2. Depreciation is charged from the month in which the assets are brought into use and no depreciation is charged for the month the assets are deleted.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit and loss account during the period in which they are incurred.

Assets are derecognised when disposed off or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of property and equipment are included in profit and loss account currently.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

Land and buildings' valuations are carried out by professionally qualified valuers with sufficient regularity to ensure that their carrying amount does not differ materially from their fair value.

The surplus arising on revaluation of fixed assets is credited to the "Surplus on Revaluation of Assets account" shown below equity. The Bank has adopted the following accounting treatment of depreciation on revalued assets, keeping in view the requirements of the Companies Ordinance, 1984 (repealed - note 3.1.1) and SECP's SRO 45(1)/2003 dated January 13, 2003:

- depreciation on assets which are revalued is determined with reference to the value assigned to such assets on revaluation and depreciation charge for the year is taken to the profit and loss account; and
- an amount equal to incremental depreciation for the year net of deferred taxation is transferred from "Surplus on Revaluation of Fixed Assets account" to unappropriated profit through statement of changes in equity to record realization of surplus to the extent of the incremental depreciation charge for the year.

Leased assets (as lessee)

Assets subject to finance lease are accounted for by recording the asset and the related liability. These are recorded at lower of fair value and the present value of minimum lease payments at the inception of lease and subsequently stated net of accumulated depreciation. Depreciation is charged on the basis similar to the owned assets. Financial charges are allocated over the period of lease term so as to provide a constant periodic rate of financial charge on the outstanding liability.

Ijarah (as lessor)

Assets leased out under 'Ijarah' are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Assets under Ijarah are depreciated over the period of lease term. However, in the event the asset is expected to be available for re-Ijarah, depreciation is charged over the economic life of the asset using straight line basis.

Ijarah income is recognised on a straight line basis over the period of Ijarah contract.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses, if any. Amortization is charged to income applying the straight-line method at the rates stated in note 11.3. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Capital work-in-progress

Capital work-in-progress is stated at cost. These are transferred to specific assets as and when assets are available for use.

Impairment

The carrying values of operating fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, operating fixed assets are written down to their recoverable amounts.

The resulting impairment loss is taken to profit and loss account except for impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of assets. Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the amount which would have been determined had there been no impairment. Reversal of impairment loss is recognized as income.

5.8 Non-banking assets acquired in satisfaction of claims

In accordance with the requirements of the 'Regulations for Debt Property Swap' (the regulations) issued by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016, the non-banking assets are carried at revalued amounts less accumulated depreciation. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation is credited to the 'surplus on revaluation of fixed assets' account and any deficit arising on revaluation is taken to the profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalised.

5.9 Deposits and their cost

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective yield method.

5.10 Taxation

Current

Provision of current taxation is based on taxable income for the year determined in accordance with the prevailing laws of taxation on income earned for local as well as foreign operations, as applicable to the respective jurisdictions. The charge for the current tax also includes adjustments wherever considered necessary relating to prior years, arising from assessments framed during the year.

Deferred

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilised. Deferred tax is not recognised on differences relating to investment in subsidiaries and branches to the extent the deductible temporary difference probably will not reverse in the foreseeable future.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit or deductible temporary differences will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to gain / loss recognized on surplus on revaluation of assets is charged / credited to such account.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5.11 Employee benefits

5.11.1 Defined benefit plans

The Bank operates an approved funded pension scheme, an un-funded post retirement medical benefits scheme and an un-funded benevolent scheme for its eligible employees. The Bank also operates an un-funded gratuity scheme for its eligible contractual employees. An actuarial valuation of all defined benefit schemes is conducted every year. The valuation uses the Projected Unit Credit method. Remeasurements of the net defined benefit liability / assets which comprise actuarial gains and losses, return on plan assets (excluding interest) and the effect of asset ceiling (if any, excluding interest) are recognized immediately in other comprehensive income. Past-service costs are recognized immediately in profit and loss account when the plan amendment occurs.

5.11.2 Other employee benefits

Employees' compensated absences

The Bank also makes provision in the financial statements for its liability towards compensated absences. This liability is estimated on the basis of actuarial advice under the Projected Unit Credit method.

5.12 Revenue recognition

Income on loans and advances and debt security investments are recognized on a time proportion basis that takes into account effective yield on the asset. In case of advances and investments classified under the Prudential Regulations, interest / mark-up is recognized on receipt basis.

Interest / mark-up on rescheduled / restructured advances and investments is recognized in accordance with the Prudential Regulations of SBP.

Fee, brokerage and commission income other than commission on letter of credit and guarantees and remuneration for trustee services are recognized upon performance of services.

Commission on letters of credit and guarantees is recognized on time proportion basis.

Dividend income on equity investments and mutual funds is recognized when right to receive is established.

Premium or discount on debt securities classified as held-for-trading, available-for-sale and held-to-maturity securities is amortised using the effective interest method and taken to profit and loss account.

Gains and losses on disposal of investments and operating fixed assets are dealt with through the profit and loss account in the year in which they arise.

The Bank follows the 'financing method' in accounting for recognition of finance lease. At the commencement of a lease, the total unearned finance income i.e. the excess of aggregate installment contract receivables plus residual value over the cost of the leased asset is amortized over the term of the lease, applying the annuity method, so as to produce a constant periodic rate of return on the net investment in finance leases. Initial direct costs are deferred and amortized over the lease term as a yield adjustment.

5.13 Net investment in lease finance

Leases where the Bank transfers substantially all the risk and rewards incidental to ownership of the assets to the lessee are classified as finance leases. Net investment in lease finance is recognised at an amount equal to the aggregate of minimum lease payment including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

5.14 Foreign currencies translation

The Bank's financial statements are presented in Pak Rupees (Rs.) which is the Bank's functional and presentation currency.

Foreign currency transactions are converted into Rupees applying the exchange rate at the date of the respective transactions. Monetary assets and liabilities in foreign currencies and assets / liabilities of foreign branches are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange contracts are valued at the rates applicable to their respective maturities. All gains or losses on dealing in foreign currencies are taken to profit and loss account currently.

Profit and loss account balances of foreign branches are translated at average exchange rate prevailing during the year. Gains and losses on translation are included in the profit and loss account except gains / losses arising on translation of net assets of foreign branches, which is credited to other comprehensive income.

Items included in the financial statements of the Bank's foreign branches are measured using the currency of the primary economic environment in which the Bank operates (the functional currency).

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Commitments for outstanding forward foreign exchange contracts are disclosed in these financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange prevailing at the statement of financial position date.

5.15 Provision for off balance sheet obligations

Provision for guarantees, claims and other off balance sheet obligations is made when the Bank has legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of amount can be made. Charge to profit and loss account is stated net of expected recoveries.

5.16 Off setting

Financial assets and financial liabilities are only set off and the net amount is reported in the financial statements when there is a legally enforceable right to set off and the Bank intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

5.17 Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Bank in the statement of financial position.

5.18 Dividend and other appropriations

Dividend and appropriation to reserves, except appropriations which are required by the law, are recognised in the Banks' financial statements in the year in which these are approved.

5.19 Earnings per share

The Bank presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any. There were no dilutive potential ordinary shares in issue at December 31, 2017.

5.20 Accounting estimates and judgments

The preparation of financial statements in conformity with Approved Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. The estimates / judgments and associated assumptions used in the preparation of the financial statements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key areas of estimates and judgments in relation to these financial statements are as follows:

a) Provision against non-performing loans and advances

The Bank reviews its loan portfolio to assess amount of non-performing loans and determine provision required there against on a quarterly basis. While assessing this requirement various factors including the past dues, delinquency in the account, financial position and future business / financial plan of the borrower, value of collateral held and requirements of Prudential Regulations are considered. The Bank also considers the effect of Forced Sale Value of collaterals in determining the amount of provision, however, no benefit of FSV of collateral is taken during the year in determining provisioning amount.

General provision for loan losses of overseas branches is made as per the requirements of the respective central banks.

The amount of general provision against domestic consumer and SME advances is determined in accordance with the relevant Prudential Regulations and SBP directives.

In addition, the Bank has also made general provision in respect of its corporate portfolio on prudent basis. This general provision is in addition to the requirements of Prudential Regulations.

b) Fair value of derivatives

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest and exchange rates over the term of the contract.

c) Impairment of available-for-sale investments

The Bank considers that available-for-sale equity investments and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost except for investments where relaxation has been allowed by SBP. This determination of what is significant or prolonged requires judgment. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

Further the Bank has developed internal criteria according to which a decline of 30% in the market value of any scrip below its cost shall constitute as a significant decline and where market value remains below the cost for a period of one year shall constitute as a prolonged decline.

d) Held-to-maturity investments

The Bank follows the guidance provided in the SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. In making this judgment, the Bank evaluates its intention and ability to hold such investments till maturity.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

e) Income taxes

In making the estimates for current and deferred taxes, the management looks at the income tax law and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Bank's view differs with the view taken by the income tax department and such amounts are shown as contingent liability.

f) Operating fixed assets, revaluation, depreciation and amortization

In making estimates of the depreciation / amortization method, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Bank. The method applied is reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the method would be changed to reflect the change in pattern.

The Bank also revalues its properties on a periodic basis. Such revaluations are carried out by independent valuer and involves estimates / assumptions and various market factors and conditions.

g) Employees' benefit plans

The liabilities for employees' benefits plans are determined using actuarial valuations. The actuarial valuations involve assumptions about discount rates, expected rates of return on assets, future salary increases, future inflation rates and future pension increases as disclosed in note 34. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

h) Provision against contingencies

Provision against contingencies is determined based on the management judgement regarding the probability of future out flows of resources embodying economic benefits to settle an obligation arising from past events.

5.21 AMALGAMATION OF NBP LEASING LIMITED WITH AND INTO THE BANK

5.21.1 The Bank held 100% shares in NBP Leasing Limited (the Company), a company incorporated in Pakistan as an unlisted public company under the Companies Ordinance, 1984, now Companies Act, 2017.

5.21.2 The SBP has also sanctioned the Scheme of Amalgamation of the NBP Leasing Limited with and into the Bank, under Section 48 of Banking Companies Ordinance 1962 vide its letter No. BPRD (R&P-02)/NBP/2017/16298, dated July 12, 2017.

5.21.3 As per the Scheme of Amalgamation, all the assets, liabilities and obligations of NBP Leasing Limited have, as at the Effective Date i.e. July 31, 2017, been merged with, transferred to, vested in, and assumed by the Bank, and NBP Leasing Limited is dissolved without winding-up. Further as per the Scheme, the surviving entity is National Bank of Pakistan and therefore, the entire undertaking and business of NBP Leasing Limited has vested in and continued under the operations of National Bank of Pakistan.

5.21.4 The International Financial Reporting Standard (IFRS) 3 'Business Combinations' excludes from its scope a combination of entities or businesses under common control in which all the businesses are ultimately controlled by the same party before and after the business combination. Accordingly, pooling of interest method has been used to account for amalgamation of the NBP Leasing Limited with and into the Bank as merger of NBP Leasing Limited and the Bank with each other is effectively a group reorganization from legal perspective which does not involve gaining or losing of control, by the ultimate parent.

5.21.5 Under the pooling of interest method, the assets and liabilities of the combining entities are reflected at their carrying amounts. No 'new' goodwill is recognised as a result of the combination.

The Bank has adopted an accounting policy of not to restate financial information in the financial statements for the periods prior to the Amalgamation and hence, the financial position of NBP Leasing Limited is amalgamated with the Bank with effect from 31 July 2017.

5.21.6 The assets and liabilities of NBP Leasing Limited amalgamated in these financial statements as at 31 July 2017 were as follows:

Every bank incorporated in Pakistan is required to transfer 20% of their profits to a statutory reserve until the reserve equals share capital, thereafter 10% of the profits of the Bank are to be transferred to this reserve.		
19.4.3 General loan loss reserve		
The Bank is cognizant of the fact that a part of its credit or loan portfolio (funded and non-funded) which is not currently impaired as per the applicable Prudential Regulations is underperforming and therefore the potential for risk of credit losses on this part of portfolio is higher than the usual risk. Therefore, as a matter of abundant caution and in order to protect the equity base of the Bank from future contingencies in respect of the credit portfolio, the Board of Directors in their meeting held on April 29, 2015 decided to transfer an aggregate amount of Rs. 12 billion from the unappropriated profits to a "General Reserve for potential loan losses". This appropriation has been made on the basis of the management's best estimates and judgment regarding the inherent portfolio risks.

21.4.2 Taxation

The tax returns of the Bank have been filed upto Tax Year 2017 and amended by the tax authorities up to Tax Year 2016. For Azad Kashmir and Gilgit Baltistan Branches no amendment to returns filed u/s 120 of the Income Tax Ordinance, 2001 has been made, hence returns filed are deemed assessments for all the years till the tax year 2017.

- a) During the year, the tax authorities finalized amendment proceedings under section 122(5A) of the Income Tax Ordinance, 2001 for the tax year 2016 and raised net of rectification demand of Rs. 2.033 billion in its order passed under section 221/ 122(5A)/124(A) of the Ordinance which has been paid and the bank has preferred appeals before the Commissioner Inland Revenue Appeals which is pending.
- b) Against ATIR orders for the Tax Years 2008 to 2010, the Bank has obtained appeal effect orders which has resulted in increase in determined refunds by Rs. 4.036 billion and prior year tax reversal of Rs. 748 million.
- c) The other matters under tax contingencies include interest credited to suspense account, allocation of common expenditure between taxable income and exempt / low tax rate income and reversal of bad debts expense. The aggregate effect of contingencies as on December 31, 2017 amounts to Rs.14.2 billion (December 31, 2016: Rs. 14.7 billion). No provision has been made against these contingencies based on the opinion of tax consultants of the Bank who expect favourable outcome upon decision of pending appeals.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

- d) Through Finance Act, 2015, for tax year 2015 and onwards, income from Dividend and income from Capital Gains taxed at the rate of thirty five percent. As the chargeability of tax imposed was retrospective from the tax year 2015, therefore, on legal grounds, the bank filed Constitution Petition (CP) before the Honorable High Court of Sindh which is pending. However, last year the Honourable High Court of Sindh has given favourable judgement on the same issue in other case against which the department has filed appeal before Supreme Court of Pakistan. The bank has made the provision on prudent basis.
- e) The Sindh Workers Welfare Fund Act, 2015 (Sindh WWF Act) has been promulgated in the month of May 2015. Earlier as per the Workers Welfare Fund Ordinance, 1971, the Bank in which Government holds more than 51% shareholding remained exempt from levy of WWF. The Sindh WWF Act, 2015 is retrospective in its effect and it attempts to impose levy from the date even prior to its promulgation. As the chargeability of tax imposed is retrospective and the law is defective considering constitutional issues – Fee or Tax including geographical / territorial jurisdiction for bank operating in all the provinces of Pakistan as well as the Bank employees do not fall in the definition of workers, therefore, on legal grounds against the said levy bank has decided to file suit before Honourable High Court of Sindh.
- f) In case of Sales Tax / FED, appeals have been filed before various appellate forums including reference and constitutional petitions before the High Court of Sindh; wherein apart from other legal grounds, the principal ground is levy of duty on service which are not specified in the First Schedule to the Customs Act, 1969 and specially for Tax year 2011 levy of duty by FBR on services provided in province of Sindh after promulgation of Sindh Sales Tax on Services Act, 2011.
- g) The Bank has filed an Appeal before the Commissioner Appeals SRB on the order passed by Assistant Commissioner SRB for levy of Sindh Sales Tax on the services provided to the Federal Government through the State Bank of Pakistan for the tax period July 2011 till March 2015 amounting to Rs.358.28 million based on data provided by SBP. No provision has been made for this amount in these financial statements based on the opinion of Tax Consultants of the Bank who expect favorable outcome upon decision of filed Appeal.

21.4.3 Barter Trade Agreements

In order to reduce pressure on the balance of payment, the GoP had entered into barter trade agreements with various countries and designated the Bank to handle the related transactions on behalf of GoP. Accordingly, the Bank executed banking arrangements with the designated banks of these countries and opened accounts in their names. In one of the barter agreement, repayments made to the Bank by the GoP could not be utilized due to non-finalization of Letter of Exchange for its utilization after 1994 at Government level, which was required under the relevant barter agreement. The concerned bank is now demanding payment of interest on the balances in its accounts with the Bank. Since these balances are maintained in current accounts and there is also no clause for payment of any interest in the relevant banking arrangement, therefore the Bank has strongly refused such claims.

21.4.4 Contingencies in respect of employees benefits and related matters

The following are the detail of the contingencies arising out of the various legal cases pending adjudication in respect of employees' benefits and related matters. The Bank considers that except for Pensionary benefits (note 21.4.4.1) and Restoration of Commuted Pension (note 21.4.4.4), the financial impact of other matters is impracticable to determine with sufficient reliability.

21.4.4.1 Pensionary benefits to retired employees

In 1977 the Federal Govt. vide letter No. 17 (9) 17 XI / 77 dated November 30, 1977 addressed to the Pakistan Banking Council, directed that all executives/ officers of all nationalized banks would be paid pension as calculated @ 70% of average emoluments on completion of 30 years of qualifying service and where qualifying service was less than 30 years but not less than 10 years, proportionate reduction in percentage was to be made. This pension scheme was made applicable with effect from May 01, 1977.

In the year 1997, the Banks Nationalization Act, 1974 ("BNA, 1974") was substantially amended whereby the Pakistan Banking Council was dissolved and the Board of Directors of the nationalized banks were empowered/ mandated respectively to determine personnel policies with the President of the Bank deciding the remuneration and benefits of the employees in accordance with policies determined by the Board. In the year 1999, by virtue of the said amendments in BNA, the Board of Directors of the Bank approved the Revised Pay Structure for the officers/ executives of the bank with effect from January 01, 1999 vide Circular No.37/1999, whereby the Basic salary was increased by 110 % to 140% and besides giving multifarious benefits to its employees, formula for monthly gross pension was revised. However, the amount of gross pension on the basis of existing Basic Pay and existing formula was protected.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

A number of bank's employees, after attaining the age of superannuation filed Writ Petitions before the Lahore High Court and the Peshawar High Court, praying for re-calculation of their pensionary benefits and increases in accordance with the Bank circular No. 228 (C) dated December 26, 1977 and furthermore, for allowing the increases in their pension as per the increases allowed by the Federal Government to its employees. This litigation started in the year 2010 & 2011.

The Peshawar High Court, in terms of judgment dated June 03, 2014, dismissed the petition while observing that the petition was hit by laches and that the Petitioners could not claim the benefits granted to the similarly placed employees of other institutions who were governed through different Statutes and Service Rules.

Lahore High Court, vide its judgment dated January 15, 2016, allowed the Writ Petitions on the same matter and the Bank was directed to release the pensionary benefits of the Petitioners. The said order was assailed by the Bank by filing Intra Court Appeals in January 2016 which were dismissed by Lahore High Court, Lahore, through its judgment dated January 16, 2017. The Bank assailed the said judgment by filing appeals in the Supreme Court of Pakistan.

The Honorable Supreme Court of Pakistan after hearing the arguments of both Parties, vide its judgement dated September 25, 2017 has upheld the decision of a Division Bench of the Lahore High Court on the contention of increase in Bank's employees' pension , thereby instructing the Bank to give pension benefits to its employees in the light of Head Office Instruction Circular No. 228 (c) of 1977. Under this Circular, the pension of employees was to be calculated @ 70% of average emoluments upon completion of minimum qualifying service requirement, besides requiring the Bank to follow subsequent revisions in pension scheme and rates granted by the Federal Government to civil servants from time to time as well.

The Bank has filed Review petitions against the aforesaid judgment of the Honorable Supreme Court of Pakistan and also made an application for constitution of larger bench of the Supreme Court to hear the Review petition, which has been accepted. As advised by our legal counsels, the Bank considers that due to conflicting decision of the other bench of the Supreme Court in a case which, in all material facts and circumstances, is identical to the Bank's case and various other legal infirmities in the judgement as highlighted by the Bank in its Review Petition. the Bank has a reasonably strong case on merits to convince the Supreme Court for reversal of its decision.

In case this matter is decided unfavorably, the bank estimates based on the actuarial advice that the financial impact arising from the additional liability would be approximately Rs. 54.3 billion excluding any penal interest/ profit payment due to delayed payment in case of unfavorable decision. Pension expense for 2018 onward will also increase by Rs 7.5 billion due to this decision. No provision has been made in these financial statements for the above-mentioned amount as the Bank is confident about the favorable outcome of the matter.

21.4.4.2 Encashment of unavailed leave

Some of the employees of the Bank filed Writ Petitions before Lahore High Court after their retirement, in September 2012, praying the Court for issuance of directions to the bank for encashing their entire un-availed leave balance frozen in terms of Bank's Circular 37/1999 and 57/ 1999.

The Bank revised rules of leave encashment with effect from January 1, 1999. As per revised rules, leave balances accumulated under old rules were marked as "Frozen Leave" to differentiate it with subsequent leaves to be accumulated. There was no bar on employees to avail these leaves, which would lapse on retirement.

The Lahore High Court dismissed the petitions of the subject ex-employees in April 2014 while observing that claim of the petitioners was hit by laches as the Petitions were filed in the year 2012 and that all the petitioners filed the petitions after having availed all retirement benefits when all outstanding dues were paid at the time of retirement at which point no claim for any amount was made. The Petitioners have filed Intra Court appeals against the aforesaid judgment which were dismissed by the Lahore High Court, Lahore.

Another Constitution Petition No. D-3445/ 2012 titled as Iffat Aara Hassan & others vs. NBP etc. filed before the High Court, of Sindh, Karachi, on the matter was dismissed by a Division Bench vide order dated January 11, 2017, while concluding that the issue which was subject matter of the Petition was passed and closed transaction, hence, the same could not be agitated through this Constitution Petition.

The Bank has not received so far any notices in respect of appeal(s) (if any) filed by the petitioners.

21.4.4.3 Post retirement medical facilities

On 14 March 1995, on the instructions of Pakistan Banking Council, the Bank issued Circular No. 19/95, in terms of which the Bank was to provide relief to the retired employees by way of increase in medical ceiling on the increase in salary. It was decided that the Bank would re-determine the monetary ceiling of retired officers/executives after every revision of pay scale on the basis of notional re-fixation in revised scale on point to point basis. In 2003 two retired employees moved Federal Service Tribunal for increase of post-retirement medical ceiling in the light of the said Circular. The Bank contested the case but a representative of Establishment Division stated before the FST that Bank had adopted the said Circular and the two appeals were accepted by the FST. The Bank's appeals before the Supreme Court failed and even review petitions were dismissed.

Later on in September, 2011 Ch. Muhammad Qasim and 5 others who had opted for separation from service under GHS/ VHS filed writ petition for availing similar relief of post-retirement medical ceiling while citing the respective judgments of the FST and Supreme Court. The Bank contested the writ petition on the Grounds that the petitioners had opted for

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

separation from the service of the Bank under GHS AND VHS after receiving payment of compensation as contemplated under the said Schemes. With regard to medical ceiling for such persons who had opted voluntarily, it was contended by the bank before the Court that option was given to such employees either to accept the present medical ceiling for 10 years in lump sum or to continue with the present payment as if they had retired on attaining the age of superannuation. The petitioners had opted for continuing with the present ceiling as prevalent at the time of the separation scheme therefore they were not entitled for any benefit under the said circular. It was also urged by the Bank that in view of judgment of Apex Court in Naseem Arif Abbasi case, the petitioners, after having signed a disclaimer at the time of receipt of benefits under GHS, were not entitled to any further payment. The high court while disregarding these arguments allowed the Writ Petition. The Bank has filed an ICA against the order of the single bench which is still pending adjudication.

21.4.4.4 Restoration of Commuted Pension

The portion of pension of an employee commuted at the time of retirement is restored after the lapse of period for which the commutation was made. However that restoration is made without applying any increase granted in pension during that period. Some of the retired employees filed writ petitions before Lahore High Court while praying for restoration of the commuted portion of their pension with application of all the increments granted during the period for which the pension was commuted.

In one of such writ petitions, the Honorable Lahore High Court, without issuing notices to the bank disposed of the same vide order dated January 13, 2015 while observing that the Petitioner was also entitled to be treated at par with the pensioners whose cases had already been decided in a case titled as "Additional Accountant General Pakistan Revenue, Lahore vs. A.A.Zuberi" which had attained finality up to the level of Supreme Court of Pakistan

The judgment referred in the case was decided by a Division Bench of Lahore High Court in which restoration of pension after period of commutation was directed to be allowed at the rate prevailing at the time of restoration and not at the rate of pension prevailing at the time of commutation. Against the said order, the bank has filed an Intra Court Appeal as the matter was decided without summoning the bank. Our main argument is that A.A. Zubari's judgment pertains to Civil servants and the Bank employees are not civil servants. The case was remanded back to the single bench for a fresh decision after hearing the Bank. The single bench again decided the matter against the Bank vide order dated April 14, 2017 which has been assailed by the Bank through an Intra Court Appeal. The matter is still pending adjudication.

21.4.4.5 Regularizing of temporary hires/outsourced workers

The Petitioners in these Petitions/ Appeals, filed for regularization of services, were either allegedly engaged by the Bank purely on temporary basis on Borrowers' accounts as Godown keepers or Godown chowkidars for watching the pledged stocks of the Borrowers or they were deployed at various Bank premises by the Service Provider Companies, under outsourcing arrangements, as per the SBP Policy, for non-core jobs. Litigation in respect of temporary Godown keepers/Godown chowkidars was started in the year 2001-2002. Subsequently in terms of President office circular No. 10/2003 dated August 1, 2003 a formula was evolved that if such temporary employees had completed three years' service as on the date of the circular with breaks of not more than 15 days, they would be eligible for the absorption on regular bases (with certain other conditions). Subsequently the FST while accepting the appeals of the temporary hires adopted almost the same criterion as given in the said circular. The honorable Supreme court also upheld the decision of the FST (2005 SCMR 100). The Bank had obtained permission from Government to absorb 1500 godown staff in the Bank. All who fulfilled the criteria were absorbed. Some Petitions are still pending adjudication in terms of which the Petitioners have sought regularization of service in terms of the Ikram Bari judgment.

Under the SBP Guidelines, in terms of a policy decision the bank outsourced certain noncore jobs to various service provider companies after entering into contract with them. The sources deployed by the service provider companies are actually their employees and the said companies have the sole administrative control over those resources. However some of those resources filed writ petitions before various benches of High Courts and NIRC while praying for issuance of directions to the Bank for absorbing them in the regular service of the Bank while alleging that actually they were employees of the Bank. Petitions filed before the Peshawar High Court, Abbotabad and Mardan Bench were allowed. Appeals filed by the Bank before the honorable Supreme Court of Pakistan against the order of the Peshawar High Court, Abbotabad Bench were disposed of on March 3, 2016 and the Bank was directed to decide the cases of the Respondents after engaging them through personal hearings. Subsequently all the Respondents who had been hired through a service provider company (80 in numbers) were heard in person and their cases for regularization in Bank's service were declined through speaking orders duly communicated to them. The Petitioners filed contempt petitions before the honorable Supreme court and the matter was decided in their favor. The Bank's respective Review Petition was also dismissed and services of all those Petitioners were regularized.

Appeal filed by the Bank against the order of Peshawar High Court, Mardan Bench in the matter of Mr. Talimand and 23 others was dismissed by the honorable Supreme Court of Pakistan vide order dated May 25, 2016 and Bank was directed to regularize all the Respondents in Bank's service. The Review Petition was also dismissed and the Bank had to regularize the services of all those Petitioners.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Moreover in August 2016, some service provider companies terminated the services of some resources deployed at various Bank Branches/offices. Almost all of those employees (around 150 in number) have filed petitions before various benches of NIRC for their absorption in Bank's service.

Vide order dated October 26, 2015, the Honorable Balochistan High Court, Quetta, dismissed CP No.201/12 filed by one Mr. Abdul Ghafoor and 10 others for regularization of their services. The said order was assailed by the Petitioners before the Apex court vide CP No.3724/2015 (CA No.1496/17) which was allowed along with CMA No.7903/16, 3474/17 and 4154/17 filed by 193 other such employees deployed at various premises of NBP in different Regions. Bank has filed Review Petitions against the said judgment which was fixed on January 25, 2018. The honorable Court asked the respondents to file comments to our Review Petitions. The said order is hopefully to be reviewed to the extent of CMAs.

The Peshawar High Court has allowed 12 more Writ Petitions involving 59 Petitioners, with directions to regularize their services. The Bank has assailed the subject orders before the Apex Court through Mr. Naeem Bukhari ASC and Khawaja Muhammad Farooq Mehta Sr. ASC which are yet to be fixed for hearing.

The Bank believes that the financial impact of this matter is not expected to be material.

21.4.4.6 Golden Handshake (GHS)

The Bank had introduced the Golden Shake Hand Schemes in 1997 with a cut-off date however some of the employees who had opted for separation under the said scheme were not relieved on the said date and continued to perform duties. Subsequently some of those employees filed Petitions before various high courts regarding payment of certain pensionary benefits. Most of the cases have been disposed of on the basis of Apex Court judgment in Naseem Arif Abbasi case (2011 SCMR 446). There are still some pending Petitions however keeping in view the said Judgment prima facie the Bank has a good case.

21.5 Foreign Exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporter namely: M/S Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has also adjudicated penalty of Rs. 1,020 million, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgments. The Honorable High Court has granted relief to the Bank by way of interim orders. Based on merits of the appeals management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

21.6 Compliance and risk matters relating to anti-money laundering

The Bank and its New York Branch have entered into a Written Agreement with the Federal Reserve Bank of New York and New York State Department of Financial Services (US regulators) which inter-alia requires the Bank to address certain compliance and risk management matters relating to anti-money laundering and the US bank secrecy law requirements and the implementation of the requisite systems and controls and allocation of adequate resources to ensure full compliance with such requirements. Management is in the process of addressing the matters highlighted in the Written Agreement and in the subsequent inspections. While the Bank seeks to comply with all possible laws and regulations and at this stage there is no indication of any financial impact or penal consequences.

The President and certain executives are also provided with free use of Bank's cars, household equipment, mobile phones and free membership of clubs.

Executives mean executives, other than the chief executive and directors, whose basic salary exceeds five hundred thousand rupees in the financial year.

Performance Bonus is accounted for on payment / approval basis.

36. FAIR VALUE OF ASSETS AND LIABILITIES

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The fair value of traded investments is based on quoted market prices, and have been disclosed in note 9.

Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.6.

The maturity and re-pricing profile and effective rates are stated in notes 41.4.1, 41.4.3 and 41.3.2 respectively.

In the opinion of management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits are frequently repriced.

40. CAPITAL ASSESSMENT AND ADEQUACY

40.1 Statutory minimum capital requirement and management of capital

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- to comply with the capital requirements set by the regulators of the banking markets where the Bank operates;
- to safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to maintain a strong capital base to support the development of its business.

The SBP has issued instructions for Basel-III Implementation vide BPRD Circular No. 06 of 2013 dated August 15, 2013. These instructions are effective from December 31, 2013 in a phased manner with full implementation intended by December 31, 2019.

Basel-III instructions comprises of the following three capital standards:

i. Minimum Capital Requirement (MCR):

The MCR standard sets the nominal amount of capital banks/ DFIs are required to hold. Currently the MCR for banks and DFIs is Rs. 10 billion as prescribed by SBP.

ii. Capital Adequacy Ratio:

The Capital Adequacy Ratio (CAR) assesses the capital requirement based on the risks faced by the banks/ DFIs. The banks/ DFIs are required to comply with the minimum requirements as specified by the SBP on standalone as well as consolidated basis. Currently the required CAR for banks is 11.275%.

iii. Leverage Ratio:

Tier-1 Leverage Ratio of 3% is introduced in response to Basel III Accord as the third capital standard. Bank level disclosure of the leverage ratio and its components has started from December 31, 2015. The bank has a leverage ratio of 3.42% in the year December 31, 2017 (2016 : 3.84%) and Tier-1 capital of Rs 101,303 Million (2016: Rs 95,539 Million).

The SBP's regulatory capital as managed by the Bank is analysed into following tiers:

1. Tier 1 Capital (going-concern capital)

- Common Equity Tier 1
- Additional Tier 1

2. Tier 2 Capital (gone-concern capital)

- Tier I capital, which comprises highest quality capital element and include fully paid up capital, balance in share premium account, reserve for issue of bonus shares, general reserves and un-appropriate profits (net of accumulated losses, if any).
- Tier II capital, which includes general reserve for loan losses, revaluation reserve, exchange translation reserve and subordinated debt.
- "Tier III capital, has been eliminated in Basel III Capital requirements. Also the Basel III capital rules requires bank to make certain deductions from the capital before arriving at the Capital Adequacy Ratio (CAR). These deductions are being done in phased manner starting from 2014, with full deductions in 2018.

Risk weighted assets are measured according to the nature and reflect an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off balance sheet exposures, with some adjustments to reflect more contingent nature of potential losses.

The Bank's policy is to maintain strong capital base so as to maintain, investor, creditor and market confidence and to sustain future development of the business. The adequacy of the Bank's capital is monitored using, among other measures, the rules and ratios established by the SBP. The ratios compare the amount of eligible capital with the total of risk-weighted assets. The Bank monitors and reports its capital ratio under the SBP rules, which ultimately determines the regulatory capital, required to be maintained by Banks and DFIs.

The paid-up capital of the Bank for the year ended December 31, 2017 stood at Rs. 21,275 billion (2016 : Rs. 21,275 billion) and is in compliance with the SBP requirement for the said year. In addition the Bank has maintained minimum Capital Adequacy Ratio (CAR) of 15.95% (2016: 16.54%).

There have been no material changes in the Bank's management of capital during the year.

41. RISK MANAGEMENT

Risk management is about understanding and managing the potential for volatility of earnings, loss of access to reliable deposits and funding and depletion of capital arising from the business activities, whilst pursuing its strategic objectives. The bank has in place a well-defined risk management strategy/ policy with clear objectives and deliverables through multi-pronged risk management processes.

The Bank applies the Basel framework as a cornerstone of the NBP's risk management framework and capital strategy. The Bank maintains a strong capital, funding and liquidity position in line with its on-going commitment to maintain balance sheet strength. The strength of risk profile management of the Bank stands at the following pillars:

- Identification and assessment of significant material risks.
- Overseeing and managing the risk profile of the Bank within the context of the risk appetite.
- Optimise risk/return decisions by aligning them to business objective of achieving sustainable optimum growth.

In order to support RMG's activities, the strong data management mechanism is also in place to collect and consolidate exposure wise information various risk related analysis and reviews. The mechanism also helps in identification of e-CIB related information, performing periodic review, generates reports and highlights inconsistencies and errors, and issuing instructions to the relevant data entry points for rectification.

As another initiative with the objective of strengthening the existing business activities of Bank, the Business Process Review and COSO implementation project has been conducted. This will optimize utilization of Core Banking Application through streamlining the operating model, improving regulatory compliance, and also improving the customer service and product/ service deployment. This also includes aligning the existing documentation with improved risk based processes, which in turn will act as a tool for effective operations, improve MIS reporting, and efficient risk informed decision making.

41.1 Risk Governance Structure

Risk Management Group (RMG) operates as an independent group, i.e. separate from approvals and direct involvement in day-to-day activities. RMG reports directly to the President with a dotted line reporting to the Board Risk Committee (BRC). The group is responsible to perform the functions pertaining to development and oversight of the risk framework, methodologies and other functions assigned from time to time in line with local/ international best practices and under the supervision of SBP's regulations/ guidelines.

The Bank's Board is responsible to ensure active oversight over implementation of policies and frameworks so as to prevent any significant financial loss or reductions in shareholder value that may be suffered by the Bank. Therefore, it is the responsibility of the Board to ensure that policies and frameworks are in place to recognize all significant/ material risks to which the bank is/ may be exposed and that the required human resource, culture, practices and systems are adequate to address such risks. The Board and its relevant committee, i.e. BRC and the senior management along with its relevant committees i.e. Credit Committee, Executive Risk Management Committee (ERMC), ALCO etc. are responsible to ensure formulation and implementation of risk management framework.

41.2 Risk Management Framework

The bank implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective & independent oversight and also that the activities take place as intended. Risk Management Group together with Compliance Group acts as second line of defense and performs integrated function of oversight and independently challenges the effectiveness of risk management actions taken by business groups, who are the first line of defense. The risk management is further strengthened by the third line of defense, where Board Audit & Compliance Committee and Audit & Inspection Group add value through independent and objective assurance in improving risk management functions of the bank.

Following paragraphs introduces Bank's exposures to material risks associated with its business activities and explain overall strategies and processes to manage those risks:

41.2.1 Credit Risk

Credit risk is the potential that a client or counterparty will fail to meet its contractual obligations to the Bank in accordance with agreed terms. Bank lending activities account for most of the Bank's credit risk, however other sources of credit risk also exist throughout the undertakings of the Bank. The activities include loans and advances, commitments to lend, contingent liabilities such as letter of credit and guarantees, and other types of both on and off balance sheet transactions. The Bank has a separate setup that ensures the effectiveness of the framework for assessment/ measurement, monitoring, and reporting of credit risk.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Bank has a clear policy to structure the levels of credit risk it undertakes by placing limits on exposures of counterparties, groups of related counterparties, and to various industry segments. This risk is monitored on an ongoing basis and is subject to an annual or more frequent review.

For portfolio analysis of counterparties within various industries and constitutions, Bank also has an Internal Ratings System based on multiple risk factors as per best market practices. The analysis helps to provide the insight of borrowers' current and future financial health along with repaying capabilities, henceforth, creates an integral contribution in decision making by senior management of the Bank. Concentration of exposure/ risk in any of counterparty, group, or industry is assessed frequently and accordingly limit setting is tailored in accordance with the changing socio-economic/ market conditions.

Standardized Approach is used to calculate capital charge for credit risk as per Basel regulatory framework, with simple approach for credit risk mitigation. Moreover, stress testing for credit risk is carried out on regular basis to estimate the possible impact of increase in non-performing loans of the Bank and downward shift in its sub-categories.

41.2.2 Market and Liquidity Risk

Market Risk is the potential for gains or losses to arise from trading activities undertaken by the Bank as a result of movements in market rates or prices such as interest rates, foreign exchange rates, and equity prices.

The Bank's market risk is managed through Market Risk Management (MRM) Framework approved by the Board which is comprised of related Policies/ Procedures with the objective to mitigate market risk through the engagement of various strategies in relation with prices, rates, and spread movements of its earning assets, liabilities and trading activities. Bank has also worked on devising improved criteria for various market risk limits. Under the developed Value-at-Risk (VaR) models and policy framework, VaR limits are being monitored through pilot run with an objective to be used for capital charge calculation under IMA approach in future.

Standardized Approach is used to calculate capital charge for market risk as per Basel regulatory framework. Whereas, Stress testing for various risks related to market and non-market based activities is carried out regularly to estimate the impact over the capital of the Bank.

In addition to the regulatory requirements, Bank has devised proprietary market risk stress testing scenarios which are performed on periodic basis to assess the impact on capital of the Bank for Internal Capital Adequacy and Assessment Process (ICAAP). Limits/ zones and Management Action Triggers & Management Action Plans corresponding to Liquidity Ratio, Balance Sheet Duration Gap, Government Securities PVBP and Duration have also been developed. These triggers are used for proposing/ recommending actions by ALCO of the Bank.

41.2.2.1 Interest Rate Risk (IRR)

Interest rate risk specifically arises due to adverse movements in yield curve of underlying asset which is being monitored by ALCO with an objective to possibly limiting the potential impact over the profitability of the Bank which may result in instability of market based interest rates and mismatching or gaps in the amount of financial assets and financial liabilities in different maturity time bands. Bank assumes that the sources of IRR are based on following sub-risks.

- Re-pricing risk; arising from changes to the overall level of interest rates and inherent mismatches in the re-pricing term of banking book items.
- Yield curve risk; arising from a change in the relative level of interest rates for different tenors and changes in the slope or shape of the yield curve.
- Basis risk; arising from differences between the actual and expected interest margins on banking book items over the implied cost of funds of those items.

The above mentioned risks are not only measured, monitored, and managed from the regulatory purpose, but from the perspective of internal management.

41.2.2.2 Equity Position Risk

The trading activities also raise risk which occurs resulting in negative fluctuations of daily stock prices specifically in those stocks which are held by the Bank, hence, deplete capital. The Bank's equity position is managed through limits imposed by regulator for both, overall investment and exposure in single scrip. Moreover, internal limits are set to possibly manage overall earnings in the form of placing of stop loss limits and/ or through diversification within the structure of overall equity position portfolio.

41.2.2.3 Foreign Exchange Risk

Foreign exchange and translation risk arises from the impact of currency movements on the value of the Bank's cash flows, profits and losses, and assets and liabilities as a result of participation in global financial markets and international operations.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

In order to manage currency risk exposure the Bank enters into ready, spot, forward and swaps transactions with the SBP and in the interbank market, financial institutions and corporate. The Bank's foreign exchange exposure comprises forward contracts, purchases of foreign bills, foreign currencies cash in hand, balances with banks abroad, foreign placements with the SBP and foreign currencies assets and liabilities. Foreign Exchange exposure is managed within the statutory limits, as fixed by the SBP. Appropriate segregation of duties exists between the front, middle and back office functions.

41.2.3 Operational Risk

The Bank may suffer losses due to its exposure to operational risk. To mitigate, a comprehensive Operational Risk Management (ORM) framework has been developed to aligning the Bank's operations with sound practices for operational risk set by Basel framework. ORM framework provides guidance for setting the operational risk strategy of the Bank, selection and adoption of risk and loss measurement tools, reporting, communication, and establishment of operational risk management processes.

Operational risks are a core component of doing business arising from the day-to-day operational activities of the Bank as well as strategic projects and business change initiatives. Bank realizes that operational risks cannot be fully mitigated, it therefore determines an appropriate balance between accepting potential losses and incurring costs of mitigation.

Further, Bank has adopted a comprehensive Operational Risk Strategy approved by the Board including Operational Risk Tolerance limits in-line with Basel framework related Loss Event Categories. Furthermore, Bank has rolled-out Operational Loss Data Collection Mechanism whereby field functionaries are responsible to report operational losses under their jurisdictions on a certain frequency. Operational loss events are reviewed and appropriate corrective measures are taken on an ongoing basis.

As per regulatory framework, Bank calculates capital charge for its operational risk using Basic Indicator Approach.

41.2.4 Information Security Risk

In today's highly technologically depended environment, where most of the business functions are heavily dependent on the information technology for storing, processing and sharing information; the information "assets" that are being used to store, process and transmit the information, face various types of threats. If threats get materialized and are able to exploit the vulnerabilities (weaknesses) present in these information assets, then the Confidentiality, Integrity and Availability of information get compromised. In order to mitigate the risks certain controls and countermeasures need to be assessed and implemented.

The Bank, hence, classifies Information as a critical asset and declares the related information storing, processing and transmitting facilities/systems as Information Assets. Information may exist in many forms across the organization in Digital as well as non-digital (paper based). Henceforth, the Risk Management Group is responsible to provide a framework for information security risk management of information assets to the respective stakeholders. The information security risk management includes risk identification, risk analysis, risk evaluation and risk treatment plans. Currently, Information Security Risk Management Framework v1.0 is ready to be submitted for approval process. The information security setup is also responsible to execute risk assessment exercises in coordination with Business Information Security Officers, Information Asset Owners and Custodians. In this regard, a Risk Register will be maintained covering the scope of approved Information Security Risk Management Framework.

41.2.5 Enterprise-wide Risk

In addition to the above mentioned risks, the Bank has a structure to identify residual material risks through generation of various MIS reports on periodic basis. The source of these reports includes, but not limited to, the Board approved Internal Capital Adequacy and Assessment Process (ICAAP), which commensurate risks over and above those which directly occurs as a result of daily business and operations of the Bank. These risks include Concentration Risk, Interest Rate Risk in Banking Book (IRRBB), Downward Shift in NPL Categories, Reputational Risk, Strategic Risk, etc.

Moreover, all those brewing risks that are material and arise within the Bank or due to inherent behavior of country's market and economic conditions, whether in isolation or in combinations are covered under the bank-wide Recovery Plan. These risks are monitored on certain frequency and corrective actions are taken as and when deemed necessary.

The Bank has also started preparation to implement advanced approaches of risk quantification based on sophisticated modeling techniques; macro-stress testing is, one of the tool recently developed by the Bank, conducted assuming synthetic deterioration in micro and macro-economic factors to possibly measure the impact on capital of the Bank which is based on time series methodology and is validated.

For further strengthening the existing risk management structure, a comprehensive diagnostic exercise has been conducted on a Bank-wide basis and the relevant areas for improvement were identified. This exercise encompassed all possible aspects that impacted the Bank's Risk Management environment including the assessment of its existing risk management structure, policies and procedures, overall system architecture from a risk perspective and data availability and quality required for comprehensive risk management. Based on the areas identified during the diagnostic exercise, corrective measures have been suggested and taken accordingly.

41.3.2 Mismatch of Interest Rate Sensitive Assets and Liabilities

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in the mark-up / interest rates. The Bank is exposed to interest / mark-up rate risk as a result of mismatches or gaps in interest / mark-up based assets and liabilities that mature or re-price in a given period. The Bank manages this risk by matching / re-pricing of assets and liabilities. Assets and Liabilities Committee (ALCO) of the Bank monitors and manages the interest rate risk with the objective of limiting the potential adverse effects on the profitability of the Bank.

Management of interest rate risk is one of the critical components of market risk management in banks. The Bank's net interest income or net interest margin is also dependent on the movement of interest rates and mismatches in the cash flows or re-pricing dates. Interest rate risk management includes establishing and monitoring various risk mitigating / quantifying limits such as PVPB, duration, balance sheet DGAP, and other money market and interest rate sensitivity limits.

As part of the risk reporting, an interest rate sensitivity statement is prepared on a quarterly basis. This statement classifies the interest rate-sensitive assets and liabilities into various maturity groups enabling the management to monitor the impact of interest rate movements on the Statement of Financial Position.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

41.4 Liquidity Risk

Liquidity risk is the risk that the Bank will be unable to meet its liability when they fall due. To mitigate this risk, management has arranged diversified funding sources, manages specific assets with liquidity in mind and monitors liquidity on daily basis. In addition, the Bank maintains statutory deposits with central banks inside.

The purpose of liquidity management is to ensure that there are sufficient cash flows to meet all of the Bank's liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking sustained damage to the Bank's reputation, as well as to capitalize on opportunities for business expansion and profitability. This includes the Bank's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature and to make new loans and investments as opportunities arise.

ALCO is responsible for ensuring that the Bank has adequate liquidity and monitors liquidity gaps, to execute this responsibility. Regulatory stress as well as proprietary stress testing and ratio based liquidity assessments are performed to proactively identify and manage liquidity position, needs /requirements. Bank has various limits / ratios, triggers and management actions in place to monitor and mitigate liquidity risk.

41.4.3 Maturities of Assets and Liabilities (based on behavioural study)

The Bank has assets and liabilities that have contractual and non-contractual maturities. The Bank conducts statistical study to assess the expected maturity of assets and liabilities with non-contractual maturities. The behavioral maturities are determined on the basis of statistical study conducted by the Bank, based on the past eight years of data. The attrition rate of deposits is determined based on historically observed weekly data of all Current and Saving Deposit accounts using VaR based approach. The approach considers the tendency of variation among the respective time bands for selected deposit types and drives the portion of volatility of such time bands based on 99% confidence interval on the variation data so calculated. The remaining portion of the deposit which marked as core is accordingly shifted to higher time bands.

42.6 Pools maintained by NBP-IBG

NBP-IBG has managed following pools for profit and loss distribution.

- General depositors pool
- Special depositors pool
- Equity pool

Key features and risk & reward characteristics

Deposits are accepted from customers on the basis of Qard (current accounts) and Mudaraba (Saving and term deposits). No profit or loss is passed on to current account depositors.

For deposits accepted on Mudarabah basis from depositors (Rab ul Maal) the Bank acts as Manager (Mudarib) and invests the funds in the Shariah Compliant modes of financings. Rab ul Maal share is distributed among depositors according to weightages declared for a month before start of the period.

In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investment.

Equity pool includes IBG's fund and current account deposits. The equity pool may have constructive liquidation every month and risk associated with assets of pool includes operational, market, equity, return and Shariah.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

We have audited the annexed consolidated financial statements comprising consolidated statement of financial position of National Bank of Pakistan and its subsidiary companies (the Group) as at December 31, 2017 and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof, for the year then ended. We have also audited / reviewed the financial statements of National Bank of Pakistan and its subsidiary companies namely Taurus Securities Limited, NBP Exchange Limited, NBP Fullerton Asset Management Limited and CJSC Subsidiary Bank of NBP in Tajikistan. The subsidiaries CJSC Subsidiary Bank of NBP in Kazakhstan, NBP Modaraba Management Company Limited and First National Bank Modaraba have been consolidated based on un-audited financial information of the subsidiaries. These financial statements are responsibility of the Holding Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was conducted in accordance with the International Standards on Auditing and accordingly included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the consolidated financial statements present fairly the financial position of National Bank of Pakistan and its subsidiary companies as at December 31, 2017 and the results of their operations for the year then ended.

Emphasis of Matter

We draw attention to note 21.4.4.1 to the consolidated financial statements which explains the contingency in relation to the pension obligations of the Bank. Based on the opinion of the legal counsel, the Bank is confident about the favourable outcome of this matter and hence, no provision against any additional pension obligation is made in the financial statements. Our opinion is not qualified in this respect

NBP Leasing Limited

During the year, the SBP sanctioned the Scheme of Amalgamation of the NBP Leasing Limited with and into the Bank, under Section 48 of Banking Companies Ordinance 1962 vide its letter No. BPRD (R&P-02)/NBP/2017/16298, dated July 12, 2017.

As per the Scheme of Amalgamation, all the assets, liabilities and obligations of NBP Leasing Limited have, as at the Effective Date i.e. July 31, 2017, been merged with, transferred to, vested in, and assumed by the Bank, and NBP Leasing Limited is dissolved without winding-up. Further as per the Scheme, the surviving entity is National Bank of Pakistan and therefore, the entire undertaking and business of NBP Leasing Limited has vested in and continued under the operations of National Bank of Pakistan. Accordingly, these financial statement include standalone results of operations of NBP Leasing Limited till 31 July 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

1.2 BASIS OF CONSOLIDATION

- The consolidated financial statements include the financial statements of the Bank (holding company) and its subsidiary companies together - "the Group".
- Subsidiary companies are fully consolidated from the date on which more than 50% of voting rights are transferred to the Group or power to control the company is established and excluded from consolidation from the date of disposal or when the control is lost.
- The assets, liabilities, income and expenses of subsidiary companies have been consolidated on a line by line basis.
- Income and expenses of subsidiaries acquired during the year are included in the consolidated statement of the comprehensive income from the effective date of acquisition.
- Non-Controlling interest / (minority interest) in equity of the subsidiary companies are measured at fair value for all the subsidiaries acquired from period beginning on or after January 1, 2010 whereas minority interest of previously acquired subsidiaries are measured at the proportionate net assets of subsidiary companies attributable to interest which is not owned by holding company.
- Material intra-group balances and transactions have been eliminated.

2. BASIS OF PRESENTATION

2.1 In accordance with the directives of the Federal Government of Pakistan regarding shifting of banking system to Islamic modes, the SBP has issued various circulars from time to time. Permissible form of trade related mode of financing includes purchase of goods by the Bank from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

Key financial figures of the Islamic banking branches of the Bank have been disclosed in note 42 of these financial statements.

2.2 The US Dollar amounts shown on the statement of financial position, profit and loss account, statement of comprehensive income and cash flow statement are stated as additional information solely for the convenience of readers. For the purpose of conversion to US Dollars, the rate of Rs. 110.4172 to 1 US Dollar has been used for 2016 and 2017 as it was the prevalent rate as on December 31, 2017.

3. STATEMENT OF COMPLIANCE

3.1 These consolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board and Islamic Financial Accounting Standards (IFASs) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Ordinance, 1984 (repealed - note 3.1.1), the provisions of and directives issued under the Companies Ordinance, 1984 (repealed - note 3.1.1), and the Banking Companies Ordinance, 1962 and directives issued by the State Bank of Pakistan (SBP) and Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Companies Ordinance, 1984 (repealed - note 3.1.1), the Banking Companies Ordinance, 1962 or directives issued by SBP or SECP differ with the requirements of IFRSs or IFASs, the requirements of the Companies Ordinance 1984 (repealed - note 3.1.1), the Banking Companies Ordinance, 1962 or the requirements of the said directives shall prevail.

3.1.1 The Companies Ordinance, 1984 has been repealed after the enactment of Companies Act, 2017. However, as allowed by the SECP vide its circular dated October 04, 2017, these unconsolidated financial statements have been prepared in accordance with the provisions of the repealed Companies Ordinance, 1984.

3.2 SBP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002. Further, according to the notification of SECP dated April 28, 2008, the IFRS - 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

3.3 Application of new and revised International Financial Reporting Standards (IFRSs)

New Standards, Interpretations and Amendments

The Group has adopted the following accounting standard and the amendments and interpretation of IFRSs which became effective for the current year:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Standard or Interpretation

IAS 7 - Statement of Cashflows: Disclosures - Disclosure Initiative - (Amendment)

IAS 12 - Income Taxes – Recognition of Deferred Tax Assets for Unrealized

Improvements to Accounting Standards Issued by the IASB in September 2014

IFRS 12 - Disclosure of Interests in Other Entities - Clarification of the scope of the disclosure requirements in IFRS 12

The adoption of the above amendments, improvements to accounting standards and interpretations did not have any effect on the financial statements.

3.4 New and revised approved accounting standards not yet effective

The following standards, amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standard or interpretation:

Standard or Interpretation	Effective date (annual periods beginning on or after)
IFRS 2 – Share-based Payments – Classification and Measurement of Share-based Payments Transactions (Amendments)	01 January 2018
IFRS 10 – Consolidated Financial Statements and IAS 28 Investment in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendment)	Not yet finalized
IFRS 4 – Insurance Contracts: Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts – (Amendments)	01 January 2018
IAS 40 – Investment Property: Transfers of Investment Property (Amendments)	01 January 2018
IFRS 9 – Financial Instruments: Classification and Measurement	01 July 2018
IFRS 9 – Prepayment Features with Negative Compensation – (Amendments)	01 January 2019
IFRS 15 – Revenue from Contracts with Customers	01 January 2018
IFRIC 22 – Foreign Currency Transactions and Advance Consideration	01 July 2018
IFRIC 23 – Uncertainty over Income Tax Treatments	01 January 2019

The above standards, amendments and interpretations are not expected to have any material impact on the Group's financial statements in the period of initial application. With regard to IFRS -9, the Group considers that as the Prudential Regulations and other SBP directives currently provide the accounting framework for the measurement and valuation of investments and provision against non performing financings, the implementation of IFRS-9 may require changes in the regulatory regime. Therefore, the Group expects that the SBP would issue suitable guidance and instruction on the application of IFRS-9 for the banking sector of Pakistan.

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB in December 2016 and December 2017. Such improvements are generally effective for accounting periods beginning on or after 01 January 2018 and 01 January 2019. The Group expects that such improvements to the standards will not have any impact on the Bank's financial statements in the period of initial application.

Further, following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standard	IASB Effective date (annual periods beginning on or after)
IFRS 14 – Regulatory Deferral Accounts	01 January 2016
IFRS 16 – Leases	01 January 2019
IFRS 17 – Insurance Contracts	01 January 2021

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

4. BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except for revaluation of land and buildings and non-banking assets acquired in satisfaction of claims which are stated at revalued amount and certain investments and derivative financial instruments that are carried at fair value. In addition, obligations in respect of defined benefit plan are carried at present value.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous financial year.

5.1 Business Combination

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the bank, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the bank in exchange for control of the acquiree. Acquisition-related costs are recognised in profit and loss account as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the Group's net assets in the event of liquidation is measured at fair value at the date of the acquisition.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit or loss account.

5.2 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the subsidiary company.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or entities of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit and loss account. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

5.3 Cash and cash equivalents

Cash and cash equivalents include cash and balances with treasury banks and balances with other banks in current and deposit accounts and call money lendings, less call money borrowings and overdrawn nostro accounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5.4 Investments

Investments other than those categorised as held-for-trading are initially recognised at fair value which includes transactions costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the profit and loss account.

All regular way purchases / sales of investments are recognised on the trade date, i.e., the date the Bank commits to purchase / sell the investments. Regular way purchases or sales of investments require delivery of securities within the time frame generally established by regulation or convention in the market place.

The Group has classified its investment portfolio, except for investment in subsidiaries, associates and joint venture, into held-for-trading, held-to maturity and available-for-sale as follows:

- Held-for-trading – These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within 90 days. These are carried at market value, with the related unrealized gain / (loss) on revaluation being taken to profit and loss account.
- Held-to-maturity – These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.
- Available-for-sale – These are investments that do not fall under the held-for-trading or held-to-maturity categories. These are carried at market value except in case of unquoted securities where market value is not available, which are carried at cost less provision for diminution in value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account shown below equity. Provision for diminution in value of investments in respect of unquoted shares is calculated with reference to book value of the same. On derecognition or impairment in quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of assets' below equity is included in the profit and loss account for the period.

Provision for diminution in value of investments in unquoted debt securities is calculated as per the SBP's Prudential Regulations.

Held-for-trading and quoted available-for-sale securities are marked to market with reference to ready quotes on Reuters page (PKRV / PKISRV) or MUFAP or the Stock Exchanges, as the case may be.

Associates – Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for under the equity method of accounting. However, in case where associates are considered as fully impaired and financial statements are not available these investments are stated at cost less provision.

Under the equity method, the Group's share of its associates' post-acquisition profits or losses is recognized in the consolidated profit and loss account, its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

Joint venture – The Group has interests in joint venture which is jointly controlled entity. A joint venture is contractual arrangement whereby two or more parties undertake in economic activity that is subject to a joint control and includes a jointly controlled entity that involves the establishment of separate entity in which each venturer has an interest. The Group accounts for its interest in joint venture using the equity method of accounting.

The carrying values of investments are reviewed for impairment when indications exist that the carrying value may exceed the estimated recoverable amount. Provision is made for impairment in value, if any.

5.5 Repurchase and resale agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective yield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Bank does not obtain control over the securities. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5.6 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the dates on which the derivative contracts are entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative instruments is taken to the profit and loss account.

5.7 Financial instruments

All financial assets and financial liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. A financial asset is derecognised where (a) the rights to receive cash flows from the asset have expired; or (b) the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Group has transferred substantially all the risks and rewards of the asset, or (ii) the Group has neither transferred nor retained substantially all the risk and rewards of the asset, but has transferred control of the asset. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to income currently.

5.8 Advances

Advances are stated net of specific and general provisions. Provisions are made in accordance with the requirements of Prudential Regulations issued by the SBP and charged to the profit and loss account. These regulations prescribe an age based criteria (as supplemented by subjective evaluation of advances by the banks) for classification of non-performing loans and advances and computing provision / allowance there against. Such regulations also require the Group to maintain general provision / allowance against consumer and SME advances at specified percentage of such portfolio. General provision for loan losses of overseas branches is made as per the requirements of the respective central banks. Advances are written off where there are no realistic prospects of recovery.

5.9 Operating fixed assets and depreciation

Property and equipment

Owned assets

Property and equipment except land and buildings are stated at cost less accumulated depreciation and impairment losses, if any. Land is stated at revalued amount. Buildings are stated at revalued amount less accumulated depreciation and impairment, if any. Cost of operating fixed assets of foreign branches include exchange differences arising on translation at year-end rates. Depreciation is charged to profit and loss account applying the straight line method except buildings, which are depreciated on diminishing balance method at the rates stated in note 11.2. Depreciation is charged from the month in which the assets are brought into use and no depreciation is charged for the month the assets are deleted.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit and loss account during the period in which they are incurred.

Assets are derecognised when disposed off or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of property and equipment are included in profit and loss account currently.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

Land and buildings' valuations are carried out by professionally qualified valuers with sufficient regularity to ensure that their carrying amount does not differ materially from their fair value.

The surplus arising on revaluation of fixed assets is credited to the "Surplus on Revaluation of Assets account" shown below equity. The Bank has adopted the following accounting treatment of depreciation on revalued assets, keeping in view the requirements of the Companies Ordinance, 1984 and SECP's SRO 45(1)/2003 dated January 13, 2003:

- depreciation on assets which are revalued is determined with reference to the value assigned to such assets on revaluation and depreciation charge for the year is taken to the profit and loss account; and
- an amount equal to incremental depreciation for the year net of deferred taxation is transferred from "Surplus on Revaluation of Fixed Assets account" to unappropriated profit through statement of changes in equity to record realization of surplus to the extent of the incremental depreciation charge for the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Leased assets (as lessee)

Assets subject to finance lease are accounted for by recording the asset and the related liability. These are recorded at lower of fair value and the present value of minimum lease payments at the inception of lease and subsequently stated net of accumulated depreciation. Depreciation is charged on the basis similar to the owned assets. Financial charges are allocated over the period of lease term so as to provide a constant periodic rate of financial charge on the outstanding liability.

Ijarah (as lessor)

Assets leased out under 'Ijarah' are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Assets under Ijarah are depreciated over the period of lease term. However, in the event the asset is expected to be available for re-Ijarah, depreciation is charged over the economic life of the asset using straight line basis.

Ijarah income is recognised on a straight line basis over the period of Ijarah contract.

Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses, if any. Amortization is charged to income applying the straight-line method at the rates stated in note 11.3. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful life are carried at cost less impairment losses, if any.

Capital work-in-progress

Capital work-in-progress is stated at cost. These are transferred to specific assets as and when assets are available for use.

Impairment

The carrying values of operating fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, operating fixed assets are written down to their recoverable amounts.

The resulting impairment loss is taken to profit and loss account except for impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of assets. Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the amount which would have been determined had there been no impairment. Reversal of impairment loss is recognized as income.

5.10 Non-banking assets acquired in satisfaction of claims

In accordance with the requirements of the 'Regulations for Debt Property Swap' (the regulations) issued by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016, the non-banking assets are carried at revalued amounts less accumulated depreciation. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation is credited to the 'surplus on revaluation of fixed assets' account and any deficit arising on revaluation is taken to the profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalised.

5.11 Deposits and their cost

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective yield method.

5.12 Taxation

Current

Provision of current taxation is based on taxable income for the year determined in accordance with the prevailing laws of taxation on income earned for local as well as foreign operations, as applicable to the respective jurisdictions. The charge for the current tax also includes adjustments wherever considered necessary relating to prior years, arising from assessments framed during the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Deferred

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilised. Deferred tax is not recognised on differences relating to investment in subsidiaries, branches and associates and interest in joint arrangements to the extent the deductible temporary difference probably will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit or deductible temporary differences will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to gain / loss recognized in surplus on revaluation of assets is charged / credited to such account.

5.13 Employee benefits

5.13.1 Defined benefit plans

The Group operates an approved funded pension scheme, an un-funded post retirement medical benefits scheme and an un-funded benevolent scheme for its eligible employees. The Group also operates an un-funded gratuity scheme for its eligible contractual employees. An actuarial valuation of all defined benefit schemes is conducted every year. The valuation uses the Projected Unit Credit method. Remeasurements of the net defined benefit liability / assets which comprise actuarial gains and losses, return on plan assets (excluding interest) and the effect of asset ceiling (if any, excluding interest) are recognized immediately in other comprehensive income. Past-service costs are recognized immediately in profit and loss account when the plan amendment occurs.

5.13.2 Other employee benefits

Employees' compensated absences

The Group also makes provision in the financial statements for its liability towards compensated absences. This liability is estimated on the basis of actuarial advice under the Projected Unit Credit method.

5.13.3 Defined contribution plan

The Group also operates an approved funded provident fund scheme covering all its employees. Equal monthly contributions are made by the Group and employees to the fund in accordance with the fund rules.

5.13.4 Retirement and other benefit obligations - In respect of CJSC Subsidiary Bank of NBP in Kazakhstan (CJSC)

The CJSC withholds amounts of pension contributions from employee salaries and pays them to state pension fund. The requirements of the Kazakhstan's legislation state pension system provides for the calculation of current payments by the employer as a percentage of current total payments to staff. This expense is charged in the period the related salaries are earned. Upon retirement all retirement benefit payments are made by pension funds selected by employees.

5.14 Revenue recognition

Income on loans and advances and debt security investments are recognized on a time proportion basis that takes into account effective yield on the asset. In case of advances and investments classified under the Prudential Regulations, interest / mark-up is recognized on receipt basis.

Interest / mark-up on rescheduled / restructured advances and investments is recognized in accordance with the Prudential Regulations of SBP.

Fee, brokerage and commission income other than commission on letter of credit and guarantees and remuneration for trustee services are recognized upon performance of services.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Commission on letters of credit and guarantees is recognized on time proportion basis.

Dividend income on equity investments and mutual funds is recognized when right to receive is established.

Premium or discount on debt securities classified as held-for-trading, available-for-sale and held-to-maturity securities is amortised using the effective interest method and taken to profit and loss account.

Gains and losses on disposal of investments and operating fixed assets are dealt with through the profit and loss account in the year in which they arise.

The Group follows the 'financing method' in accounting for recognition of finance lease. At the commencement of a lease, the total unearned finance income i.e. the excess of aggregate installment contract receivables plus residual value over the cost of the leased asset is amortized over the term of the lease, applying the annuity method, so as to produce a constant periodic rate of return on the net investment in finance leases. Initial direct costs are deferred and amortized over the lease term as a yield adjustment.

Processing, front end and commitment fees and commission are recognized as income when received.

Rental income from operating leases / Ijarah is recognized on a straight-line basis over the term of the relevant lease.

Profit on trading and revaluation of financial instruments is recognised on trade date basis and is taken to profit and loss account.

5.15 Net investment in lease finance

Leases where the Group transfers substantially all the risk and rewards incidental to ownership of the assets to the lessee are classified as finance leases. Net investment in lease finance is recognised at an amount equal to the aggregate of minimum lease payment including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

5.16 Foreign currencies translation

The Group's financial statements are presented in Pak Rupees (Rs.) which is the Group's functional and presentation currency.

Foreign currency transactions are converted into Rupees applying the exchange rate at the date of the respective transactions. Monetary assets and liabilities in foreign currencies and assets / liabilities of foreign branches are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange contracts are valued at the rates applicable to their respective maturities. All gains or losses on dealing in foreign currencies are taken to profit and loss account currently.

Profit and loss account balances of foreign branches and subsidiaries are translated at average exchange rate prevailing during the year. Gains and losses on translation are included in the profit and loss account except gain / losses arising on translation of net assets of foreign branches and subsidiaries, which is credited to other comprehensive income.

Items included in the consolidated financial statements of the Group's foreign branches and subsidiaries are measured using the currency of the primary economic environment in which the Group operates (the functional currency).

Commitments for outstanding forward foreign exchange contracts are disclosed in these financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange ruling on the consolidated financial position date.

5.17 Provision for off balance sheet obligations

Provision for guarantees, claims and other off balance sheet obligations is made when the Group has legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of amount can be made. Charge to profit and loss account is stated net of expected recoveries.

5.18 Off setting

Financial assets and financial liabilities are only set off and the net amount is reported in the financial statements when there is a legally enforceable right to set off and the Group intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

5.19 Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Group in the consolidated statement of financial position.

5.20 Dividend and other appropriations

Dividend and appropriation to reserves, except appropriation which are required by the law, are recognised as liability in the Group's consolidated financial statements in the year in which these are approved.

5.21 Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any. There were no dilutive potential ordinary shares in issue at December 31, 2017.

5.22 Related party transactions

Transactions between the Group and its related parties are carried out on an arm's length basis other than pension fund and other staff loans.

5.23 Accounting estimates and judgments

The preparation of consolidated financial statements in conformity with Approved Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. The estimates / judgments and associated assumptions used in the preparation of the financial statements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key areas of estimates and judgments in relation to these financial statements are as follows:

a) Provision against non-performing advances

The Group reviews its loan portfolio to assess amount of non-performing loans and determine provision required there against on a quarterly basis. While assessing this requirement various factors including the past dues, delinquency in the account, financial position and future business / financial plan of the borrower, value of collateral held and requirements of Prudential Regulations are considered. The Group also considers the effect of Forced Sale Value of collaterals in determining the amount of provision, however, no benefit of FSV of collateral is taken during the year in determining provisioning amount against non-performing advances of the Bank.

General provision for loan losses of overseas branches is made as per the requirements of the respective central banks.

The amount of general provision against domestic consumer and SME advances is determined in accordance with the relevant Prudential Regulations and SBP directives.

In addition, the Bank has also made general provision in respect of its corporate portfolio on prudent basis. This general provision is in addition to the requirements of 'Prudential' Regulations.

b) Fair value of derivatives

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest and exchange rates over the term of the contract.

c) Impairment of Available-for-sale investments

The Group considers that available-for-sale equity investments and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost except for investments where relaxation has been allowed by SBP. This determination of what is significant or prolonged requires judgment. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

Further the Group has developed internal criteria according to which a decline of 30% in the market value of any scrip below its cost shall constitute as a significant decline and where market value remains below the cost for a period of one year shall constitute as a prolonged decline.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

d) Held-to-maturity investments

The Group follows the guidance provided in the SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. In making this judgment, the Group evaluates its intention and ability to hold such investments till maturity.

e) Income taxes

In making the estimates for current and deferred taxes, the management looks at the income tax law and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Group's view differs with the view taken by the income tax department and such amounts are shown as contingent liability.

f) Operating fixed assets, depreciation and amortization

In making estimates of the depreciation / amortization method, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Group. The method applied is reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the method would be changed to reflect the change in pattern.

The Group also revalues its properties on a periodic basis. Such revaluations are carried out by independent valuer and involves estimates / assumptions and various market factors and conditions.

g) Employee benefit plans

The liabilities for employees' benefits plans are determined using actuarial valuations. The actuarial valuations involve assumptions about discount rates, expected rates of return on assets, future salary increases, future inflation rates and future pension increases as disclosed in note 34. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

h) Provision against contingencies

Provision against contingencies is determined based on the management judgement regarding the probability of future out flows of resources embodying economic benefits to settle an obligation arising from past events.

i) Determination of control over investees

The Group's management applies its judgement to determine whether the control exists over the investee entities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

- 10.5.1** As of 31 December 2017, the Group has not availed the benefit of Forced Sale Value (FSV) of collaterals against non-performing advances.
- 10.5.2** The SBP has allowed specific relaxation to the Bank for non-classification of overdue loans of certain Public Sector Entities (PSEs) which are guaranteed by Government of Pakistan as non-performing loans up till December 31, 2017.
- 10.5.3** These represent non-performing advances for agriculture finance which have been classified as loss and fully provided for more than 3 years. These non-performing advances have been charged off by extinguishing them against the provision held in accordance with Prudential Regulations for Agriculture Financing issued by the SBP. This charge off does not, in any way, prejudice the Bank's right of recovery from these customers.

19.4 Reserves

19.4.1 Exchange translation reserve

This comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

19.4.2 Statutory reserve

Every bank incorporated in Pakistan is required to transfer 20% of their profits to a statutory reserve until the reserve equals share capital, thereafter 10% of the profits of the Group are to be transferred to this reserve.

19.4.3 General loan loss reserve

The Group is cognizant of the fact that a part of its credit or loan portfolio (funded and non-funded) which is not currently impaired as per the applicable Prudential Regulations is underperforming and therefore the potential for risk of credit losses on this part of portfolio is higher than the usual risk. Therefore, as a matter of abundant caution and in order to protect the equity base of the Group from future contingencies in respect of the credit portfolio, the Board of Directors in their meeting held on April 29, 2015 decided to transfer an aggregate amount of Rs. 12 billion from the unappropriated profits to a "General Reserve for potential loan losses". This appropriation has been made on the basis of the management's best estimates and judgment regarding the inherent portfolio risks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

21.4.2 Taxation

The tax returns of the Group have been filed upto Tax Year 2017 and amended by the tax authorities up to Tax Year 2016. For Azad Kashmir and Gilgit Baltistan Branches no amendment to returns filed u/s 120 of the Income Tax Ordinance, 2001 has been made, hence returns filed are deemed assessments for all the years till the tax year 2017.

- a) During the year, the tax authorities finalized amendment proceedings under section 122(5A) of the Income Tax Ordinance, 2001 for the tax year 2016 and raised net of rectification demand of Rs. 2.033 billion in its order passed under section 221/122(5A)/124(A) of the Ordinance which has been paid and the bank has preferred appeals before the Commissioner Inland Revenue Appeals which is pending.
- b) Against ATIR orders for the Tax Years 2008 to 2010, the Group has obtained appeal effect orders which has resulted in increase in determined refunds by Rs 4.036 billion and prior year tax reversal of Rs 748 million.
- c) The other matters under tax contingencies include interest credited to suspense account, allocation of common expenditure between taxable income and exempt / low tax rate income and reversal of bad debts expense. The aggregate effect of contingencies as on December 31, 2017 amounts to Rs.14.2 billion (December 31, 2016: Rs. 14.7 billion). No provision has been made against these contingencies based on the opinion of tax consultants of the Bank who expect favourable outcome upon decision of pending appeals.
- d) Through Finance Act, 2015, for tax year 2015 and onwards, income from Dividend and income from Capital Gains taxed at the rate of thirty five percent. As the chargeability of tax imposed was retrospective from the tax year 2015, therefore, on legal grounds, the Group filed Constitution Petition (CP) before the Honourable High Court of Sindh which is pending. However, last year the Honourable High Court of Sindh has given favourable judgement on the same issue in other case against which the department has filed appeal before Supreme Court of Pakistan. The Group has made the provision on prudent basis.
- e) The Sindh Workers Welfare Fund Act, 2015 (Sindh WWF Act) has been promulgated in the month of May 2015. Earlier as per the Workers Welfare Fund Ordinance, 1971, the Bank in which Government holds more than 51% shareholding remained exempt from levy of WWF. The Sindh WWF Act, 2015 is retrospective in its effect and it attempts to impose levy from the date even prior to its promulgation. As the chargeability of tax imposed is retrospective and the law is defective considering constitutional issues – Fee or Tax including geographical / territorial jurisdiction for bank operating in all the provinces of Pakistan as well as the Bank employees do not fall in the definition of workers, therefore, on legal grounds against the said levy bank has decided to file suit before Honourable High Court of Sindh.
- f) In case of Sales Tax / FED, appeals have been filed before various appellate forums including reference and constitutional petitions before the High Court of Sindh; wherein apart from other legal grounds, the principal ground is levy of duty on service which are not specified in the First Schedule to the Customs Act, 1969 and specially for Tax year 2011 levy of duty by FBR on services provided in province of Sindh after promulgation of Sindh Sales Tax on Services Act, 2011.
- g) The Group has filed an Appeal before the Commissioner Appeals SRB on the order passed by Assistant Commissioner SRB for levy of Sindh Sales Tax on the services provided to the Federal Government through the State Bank of Pakistan for the tax period July 2011 till March 2015 amounting to Rs.358.28 million based on data provided by SBP. No provision has been made for this amount in these financial statements based on the opinion of Tax Consultants of the Group who expect favorable outcome upon decision of filed Appeal.

21.4.3 Barter Trade Agreements

In order to reduce pressure on the balance of payment, the GoP had entered into barter trade agreements with various countries and designated the Group to handle the related transactions on behalf of GoP. Accordingly, the Group executed banking arrangements with the designated banks of these countries and opened accounts in their names. In one of the barter agreement, repayments made to the Group by the GoP could not be utilized due to non-finalization of Letter of Exchange for its utilization after 1994 at Government level, which was required under the relevant barter agreement. The concerned bank is now demanding payment of interest on the balances in its accounts with the Group. Since these balances are maintained in current accounts and there is also no clause for payment of any interest in the relevant banking arrangement, therefore the Group has strongly refused such claims.

21.4.4 Contingencies in respect of employees benefits and related matters

The following are the detail of the contingencies arising out of the various legal cases pending adjudication in respect of employees' benefits and related matters. The Group considers that except for Pensionary benefits (note 21.4.4.1) and Restoration of Commuted Pension (note 21.4.4.4), the financial impact of other matters is impracticable to determine with sufficient reliability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

21.4.4.1 Pensionary benefits to retired employees

In 1977 the Federal Govt. vide letter No. 17 (9) 17 XI / 77 dated November 30, 1977 addressed to the Pakistan Banking Council, directed that all executives/ officers of all nationalized banks would be paid pension as calculated @ 70% of average emoluments on completion of 30 years of qualifying service and where qualifying service was less than 30 years but not less than 10 years, proportionate reduction in percentage was to be made. This pension scheme was made applicable with effect from May 01, 1977.

In the year 1997, the Banks Nationalization Act, 1974 ("BNA, 1974") was substantially amended whereby the Pakistan Banking Council was dissolved and the Board of Directors of the nationalized banks were empowered / mandated respectively to determine personnel policies with the President of the Group deciding the remuneration and benefits of the employees in accordance with policies determined by the Board. In the year 1999, by virtue of the said amendments in BNA, the Board of Directors of the Group approved the Revised Pay Structure for the officers / executives of the bank with effect from January 01, 1999 vide Circular No.37/1999, whereby the Basic salary was increased by 110% to 140% and besides giving multifarious benefits to its employees, formula for monthly gross pension was revised. However, the amount of gross pension on the basis of existing Basic Pay and existing formula was protected.

A number of bank's employees, after attaining the age of superannuation filed Writ Petitions before the Lahore High Court and the Peshawar High Court, praying for re-calculation of their pensionary benefits and increases in accordance with the Bank circular No. 228 (C) dated December 26, 1977 and furthermore, for allowing the increases in their pension as per the increases allowed by the Federal Government to its employees. This litigation started in the year 2010 & 2011.

The Peshawar High Court, in terms of judgment dated June 03, 2014, dismissed the petition while observing that the petition was hit by laches and that the Petitioners could not claim the benefits granted to the similarly placed employees of other institutions who were governed through different Statutes and Service Rules.

Lahore High Court, vide its judgment dated January 15, 2016, allowed the Writ Petitions on the same matter and the Group was directed to release the pensionary benefits of the Petitioners. The said order was assailed by the Bank by filing Intra Court Appeals in January 2016 which were dismissed by Lahore High Court, Lahore, through its judgment dated January 16, 2017. The Group assailed the said judgment by filing appeals in the Supreme Court of Pakistan.

The Honorable Supreme Court of Pakistan after hearing the arguments of both Parties, vide its judgement dated September 25, 2017 has upheld the decision of a Division Bench of the Lahore High Court on the contention of increase in Bank's employees' pension , thereby instructing the Bank to give pension benefits to its employees in the light of Head Office Instruction Circular No. 228 (c) of 1977. Under this Circular, the pension of employees was to be calculated @ 70% of average emoluments upon completion of minimum qualifying service requirement, besides requiring the Bank to follow subsequent revisions in pension scheme and rates granted by the Federal Government to civil servants from time to time as well.

The Group has filed Review petitions against the aforesaid judgment of the Honorable Supreme Court of Pakistan and also made an application for constitution of larger bench of the Supreme Court to hear the Review petition, which has been accepted. As advised by our legal counsels, the Group considers that due to conflicting decision of the other bench of the Supreme Court in a case which, in all material facts and circumstances, is identical to the Group's case and various other legal infirmities in the judgement as highlighted by the Group in its Review Petition. The Group has a reasonably strong case on merits to convince the Supreme Court for reversal of its decision.

In case this matter is decided unfavorably, the bank estimates based on the actuarial advice that the financial impact arising from the additional liability would be approximately Rs. 54.3 billion excluding any penal interest/ profit payment due to delayed payment in case of unfavorable decision. Pension expense for 2018 onward will also increase by Rs 7.5 billion due to this decision. No provision has been made in these financial statements for the above-mentioned amount as the Bank is confident about the favorable outcome of the matter.

21.4.4.2 Encashment of unavailed leave

Some of the employees of the Group filed Writ Petitions before Lahore High Court after their retirement, in September 2012, praying the Court for issuance of directions to the bank for encashing their entire un-availed leave balance frozen in terms of Bank's Circular 37/1999 and 57/ 1999.

The Group revised rules of leave encashment with effect from January 1, 1999. As per revised rules, leave balances accumulated under old rules were marked as "Frozen Leave" to differentiate it with subsequent leaves to be accumulated. There was no bar on employees to avail these leaves, which would lapse on retirement.

The Lahore High Court dismissed the petitions of the subject ex-employees in April 2014 while observing that claim of the petitioners was hit by laches as the Petitions were filed in the year 2012 and that all the petitioners filed the petitions after having availed all retirement benefits when all outstanding dues were paid at the time of retirement at which point no claim for any amount was made. The Petitioners have filed Intra Court appeals against the aforesaid judgment which were dismissed by the Lahore High Court, Lahore.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Another Constitution Petition No. D-3445/ 2012 titled as Iffat Aara Hassan & others vs. NBP etc. filed before the High Court, of Sindh, Karachi, on the matter was dismissed by a Division Bench vide order dated January 11, 2017, while concluding that the issue which was subject matter of the Petition was passed and closed transaction, hence, the same could not be agitated through this Constitution Petition.

The Group has not received so far any notices in respect of appeal(s) (if any) filed by the petitioners.

21.4.4.3 Post retirement medical facilities

On 14 March 1995, on the instructions of Pakistan Banking Council, the Bank issued Circular No. 19/95, in terms of which the Bank was to provide relief to the retired employees by way of increase in medical ceiling on the increase in salary. It was decided that the Bank would re-determine the monetary ceiling of retired officers/executives after every revision of pay scale on the basis of notional re-fixation in revised scale on point to point basis. In 2003 two retired employees moved Federal Service Tribunal for increase of post-retirement medical ceiling in the light of the said Circular. The Bank contested the case but a representative of Establishment Division stated before the FST that Bank had adopted the said Circular and the two appeals were accepted by the FST. The Bank's appeals before the Supreme Court failed and even review petitions were dismissed.

Later on in September, 2011 Ch. Muhammad Qasim and 5 others who had opted for separation from service under GHS / VHS filed writ petition for availing similar relief of post-retirement medical ceiling while citing the respective judgments of the FST and Supreme Court. The Group contested the writ petition on the Grounds that the petitioners had opted for separation from the service of the Group under GHS AND VHS after receiving payment of compensation as contemplated under the said Schemes. With regard to medical ceiling for such persons who had opted voluntarily, it was contended by the Group before the Court that option was given to such employees either to accept the present medical ceiling for 10 years in lump sum or to continue with the present payment as if they had retired on attaining the age of superannuation. The petitioners had opted for continuing with the present ceiling as prevalent at the time of the separation scheme therefore they were not entitled for any benefit under the said circular. It was also urged by the Group that in view of judgment of Apex Court in Naseem Arif Abbasi case, the petitioners, after having signed a disclaimer at the time of receipt of benefits under GHS, were not entitled to any further payment. The high court while disregarding these arguments allowed the Writ Petition. The Group has filed an ICA against the order of the single bench which is still pending adjudication.

21.4.4.4 Restoration of Commuted Pension

The portion of pension of an employee commuted at the time of retirement is restored after the lapse of period for which the commutation was made. However that restoration is made without applying any increase granted in pension during that period. Some of the retired employees filed writ petitions before Lahore High Court while praying for restoration of the commuted portion of their pension with application of all the increments granted during the period for which the pension was commuted.

In one of such writ petitions, the Honorable Lahore High Court, without issuing notices to the Group disposed of the same vide order dated January 13, 2015 while observing that the Petitioner was also entitled to be treated at par with the pensioners whose cases had already been decided in a case titled as "Additional Accountant General Pakistan Revenue, Lahore vs. A.A.Zuberi" which had attained finality up to the level of Supreme Court of Pakistan

The judgment referred in the case was decided by a Division Bench of Lahore High Court in which restoration of pension after period of commutation was directed to be allowed at the rate prevailing at the time of restoration and not at the rate of pension prevailing at the time of commutation. Against the said order, the bank has filed an Intra Court Appeal as the matter was decided without summoning the bank. Our main argument is that A.A. Zubari's judgment pertains to Civil servants and the Bank employees are not civil servants. The case was remanded back to the single bench for a fresh decision after hearing the Bank. The single bench again decided the matter against the Bank vide order dated April 14, 2017 which has been assailed by the Bank through an Intra Court Appeal. The matter is still pending adjudication.

21.4.4.5 Regularizing of temporary hires/outsourced workers

The Petitioners in these Petitions/ Appeals, filed for regularization of services, were either allegedly engaged by the Group purely on temporary basis on Borrowers' accounts as Godown keepers or Godown chowkidars for watching the pledged stocks of the Borrowers or they were deployed at various Bank premises by the Service Provider Companies, under outsourcing arrangements, as per the SBP Policy, for non-core jobs. Litigation in respect of temporary Godown keepers/Godown chowkidars was started in the year 2001-2002. Subsequently in terms of President office circular No. 10/2003 dated August 1, 2003 a formula was evolved that if such temporary employees had completed three years' service as on the date of the circular with breaks of not more than 15 days, they would be eligible for the absorption on regular bases (with certain other conditions). Subsequently the FST while accepting the appeals of the temporary hires adopted almost the same criterion as given in the said circular. The honorable Supreme court also upheld the decision of the FST (2005 SCMR 100). The Group had obtained permission from Government to absorb 1500 godown staff in the Group. All who fulfilled the criteria were absorbed.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Some Petitions are still pending adjudication in terms of which the Petitioners have sought regularization of service in terms of the Ikram Bari judgment.

Under the SBP Guidelines, in terms of a policy decision the Group outsourced certain noncore jobs to various service provider companies after entering into contract with them. The sources deployed by the service provider companies are actually their employees and the said companies have the sole administrative control over those resources. However some of those resources filed writ petitions before various benches of High Courts and NIRC while praying for issuance of directions to the Group for absorbing them in the regular service of the Group while alleging that actually they were employees of the Group. Petitions filed before the Peshawar High Court, Abbotabad and Mardan Bench were allowed. Appeals filed by the Bank before the honorable Supreme Court of Pakistan against the order of the Peshawar High Court, Abbotabad Bench were disposed of on March 3, 2016 and the Group was directed to decide the cases of the Respondents after engaging them through personal hearings. Subsequently all the Respondents who had been hired through a service provider company (80 in numbers) were heard in person and their cases for regularization in Group's service were declined through speaking orders duly communicated to them. The Petitioners filed contempt petitions before the honorable Supreme court and the matter was decided in their favor. The Group's respective Review Petition was also dismissed and services of all those Petitioners were regularized.

Appeal filed by the Group against the order of Peshawar High Court, Mardan Bench in the matter of Mr. Talimand and 23 others was dismissed by the honorable Supreme Court of Pakistan vide order dated May 25, 2016 and Bank was directed to regularize all the Respondents in Group's service. The Review Petition was also dismissed and the Bank had to regularize the services of all those Petitioners.

Moreover in August 2016, some service provider companies terminated the services of some resources deployed at various Bank Branches/offices. Almost all of those employees (around 150 in number) have filed petitions before various benches of NIRC for their absorption in Bank's service.

Vide order dated October 26, 2015, the Honorable Balochistan High Court, Quetta, dismissed CP No.201/12 filed by one Mr. Abdul Ghafoor and 10 others for regularization of their services. The said order was assailed by the Petitioners before the Apex court vide CP No.3724/2015 (CA No.1496/17) which was allowed along with CMA No.7903/16, 3474/17 and 4154/17 filed by 193 other such employees deployed at various premises of NBP in different Regions. The Group has filed Review Petitions against the said judgment which was fixed on January 25, 2018. The honorable Court asked the respondents to file comments to our Review Petitions. The said order is hopefully to be reviewed to the extent of CMAs.

The Peshawar High Court has allowed 12 more Writ Petitions involving 59 Petitioners, with directions to regularize their services. The Group has assailed the subject orders before the Apex Court through Mr. Naeem Bukhari ASC and Khawaja Muhammad Farooq Mehta Sr. ASC which are yet to be fixed for hearing.

The Group believes that the financial impact of this matter is not expected to be material.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

21.4.4.6 Golden Handshake (GHS)

The Group had introduced the Golden Shake Hand Schemes in 1997 with a cut-off date however some of the employees who had opted for separation under the said scheme were not relieved on the said date and continued to perform duties. Subsequently some of those employees filed Petitions before various high courts regarding payment of certain pensionary benefits. Most of the cases have been disposed of on the basis of Apex Court judgment in Naseem Arif Abbasi case (2011 SCMR 446). There are still some pending Petitions however keeping in view the said Judgment prima facie the Group has a good case.

21.5 Foreign Exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporter namely: M/S Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has also adjudicated penalty of Rs. 1,020 million, arbitrarily on the Group. The Group has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgments. The Honorable High Court has granted relief to the Group by way of interim orders. Based on merits of the appeals management is confident that these appeals shall be decided in favor of the Group and therefore no provision has been made against the impugned penalty.

21.6 Compliance and risk matters relating to anti-money laundering

The Group and its New York Branch have entered into a Written Agreement with the Federal Reserve Bank of New York and New York State Department of Financial Services (US regulators) which inter-alia requires the Group to address certain compliance and risk management matters relating to anti-money laundering and the US bank secrecy law requirements and the implementation of the requisite systems and controls and allocation of adequate resources to ensure full compliance with such requirements. Management is in the process of addressing the matters highlighted in the Written Agreement and in the subsequent inspections. While the Group seeks to comply with all possible laws and regulations and at this stage there is no indication of any financial impact or penal consequences.

36. FAIR VALUE OF FINANCIAL INSTRUMENTS

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The fair value of traded investments is based on quoted market prices, and have been disclosed in note 9.

Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Group's accounting policy as stated in note 5.8

The maturity and re-pricing profile and effective rates are stated in notes 41.4.1, 41.4.3 and 41.3.2 respectively.

In the opinion of management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits are frequently repriced.

40. CAPITAL ASSESSMENT AND ADEQUACY

40.1 Statutory minimum capital requirement and management of capital

The Group's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- to comply with the capital requirements set by the regulators of the Grouping markets where the Group operates;
- to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to maintain a strong capital base to support the development of its business.

The SBP has issued instructions for Basel-III Implementation vide BPRD Circular No. 06 of 2013 dated August 15, 2013. These instructions are effective from December 31, 2013 in a phased manner with full implementation intended by December 31, 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

Basel-III instructions comprises of the following three capital standards:

i. Minimum Capital Requirement (MCR):

The MCR standard sets the nominal amount of capital banks/ DFIs are required to hold. Currently the MCR for banks and DFIs is Rs. 10 billion as prescribed by SBP.

ii. Capital Adequacy Ratio:

The Capital Adequacy Ratio (CAR) assesses the capital requirement based on the risks faced by the banks/ DFIs. The banks/ DFIs are required to comply with the minimum requirements as specified by the SBP on standalone as well as consolidated basis. Currently the required CAR for banks is 11.275%.

iii. Leverage Ratio:

Tier-1 Leverage Ratio of 3% is introduced in response to Basel III Accord as the third capital standard. Bank level disclosure of the leverage ratio and its components has started from December 31, 2015. The bank has a leverage ratio of 3.54% in the year December 31, 2017 (2016 : 4.00%) and Tier-1 capital of Rs 105,085 Million (2016: Rs 99,721 Million).

The SBP's regulatory capital as managed by the Group is analysed into following tiers:

1. Tier 1 Capital (going-concern capital)

- Common Equity Tier 1
- Additional Tier 1

2. Tier 2 Capital (gone-concern capital)

- Tier I capital, which comprises highest quality capital element and include fully paid up capital, balance in share premium account, reserve for issue of bonus shares, general reserves and un-appropriate profits (net of accumulated losses, if any).
- Tier II capital, which includes general reserve for loan losses, revaluation reserve, exchange translation reserve and subordinated debt.
- "Tier III capital, has been eliminated in Basel III Capital requirements. Also the Basel III capital rules requires bank to make certain deductions from the capital before arriving at the Capital Adequacy Ratio (CAR). These deductions are being done in phased manner starting from 2014, with full deductions in 2018.

Risk weighted assets are measured according to the nature and reflect an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off balance sheet exposures, with some adjustments to reflect more contingent nature of potential losses.

The Group's policy is to maintain strong capital base so as to maintain, investor, creditor and market confidence and to sustain future development of the business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the SBP. The ratios compare the amount of eligible capital with the total of risk-weighted assets. The Group monitors and reports its capital ratio under the SBP rules, which ultimately determines the regulatory capital, required to be maintained by Banks and DFIs.

The paid-up capital of the Group for the year ended December 31, 2017 stood at Rs. 21,275 billion (2016 : Rs. 21,275 billion) and is in compliance with the SBP requirement for the said year. In addition the Group has maintained minimum Capital Adequacy Ratio (CAR) of 16.48% (2016: 17.15%).

There have been no material changes in the Group's management of capital during the year.

41. RISK MANAGEMENT

Risk management is about understanding and managing the potential for volatility of earnings, loss of access to reliable deposits and funding and depletion of capital arising from the business activities, whilst pursuing its strategic objectives. The Group has in place a well-defined risk management strategy/ policy with clear objectives and deliverables through multi-pronged risk management processes.

The Group applies the Basel framework as a cornerstone of the NBP's risk management framework and capital strategy. The Group maintains a strong capital, funding and liquidity position in line with its on-going commitment to maintain balance sheet strength. The strength of risk profile management of the The Group stands at the following pillars:

- Identification and assessment of significant material risks.
- Overseeing and managing the risk profile of the Group within the context of the risk appetite.
- Optimise risk/return decisions by aligning them to business objective of achieving sustainable optimum growth.

In order to support RMG's activities, the strong data management mechanism is also in place to collect and consolidate exposure wise information various risk related analysis and reviews. The mechanism also helps in identification of e-CIB related information, performing periodic review, generates reports and highlights inconsistencies and errors, and issuing instructions to the relevant data entry points for rectification.

As another initiative with the objective of strengthening the existing business activities of The Group, the Business Process Review and COSO implementation project has been conducted. This will optimize utilization of Core Banking Application through streamlining the operating model, improving regulatory compliance, and also improving the customer service and product/ service deployment. This also includes aligning the existing documentation with improved risk based processes, which in turn will act as a tool for effective operations, improve MIS reporting, and efficient risk informed decision making.

41.1 Risk Governance Structure

Risk Management Group (RMG) operates as an independent group, i.e. separate from approvals and direct involvement in day-to-day activities. RMG reports directly to the President with a dotted line reporting to the Board Risk Committee (BRC). The group is responsible to perform the functions pertaining to development and oversight of the risk framework, methodologies and other functions assigned from time to time in line with local/ international best practices and under the supervision of SBP's regulations/ guidelines.

The Group's Board is responsible to ensure active oversight over implementation of policies and frameworks so as to prevent any significant financial loss or reductions in shareholder value that may be suffered by the Group. Therefore, it is the responsibility of the Board to ensure that policies and frameworks are in place to recognize all significant/ material risks to which the Group is/ may be exposed and that the required human resource, culture, practices and systems are adequate to address such risks. The Board and its relevant committee, i.e. BRC and the senior management along with its relevant committees i.e. Credit Committee, Executive Risk Management Committee (ERMC), ALCO etc. are responsible to ensure formulation and implementation of risk management framework.

41.2 Risk Management Framework

The Group implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective & independent oversight and also that the activities take place as intended. Risk Management Group together with Compliance Group acts as second line of defense and performs integrated function of oversight and independently challenges the effectiveness of risk management actions taken by business groups, who are the first line of defense. The risk management is further strengthened by the third line of defense, where Board Audit & Compliance Committee and Audit & Inspection Group add value through independent and objective assurance in improving risk management functions of the The Group.

Following paragraphs introduces The Group exposures to material risks associated with its business activities and explain overall strategies and processes to manage those risks:

41.2.1 Credit Risk

Credit risk is the potential that a client or counterparty will fail to meet its contractual obligations to the Group in accordance with agreed terms. Group lending activities account for most of the Group's credit risk, however other sources of credit risk also exist throughout the undertakings of the Group. The activities include loans and advances, commitments to lend, contingent liabilities such as letter of credit and guarantees, and other types of both on and off balance sheet transactions. The Group has a separate setup that ensures the effectiveness of the framework for assessment/ measurement, monitoring, and reporting of credit risk.

The Group has a clear policy to structure the levels of credit risk it undertakes by placing limits on exposures of counterparties, groups of related counterparties, and to various industry segments. This risk is monitored on an ongoing basis and is subject to an annual or more frequent review.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

For portfolio analysis of counterparties within various industries and constitutions, the Group also has an Internal Ratings System based on multiple risk factors as per best market practices. The analysis helps to provide the insight of borrowers' current and future financial health along with repaying capabilities, henceforth, creates an integral contribution in decision making by senior management of the Group. Concentration of exposure/ risk in any of counterparty, group, or industry is assessed frequently and accordingly limit setting is tailored in accordance with the changing socio-economic/ market conditions.

Standardized Approach is used to calculate capital charge for credit risk as per Basel regulatory framework, with simple approach for credit risk mitigation. Moreover, stress testing for credit risk is carried out on regular basis to estimate the possible impact of increase in non-performing loans of the Group and downward shift in its sub-categories.

41.2.2 Market and Liquidity Risk

Market Risk is the potential for gains or losses to arise from trading activities undertaken by the Group as a result of movements in market rates or prices such as interest rates, foreign exchange rates, and equity prices.

The Group's market risk is managed through Market Risk Management (MRM) Framework approved by the Board which is comprised of related Policies/ Procedures with the objective to mitigate market risk through the engagement of various strategies in relation with prices, rates, and spread movements of its earning assets, liabilities and trading activities. Group has also worked on devising improved criteria for various market risk limits. Under the developed Value-at-Risk (VaR) models and policy framework, VaR limits are being monitored through pilot run with an objective to be used for capital charge calculation under IMA approach in future.

Standardized Approach is used to calculate capital charge for market risk as per Basel regulatory framework. Whereas, Stress testing for various risks related to market and non-market based activities is carried out regularly to estimate the impact over the capital of the Group.

In addition to the regulatory requirements, Group has devised proprietary market risk stress testing scenarios which are performed on periodic basis to assess the impact on capital of the Bank for Internal Capital Adequacy and Assessment Process (ICAAP). Limits/ zones and Management Action Triggers & Management Action Plans corresponding to Liquidity Ratio, Balance Sheet Duration Gap, Government Securities PVBP and Duration have also been developed. These triggers are used for proposing/ recommending actions by ALCO of the Group.

41.2.2.1 Interest Rate Risk (IRR)

Interest rate risk specifically arises due to adverse movements in yield curve of underlying asset which is being monitored by ALCO with an objective to possibly limiting the potential impact over the profitability of the Group which may result in instability of market based interest rates and mismatching or gaps in the amount of financial assets and financial liabilities in different maturity time bands. Group assumes that the sources of IRR are based on following sub-risks.

- Re-pricing risk; arising from changes to the overall level of interest rates and inherent mismatches in the re-pricing term of banking book items.
- Yield curve risk; arising from a change in the relative level of interest rates for different tenors and changes in the slope or shape of the yield curve.
- Basis risk; arising from differences between the actual and expected interest margins on banking book items over the implied cost of funds of those items.

The above mentioned risks are not only measured, monitored, and managed from the regulatory purpose, but from the perspective of internal management.

41.2.2.2 Equity Position Risk

The trading activities also raise risk which occurs resulting in negative fluctuations of daily stock prices specifically in those stocks which are held by the Group, hence, deplete capital. The Group's equity position is managed through limits imposed by regulator for both, overall investment and exposure in single scrip. Moreover, internal limits are set to possibly manage overall earnings in the form of placing of stop loss limits and/ or through diversification within the structure of overall equity position portfolio.

41.2.2.3 Foreign Exchange Risk

Foreign exchange and translation risk arises from the impact of currency movements on the value of the Group's cash flows, profits and losses, and assets and liabilities as a result of participation in global financial markets and international operations.

In order to manage currency risk exposure the Group enters into ready, spot, forward and swaps transactions with the SBP and in the interbank market, financial institutions and corporate. The Group's foreign exchange exposure

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

comprises forward contracts, purchases of foreign bills, foreign currencies cash in hand, balances with banks abroad, foreign placements with the SBP and foreign currencies assets and liabilities. Foreign Exchange exposure is managed within the statutory limits, as fixed by the SBP. Appropriate segregation of duties exists between the front, middle and back office functions.

41.2.3 Operational Risk

The Group may suffer losses due to its exposure to operational risk. To mitigate, a comprehensive Operational Risk Management (ORM) framework has been developed to aligning the Group's operations with sound practices for operational risk set by Basel framework. ORM framework provides guidance for setting the operational risk strategy of the Group, selection and adoption of risk and loss measurement tools, reporting, communication, and establishment of operational risk management processes.

Operational risks are a core component of doing business arising from the day-to-day operational activities of the Group as well as strategic projects and business change initiatives. The Group realizes that operational risks cannot be fully mitigated, it therefore determines an appropriate balance between accepting potential losses and incurring costs of mitigation.

Further, Bank has adopted a comprehensive Operational Risk Strategy approved by the Board including Operational Risk Tolerance limits in-line with Basel framework related Loss Event Categories. Furthermore, Bank has rolled-out Operational Loss Data Collection Mechanism whereby field functionaries are responsible to report operational losses under their jurisdictions on a certain frequency. Operational loss events are reviewed and appropriate corrective measures are taken on an ongoing basis.

As per regulatory framework, Bank calculates capital charge for its operational risk using Basic Indicator Approach.

41.2.4 Information Security Risk

In today's highly technologically depended environment, where most of the business functions are heavily dependent on the information technology for storing, processing and sharing information; the information "assets" that are being used to store, process and transmit the information, face various types of threats. If threats get materialized and are able to exploit the vulnerabilities (weaknesses) present in these information assets, then the Confidentiality, Integrity and Availability of information get compromised. In order to mitigate the risks certain controls and countermeasures need to be assessed and implemented.

The Group, hence, classifies Information as a critical asset and declares the related information storing, processing and transmitting facilities/systems as Information Assets. Information may exist in many forms across the organization in Digital as well as non-digital (paper based). Henceforth, the Risk Management Group is responsible to provide a framework for information security risk management of information assets to the respective stakeholders. The information security risk management includes risk identification, risk analysis, risk evaluation and risk treatment plans. Currently, Information Security Risk Management Framework v1.0 is ready to be submitted for approval process. The information security setup is also responsible to execute risk assessment exercises in coordination with Business Information Security Officers, Information Asset Owners and Custodians. In this regard, a Risk Register will be maintained covering the scope of approved Information Security Risk Management Framework.

41.2.5 Enterprise-wide Risk

In addition to the above mentioned risks, the Group has a structure to identify residual material risks through generation of various MIS reports on periodic basis. The source of these reports includes, but not limited to, the Board approved Internal Capital Adequacy and Assessment Process (ICAAP), which commensurate risks over and above those which directly occurs as a result of daily business and operations of the Bank. These risks include Concentration Risk, Interest Rate Risk in Banking Book (IRRBB), Downward Shift in NPL Categories, Reputational Risk, Strategic Risk, etc.

Moreover, all those brewing risks that are material and arise within the Group or due to inherent behavior of country's market and economic conditions, whether in isolation or in combinations are covered under the bank-wide Recovery Plan. These risks are monitored on certain frequency and corrective actions are taken as and when deemed necessary.

The Group has also started preparation to implement advanced approaches of risk quantification based on sophisticated modeling techniques; macro-stress testing is, one of the tool recently developed by the Group, conducted assuming synthetic deterioration in micro and macro-economic factors to possibly measure the impact on capital of the Group which is based on time series methodology and is validated.

For further strengthening the existing risk management structure, a comprehensive diagnostic exercise has been conducted on a Group-wide basis and the relevant areas for improvement were identified. This exercise encompassed all possible aspects that impacted the Group's Risk Management environment including the assessment of its existing risk management structure, policies and procedures, overall system architecture from a risk perspective and data availability and quality required for comprehensive risk management. Based on the areas identified during the diagnostic exercise, corrective measures have been suggested and taken accordingly.

41.3.2 Mismatch of Interest Rate Sensitive Assets and Liabilities

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in the mark-up / interest rates. The Group is exposed to interest / mark-up rate risk as a result of mismatches or gaps in interest / mark-up based assets and liabilities that mature or re-price in a given period. The Group manages this risk by matching / re-pricing of assets and liabilities. Assets and Liabilities Committee (ALCO) / Executive Risk Management Committee (ERMC) of the Group monitors and manages the interest rate risk with the objective of limiting the potential adverse effects on the profitability of the Group.

Management of interest rate risk is one of the critical components of market risk management in banks. The Group's net interest income or net interest margin is also dependent on the movement of interest rates and mismatches in the cash flows or re-pricing dates. Interest rate risk management includes establishing and monitoring various risk mitigating / quantifying limits such as PVPB, duration, balance sheet DGAP, and other money market and interest rate sensitivity limits.

As part of the risk reporting, an interest rate sensitivity statement is prepared on a quarterly basis. This statement classifies the interest rate-sensitive assets and liabilities into various maturity groups enabling the management to monitor the impact of interest rate movements on the Statement of Financial Position.

41.4 Liquidity Risk

Liquidity risk is the risk that the Group will be unable to meet its liability when they fall due. To mitigate this risk, management has arranged diversified funding sources, manages specific assets with liquidity in mind and monitors liquidity on daily basis. In addition, the Group maintains statutory deposits with central banks inside and outside Pakistan.

The purpose of liquidity management is to ensure that there are sufficient cash flows to meet all of the Group's liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking sustained damage to the Group's reputation, as well as to capitalize on opportunities for business expansion and profitability. This includes the Group's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature and to make new loans and investments as opportunities arise.

ALCO is responsible for ensuring that the Group has adequate liquidity and monitors liquidity gaps, to execute this responsibility. Regulatory stress as well as proprietary stress testing and ratio based liquidity assessments are performed to proactively identify and manage liquidity position, needs /requirements. Group has various limits / ratios, triggers and management actions in place to monitor and mitigate liquidity risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

41.4.2 Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR):

The Group has designed and developed a comprehensive framework which governs the overall activities to be carried out with respect to Liquidity Monitoring. The Group also carries out ICAAP exercise semi-annually which includes specific scenarios designed with the intent to monitor Liquidity (under stress). The Group also prepares on daily basis, group wide Daily Cashflows/Liquidity Report which covers the broad level inflows and outflows of the Group and compares the same with the excess securities and liquidity available in point in time.

Risk Management also prepares a comprehensive Risk Management MIS which is presented to the Management and Board on regular basis.

The Group has also implemented mechanism for monitoring reliance on few fund providers which is designed using the liquidity stress scenarios being conducted regularly as per the regulator's guidelines. The same is presented to the Asset and Liability Committee on regular basis.

The Group has approved Asset Liability Management Framework which includes robust Contingency Funding Plan / Policy and liquidity assessment is carried out on regular basis, and same is presented to the Management / Board level committees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2017

41.4.3 Maturities of Assets and Liabilities (based on behavioural study)

The Group has assets and liabilities that have contractual and non-contractual maturities. The Group conducts statistical study to assess the expected maturity of assets and liabilities with non-contractual maturities. The behavioral maturities are determined on the basis of statistical study conducted by the Group, based on the past seven years of data. The attrition rate of deposits is determined based on historically observed weekly data of all Current and Saving Deposit accounts using VaR based approach. The approach considers the tendency of variation among the respective time bands for selected deposit types and drives the portion of volatility of such time bands based on 99% confidence interval on the variation data so calculated. The remaining portion of the deposit which marked as core is accordingly shifted to higher time bands.

42.6 Pools maintained by NBP-IBG

NBP-IBG has managed following pools for profit and loss distribution.

- a) General depositors pool
- b) Special depositors pool
- c) Equity pool

Key features and risk & reward characteristics

Deposits are accepted from customers on the basis of Qard (current accounts) and Mudaraba (Saving and term deposits). No profit or loss is passed on to current account depositors.

For deposits accepted on Mudaraba basis from depositors (Rab ul Maal) the Group acts as Manager (Mudarib) and invests the funds in the Shariah Compliant modes of financings. Rab ul Maal share is distributed among depositors according to weightages declared for a month before start of the period.

In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investment.

Equity pool includes IBG's fund and current account deposits. The equity pool may have constructive liquidation every month and risk associated with assets of pool includes operational, market, equity, return and Shariah.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.
